Thank you for participating in our Lumberjacks GROW (Guided Reflection on Work) project! Taking part in this experience will encourage you to reflect on what you are learning through working on campus or off campus, as well as through your on-campus involvement. It will also allow you to participate in a virtual mock interview experience.

This project is managed by the Center for Career and Professional Development (CCPD). There are two parts to this project – an online survey, and the InterviewStream assignment. You will need to complete both parts. We recommend setting aside about 20 minutes, in a quiet space, at a computer equipped with a webcam.

For those who have a computer with a webcam, you can access InterviewStream and conduct your interview from home. For those of you who do not have this access please call the CCPD office at 936.468.3305 to schedule a time to use the computer in our office dedicated to InterviewStream.

1. Survey
   - Visit http://baseline.campuslabs.com/sfaweb/lumberjacks2016 to take the online survey.
   - When you complete the survey, click on the Jobs4Jacks link at the end (www.jobs4jacks.sfasu.edu).

2. InterviewStream
   - Log into your Jobs4Jacks account or register for an account if you have not already done so.
   - Click on InterviewStream on the left hand side of the page - Make sure to allow pop-ups!
   - You will answer six questions in a mock interview simulation. We strongly encourage you to treat the InterviewStream experience seriously – feedback will be provided back to you from a CCPD team member, and information may be shared with your supervisor.
   - You will need to use this assignment code to complete your interview:
     ExmsjKjfTpRC
   - Copy and paste the code into the Assignment/Self-Registration section on the left of the screen.
   - Your interview will load automatically. We strongly encourage you to complete your interview at this time.
   - Once your interview is complete, a CCPD team member will review it and provide feedback to you via your Jobs4Jacks account on your performance and areas in which you could improve.

If you run into any issues with completing the two parts of Lumberjacks GROW, or if you need accommodations to complete the assignment, contact CCPD at 936.468.3305 (during normal business hours) or via email at ccpd@sfasu.edu.
