GIS / UAV (Drone) Processing Technician

We are looking for an individual with a strong background in GIS with experience/knowledge in Computer Science or IT. Locally based, professional company with a good working environment and company benefits plan.

Primary duties will include:

- Photogrammetric processing of drone data and 3-dimensional data editing
- Spatial and tabular data management
- GIS mapping and report compilation
- Other data analyses (Thermal, CIR, etc…)
- Miscellaneous IT & Networking troubleshooting maintenance

Other duties:

- Flexibility to do field work, as needed (including occasional overnight stays)
- Environmental Sampling
- Report Compilation and Writing
- Occasional maintenance as necessary
- Potential to obtain drone pilot license
- Any other duties as assigned

Job requirements:

- Attention to detail & ability to work independently (once trained) as well as desire to learn and follow procedures
- Strong Computer Skills
- Must pass drug test and background check
- Pay to commensurate with experience & education
- Shift will vary from 8 am – 5 pm (general schedule) and 3 pm – midnight (last few days of the month and on-demand)

Recommended Background:

- GIS Experience
- 3D Modeling Experience

Please either email (info@hydrex-inc.com) or fax (936) 568-9527 a letter of interest, detailed resume, and at least 3 references.
