### WIFI and Internet

SFA has two wireless access options (SSID's): SFA-WIRELESS and SFA-LAWN. Both connect to the same network and provide the same performance; however, SFA-LAWN is more secure. SFA-WIRELESS is still encrypted and secure, but provides a lower level of protection. SFA-WIRELESS can be accessed by devices that cannot be configured to connect to SFA-LAWN. Connecting to the wireless is a two-step process:

1. Connect to the access point.
   a. SFA-WIRELESS does not require a username. The password is "golumberjacks" (all one word, no quotes).
   b. SFA-LAWN requires your mySFA username and password. Once connected to the access point, you must register with Bradford Campus Manager.

2. Register with Bradford Campus Manager by opening a web browser (Internet Explorer, Google Chrome, etc). You should be redirected to the Bradford Campus Manager. Follow the instructions to complete registration.
