ARTICULATION AGREEMENT

Through the Concurrent Enrollment Program, Stephen F. Austin State University allows students from accredited high schools or school districts to enroll in college-level courses while completing their high school studies provided they meet the eligibility requirements of the program. High school students may enroll in college-level courses for enrichment purposes only or for dual credit (defined as receiving both high school and university credit). The University shall follow all applicable rules and regulations of the Texas Higher Education Coordinating Board for those students wishing to receive dual credit. Nacogdoches High School and Stephen F. Austin State University enter into the following agreement regarding high school students participating in the Concurrent Enrollment Program for dual credit purposes:

Eligible Courses: Eligible high school students may register for up to two university college-level courses per semester provided they meet course prerequisites and the course(s) is on the approved course inventory for the University.

Student Eligibility: Eligible students must meet admission requirements as stipulated in Stephen F. Austin State University Policy A-50, Concurrent Enrollment Program. Eligibility requirements are also included on the Concurrent Enrollment Program for High School Students Application.

Location of Class: In most situations, dual credit courses are taught on the University campus. Courses taught exclusively on high school campuses or through electronic means shall comply with all Coordinating Board rules and regulations.

Composition of Class: University courses may not be taken for high school credit only.

Faculty Selection, Supervision, and Evaluation: All Concurrent Enrollment Program courses are taught by SFA faculty/instructors.

Course Curriculum, Instruction, and Grading: The same policies, regulations and standards for course curriculum, grading and instruction for university students will be applicable to high school students participating in the Concurrent Enrollment Program. High school students must meet and abide by all rules and regulations as described under Academic Regulations of the most recent University General Bulletin.

Academic Policies and Student Support Services: Regular academic policies will apply to courses taken through the Concurrent Enrollment Program. Likewise, all student support services are available to students enrolled in concurrent courses.

Transcripting of Credit: University credit will be posted by the Registrars Office at the same time as other University students. The high school will make the necessary arrangements to receive the grade for those students earning dual credit so it may be posted on the student’s high school record.
