Stephen F. Austin State University
DeWitt School of Nursing
NURSING CARE OF CLIENTS WITH COMPLEX MENTAL HEALTH NEEDS
SYLLABUS
Course Number: NUR 408
All Sections
Clinical Sections 010, 011, 012, 013, 014, 015, 016.
Spring 2016

Course Instructors
Malcolm Hotzman, MSN, RN-C
Sherry Van Meter, DNP, RN, PMHNP, WHNP, BC

Clinical Practicum Instructors
Malcolm Hotzman, MSN, RN-C
Sherry Van Meter, DNP, RN, PMHNP, WHNP, BC
Hazel Darleen Kimbrough, MSN, RN, FNP-BC (Clinical Only)

ALL INFORMATION IN THIS SYLLABUS IS SUBJECT TO THE WRITTEN
POLICIES AND PROCEDURES OF THE RICHARD AND LUCILLE DEWITT
SCHOOL OF NURSING, STEPHEN F. AUSTIN STATE UNIVERSITY,
NACOGDOCHES, TX

IN THE CASE OF COMMISSION, OMISSION, AMBIGUITY, VAGUENESS, OR
CONFLICT, THE POLICIES AND PROCEDURES OF THE SCHOOL OF NURSING
SHALL CONTROL.

EACH STUDENT SHALL BE RESPONSIBLE FOR ACTUAL AND/OR
CONSTRUCTIVE KNOWLEDGE OF THE POLICIES AND PROCEDURES OF THE
SCHOOL OF NURSING AND FOR COMPLIANCE THEREWITH.

EACH STUDENT IS RESPONSIBLE FOR ALL INFORMATION IN THIS SYLLABUS.

This syllabus is provided for informational purposes only.

Textbooks and Materials

Course Description
Builds on NUR 332. Application of nursing theory, research and practice to families and clients experiencing complex mental health needs. Emphasis on nurse’s role on interdisciplinary health care team.

Unabridged Course Description
This course builds on concepts learned in NUR 332 and previous, concurrent, and prerequisite courses. Students learn to apply nursing theory, research, and practice to clients and families of various developmental levels and diverse spiritual, ethno-cultural and socioeconomic
backgrounds who are experiencing complex mental health needs. Students utilize the nursing process and communication skills in provision of holistic nursing care to clients and families facing severe mental health stressors in a variety of settings. Emphasis is placed on the challenges of meeting the needs of mentally ill clients and their families and the nurse’s role in addressing associated legal, ethical and economic issues in conjunction with the interdisciplinary healthcare team.

**Number of Credit Hours**

2 credit hours (1 lecture/3 hours clinical practicum)

**Course Prerequisites and Co-requisites:**

**Pre-requisites:** NUR 330, NUR 331, NUR 332

**Co-requisites:** NUR 406, NUR 407

**Placement / Rationale**

First Semester Senior Year

Builds on previous nursing courses

**Program Learning Outcomes**

Graduates of the program will:

1. Apply knowledge of the physical, social, and behavioral sciences in the provision of nursing care based on theory and evidence based practice.
2. Deliver nursing care within an established legal and ethical parameters in collaboration with clients and members of the interdisciplinary health care team.
3. Provide holistic nursing care to clients while respecting individual and cultural diversity.
4. Demonstrate effective leadership that fosters independent thinking, use of informatics, and collaborative communication in the management of nursing care.
5. Assume responsibility and accountability for quality improvement and delivery of safe and effective nursing care.
6. Serve as an advocate for clients and for the profession of nursing.
7. Demonstrate continuing competence, growth, and development in the profession of nursing.

**General Education Core Curriculum Objectives/Outcomes**

None

**Differentiated Essential Competencies (DEC)**

The Richard and Lucille DeWitt School of Nursing prepares graduates to demonstrate the *Differentiated Essential Competencies of Graduates of Texas Nursing Programs Evidenced by Knowledge, Clinical Judgments, and Behaviors (DEC’s)*. The competencies are based upon the preparation in the program of study. In nursing education, the DEC’s serve as a guideline and tool for curriculum development and revision, a tool for benchmarking and evaluation of the program, and a statewide standard to ensure graduates will enter practice as safe and competent nurses. The DEC’s are incorporated into every course in the SON to ensure uniformity and continuity of standards.

Please refer to the Texas BON website for additional information.

[http://www.bon.texas.gov/about/pdfs/delc-2010.pdf](http://www.bon.texas.gov/about/pdfs/delc-2010.pdf)
Student Learning Outcomes
The student will:

1. Relate concepts and principles of the arts, sciences, humanities, and nursing as a source for providing holistic nursing care to clients and families with complex mental health needs.
2. Demonstrate responsibility and accountability using consistent behavior patterns and professional communication.
3. Compare and contrast theories of mental illness and treatment options used in the care of the mentally ill client.
4. Develop self awareness and insight into one’s own behaviors and communication patterns as they impact the delivery of nursing care.
5. Incorporate holistic nursing practice into the care of mentally ill clients from diverse developmental, spiritual, socioeconomic, and ethno-cultural backgrounds.
6. Apply nursing process to clients with focus on complex mental health needs.
7. Apply research findings in the provision of nursing care to clients and families experiencing complex mental health needs.
8. Implement teaching plans for mentally ill clients and families.
9. Collaborate with the interdisciplinary health care team in the provision of care to mentally ill clients and families.
10. Analyze moral, legal, economic, and ethical issues impacting provision of care to mentally ill clients.

Course Requirements
Written or computerized examinations; lectures, case studies; simulations, role playing, pre and post conference seminars, process recording assignments, clinical assignments, presentations, interactive discussions, care plans, teaching plans, audio-visual activities, journaling, service learning, and other projects may be used to evaluate the progress of the students. Learning experiences at a variety of clinical sites will be required; formative and summative clinical evaluations will be provided as feedback for students. Students must achieve an average of 75% on exams and pass the clinical portion to pass the course.

Course Calendar
Tentative calendar is attached.

Grading Policy
It is necessary to obtain a WEIGHTED MEAN TEST SCORE OF 75 in the class exam grades to pass this course. A weighted mean test score below 75 or a class average below 75 constitutes failure. Clinical will be graded as a Pass/Fail. You must pass both the class and clinical in order to pass Nursing 408. (Nursing Policy No. 25)

Exams are secure; no printing, copying, or writing questions down for outside use is permitted. Students are responsible for knowing their passwords for accessing online exam sites.
In the event of course failure, the student must petition the Student Affairs Committee to repeat the course and to remain in the program. See the School of Nursing policies relating to retention and progression.

The percentage values from which a course grade is determined are as follows:
A = (89.5 – 100%); B = (79.5 – 89.4%); C = (74.5– 79.4%) ; F = (74.4% or less).
The course grade will be computed in the manner illustrated below.

<table>

<td>25%</td>
</tr>
<tr>
<td>Total course grade</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Attendance Policy**

**Attendance at class is expected.** The student must be prepared for both class and clinical activities. Roll will be taken regularly. **If students arrive late, they should wait until the break to join the class.**

Arrangements for make-up of a major exam must be made in advance of the anticipated absence. Please refer to policy 20.

**POLICY:**

Background: The profession of nursing requires commitment and responsible behavior. Therefore, students are expected to be present for any exam.

Students may be excused from attendance for reasons such as health, family emergencies, or student participation in approved university-sponsored events. However, students are responsible for notifying their instructors in advance, when possible, for excusable absences. If so directed by the instructor, the student must bring a written excuse from the professional healthcare provider.

If the student has an excused absence from an exam, the instructor has the option of requiring a make-up exam or increasing the percentage of the points of another test. All final exams are mandatory. Any missed final exam will result in an incomplete grade until the final exam is taken.

**PROCEDURE:**

In the event of an imminent absence, the student will:

1. Notify the instructor prior to the exam;
2. Contact the instructor within two (2) days following the exam, in order to make arrangements to take the exam.

If the absence is not excused, a zero (0) will be received for the exam.
Inappropriate behavior (including sleeping, inattentiveness, and chattering) will not be tolerated and may result in removal from class or the clinical area. Cell phones must be turned off or put on vibrate during class and are not permitted at certain clinical sites. No texting or surfing the internet during class.

**Drop Policy:** Refer to campus academic calendar for drop dates.

**Academic Integrity (A-9.I)**
Academic integrity is a responsibility of all university faculty and students. Faculty members promote academic integrity in multiple ways including instruction on the components of academic honesty, as well as abiding by university policy on penalties for cheating and plagiarism.

**Definition of Academic Dishonesty**
Academic dishonesty includes both cheating and plagiarism. Cheating includes but is not limited to (1) using or attempting to use unauthorized materials to aid in achieving a better grade on a component of a class; (2) the falsification or invention of any information, including citations, on an assigned exercise; and/or (3) helping or attempting to help another in an act of cheating or plagiarism. Plagiarism is presenting the words or ideas of another person as if they were your own. Examples of plagiarism are (1) submitting an assignment as if it were one's own work when, in fact, it is at least partly the work of another; (2) submitting a work that has been purchased or otherwise obtained from an Internet source or another source; and (3) incorporating the words or ideas of an author into one's paper without giving the author due credit.

Please read the complete policy at http://www.sfasu.edu/policies/student_academic_dishonesty.pdf

**Withheld Grades (Semester Grades Policy A-54)**
Ordinarily, at the discretion of the instructor of record and with the approval of the academic chair/director, a grade of WH will be assigned only if the student cannot complete the course work because of unavoidable circumstances. Students must complete the work within one calendar year from the end of the semester in which they receive a WH, or the grade automatically becomes an F. If students register for the same course in future terms the WH will automatically become an F and will be counted as a repeated course for the purpose of computing the grade point average.

The circumstances precipitating the request must have occurred after the last day in which a student could withdraw from a course. Students requesting a WH must be passing the course with a minimum projected grade of C.

**Students with Disabilities**
To obtain disability related accommodations, alternate formats and/or auxiliary aids, students with disabilities must contact the Office of Disability Services (ODS), Human Services Building, and Room 325, 468-3004 / 468-1004 (TDD) as early as possible in the semester. Once verified, ODS will notify the course instructor and outline the accommodation and/or
auxiliary aids to be provided. Failure to request services in a timely manner may delay your accommodations. For additional information, go to http://www.sfasu.edu/disabilityservices/.

**Communication with Instructors:**

Instructors will communicate with students about the course through the use of D2L. Students are required to check these sites at least three times a week for announcements and posted material and are responsible for information posted on D2L website. Grades will be posted electronically.

**Grading Criteria and Forms for Assignments:**

Forms for assignments and grading criteria for assignments will be posted online on D2L. All assignments are due 1 week prior to CP Day. Assignments submitted after the posted due date will receive a grade of “0” unless prior arrangements have been made with the instructor.

*Note: You may be given assignments and new material may be introduced during the last five days of the semester (Dead Week).*

UNIt 1
Nurse’s Role in Caring for Clients with Complex Mental Health Issues

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:

Chapter 3: Biological Basis for Understanding Psychiatric Disorders and Treatments
Chapter 4: Settings for Psychiatric Care
Chapter 31: Serious Mental Illness

Chapter 20: Noncompliance
Chapter 21: Psychopharmacology
Unit 2
Nurse’s Role in Caring for Clients in Forensic Settings

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:

Chapter 32: Forensic Psychiatric Nursing

Chapter 19: Manipulative Behaviors
Unit 3
Legal/Ethical/Economic Issues in Care of Mentally Ill Clients

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:

Chapter 6: Legal and Ethical Guidelines for Safe Practice

Review American Nurses’ Association Code of Ethics and Standards of Care
http://www.nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses.asp
Unit 4
Management of Violent Clients

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:
Chapter 27: Anger/Aggression/Violence
Chapter 17: Anger and Aggression

Evolve Elsevier Patient Reviews: Anger, Hostility, and Aggression
Unit 5
Nursing Care of Clients with Mood Disorders

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:
   Chapter 14: Depressive Disorders
   Chapter 13: Bipolar Disorders
   Chapter 25: Suicide and Non-Suicidal Self Injury

   Chapter 6: Depressive Disorders
   Chapter 7: Bipolar Disorders
   Chapter 16: Suicide Behaviors
   Appendix F: Electroconvulsive Therapy

Review QPR content from NUR 332

Evolve Elsevier Patient Reviews: Depression and Elation
Unit 6
Nursing Care of Clients with Schizophrenia and Psychotic Disorders

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:

Chapter 12: Schizophrenia and Schizophrenia Spectrum Disorders

Evolve Elsevier Patient Reviews: Severe Persistent Mental Disorders
Unit 7
Nursing Care of Clients with Personality Disorders and Non Compliance Issues

Chapter 24: Personality Disorders

Chapter 9: Personality Disorders
Chapter 19: Manipulative Behaviors
Unit 8

Nursing Care of Victims and Perpetrators of Violence and Sexual Assault

   Chapter 20: Sexual Dysfunction, Gender Dysphoria, and Paraphilias
   Chapter 28: Child, Older Adult, and Intimate Partner Violence
   Chapter 29: Sexual Assault

   Chapter 14: Family Violence
   Chapter 15: Sexual Assault
Unit 9
Nursing Care of Clients with Substance Abuse/Chemical Dependency Issues

Unit Objectives:
See Chapter Objectives in your Textbook.

Required Preparation:
Chapter 22: Substance-Related and Addictive Disorders

Chapter 10: Addictions

Evolve Elsevier Patient Reviews: Substance Abuse
CLINICAL SYLLABUS

Clinical Practicum Information
Clinical Activities will include:

- All assignments are individual and should be completed on an individual basis.

Rusk Clinical .......................................................... 4 hours
Nacogdoches Memorial Behavioral Health ........................................... 4 hours
Burke MHEC Inpatient ................................................................. 4 hours
Movie Project .............................................................................. 3 hours
Freakonomics ................................................................. 3 hours
Case Studies ..................................................................... 8 hours
AA Meeting ........................................................................... 2 hours
Simulation ........................................................................... 8 hours
Clinical Processing ............................................................ 2 hours
Role Playing Scenarios/ Safety Training ..................................... 2 hours
Discussion Board will be addressed with each week of clinical ....... 2 hours

Total ......................................................................................... 42 hours

**Alternate assignments may be provided when appropriate.

Clinical Learning Outcomes
1. Apply nursing process to care of clients with complex mental health needs.
2. Collaborate with the interdisciplinary health care team in provision of care to clients with complex mental health needs.
3. Demonstrate knowledge of medications and treatment modalities prescribed in the treatment of mentally ill clients.
4. Use evidence based practice in the provision of care to mentally ill clients.
5. Advocate for clients with mental health needs.
6. Maintain physical and emotional safety in the therapeutic milieu.
8. Examine legal and ethical issues involved in the provision of care to the mentally ill.
10. Abide by laws, standards and policies of Stephen F. Austin State University, Texas Board of Nursing, facility policies and procedures, standards of practice, and professional code of ethics.
11. Examine own values and biases in the provision of holistic and culturally-sensitive care to clients with complex mental health needs.
12. Develop teaching plans for clients and families with complex mental health needs.

Evaluation – Clinical Component

Clinical performance will be graded on a pass/fail basis, and will be based on the evaluation of the student’s performance as measured by mastery of the Clinical Objectives listed previously. The student’s performance will be evaluated in the clinical area and on required written clinical assignments. If the student fails to pass the clinical portion of the course, the student will fail the course. The instructor provides feedback on clinical performance throughout the course.
A summative evaluation is done at the end of the clinical practicum during Clinical Processing Day (see calendar).

**Absence from Clinical Policy:**
To be an excused absence the student must be excused directly by the clinical instructor. If so directed by the instructor, the student must bring a written excuse from the health provider. Students must inform the clinical instructor prior to the beginning of the clinical day if unable to attend or if late.

Unexcused absences will result in a clinical F Day. Unexcused absences are defined as any absence that was not cleared with the instructor prior to the clinical experience, or any absence not directly related to illness of self or death of immediate family member or significant other.

Students will receive credit for clinical or class attendance if they are present for the entire class or clinical period. Students will not receive credit for any of the class or clinical period if they leave early unless given permission to leave early by the instructor. Absence from the clinical area exceeding 10% will result in a clinical failure regardless of the reasons. NUR 408 requires 42 hours of clinical practicum. See School of Nursing Policy 21 @ [http://www.fp.sfasu.edu/nursing/studentpolicies.htm](http://www.fp.sfasu.edu/nursing/studentpolicies.htm)

**Students are responsible for compliance with all School of Nursing policies** [http://www.fp.sfasu.edu/nursing/studentpolicies.htm](http://www.fp.sfasu.edu/nursing/studentpolicies.htm) and for complying with policies of each clinical facility.

**Clinical F Days**
Three clinical F days will result in clinical failure of the course. See Nursing Student Policies for specific policies and procedures. Clinical F days may be assigned for the following reasons:
1. Failure to provide safe, effective care.
2. Failure to assume professional accountability.
3. Failure to follow directions of the clinical instructor.
4. Three or more instances of unexcused tardiness (per SON policies).
5. No call/no show at clinical.

Clinical F days may be assigned for other reasons in accordance with current nursing standards, the Nurse Practice Act for the state of Texas, and the School of Nursing Student Policies, at the discretion of the clinical faculty.

**Policies for Clinical**
See School of Nursing Policies and Procedures. Students must abide by these policies and by clinical agency policies. These policies include, but are not limited to, current compliance with drug screening, criminal background checks, medical insurance, immunizations, TB screens, confidentiality, dress code and infection control. The student is responsible for current compliance and may not attend class/clinical until requirements are fulfilled.
Student Dress Code and Behavior in the Clinical Area

The following instructions will apply, (unless the clinical facility requires scrubs/ lab coat/ alternative attire to be worn):

1. Students are required to wear SFA purple collared shirt with loose fitting full length khaki, navy, dark gray or black slacks.
2. Chests or cleavage may not be exposed.
3. Clothing may not be tight fitting or revealing.
4. Undergarments may not be visible through clothing.
5. Shoes must be close toed, low heeled, non skid soles, have backs, and be comfortable for walking; no sandals, cowboy boots or high heels. Nurse shoes worn in other clinical courses may be worn if they have backs (no backless Crocs, etc).
6. No athletic shoes, running shoes, or sneakers are permitted.
7. Make up in moderation may be worn.
8. No perfumes, but wear deodorant.
9. Nails must be trimmed and short; and no nail polish is allowed. No acrylic, plastic, or other artificial nails are permitted.
10. Wear student nametag at all times.
11. No gum chewing, eating or drinking while in patient care areas.
12. No smoking or tobacco use during clinical hours is permitted.

Failure to follow the dress code and clinical guidelines (including forgetting to wear student name tag) will result in an F day and the student may be sent home from the clinical site.

Cell phones are not permitted at Rusk State Hospital and Nacogdoches Memorial Behavioral Unit or Burke clinical sites. They may not be used for personal business during clinical hours. Pictures may not be taken at clinical sites.

Clinical Application of NCLEX RN style questions: A minimum of 10 NCLEX style questions per week must be completed to pass the course. These questions will be documented on the clinical tracker form provided in this syllabus and will be submitted to the instructor on CP day.

Clinical Evaluation Tool  
NUR 408: Nursing Care of Clients with Complex Mental Health Needs

Student: ____________________________ Date  Fall/Spring: ________  
Instructor(s): ________________________

Evaluation Criteria: S = Satisfactory  U = Unsatisfactory

Ongoing clinical feedback will be provided in individual student-faculty conferences throughout the clinical rotation and will be documented on page 3.

Clinical objectives for evaluation are listed on page 2.

By the end of the clinical rotation, the student must satisfactorily demonstrate all behaviors described in the clinical objectives to pass the clinical portion of the course.

### Clinical Objectives

**A. MEMBER OF THE PROFESSION**

1. Adhere to legal and ethical standards of the profession.  
   - IA  
   - IIA  
   - IIE

2. Assume responsibility and accountability for quality of nursing care.  
   - IB

3. Assess own strengths and weaknesses and utilize feedback for professional growth.  
   - ID

4. Maintain professional boundaries in nurse-client and student-faculty relationships.  
   - IA

**B. PROVIDER OF PATIENT-CENTERED CARE**

1. Relate applicable knowledge, concepts, and theories to the care of clients with complex mental health needs.  
   - IIA

2. Utilize nursing process in provision of care to clients experiencing complex mental health needs.  
   - IIB  
   - IIC

3. Assess own values and biases in the provision of holistic and culturally-sensitive care to clients with complex mental health needs.  
   - IIB  
   - IID

4. Evaluate effects of medications and treatment modalities prescribed for mentally ill clients.  
   - IIF

5. Develop teaching plans for clients and families with complex mental health needs  
   - IIG

6. Use evidence based practice in the provision of care to mentally ill clients  
   - IIA  
   - IIB

7. Analyze interactions to discern therapeutic/professional/social communication patterns.  
   - IIE

8. Appraise legal, economic, and ethical issues involved in the provision of care to the mentally ill  
   - IIE

**C. PATIENT SAFETY ADVOCATE**

1. Maintain strict infection control measures in clinical settings.  
   - IIIB

2. Maintain emotional and physical safety in therapeutic milieu.  
   - IIIB  
   - IIC

**D. MEMBER OF THE HEALTH CARE TEAM**

1. Collaborate with the interdisciplinary health care team in provision of care to clients with complex mental health needs.  
   - IVA

2. Appraise community resources available in the provision of nursing care to clients with complex mental health needs.  
   - IVC  
   - IIIH

3. Establish effective working relationships with clients, faculty, staff, and peers.  
   - IVA

4. Apply principles of group dynamics to participation in groups as member and leader.  
   - IVD

5. Compare methods of care delivery in community, acute, and residential care settings  
   - IVC

6. Advocate for clients with mental health needs.  
   - IVB
Stephen F. Austin State University School of Nursing
HIPAA Compliance

Stephen F. Austin State University (SFASU) has cooperative agreements with agencies in the area for the clinical training of its students enrolled in all health-care fields and programs. To ensure that SFASU students, faculty, and staff involved in these programs understand the patient privacy requirements of the clinical sites and of applicable laws, including the Health Insurance Portability and Accountability Act of 1996, SFASU offers this guidance for those persons to ensure compliance with those requirements. Note: The discussions, uses, or disclosures discussed below encompass written, verbal, or electronic communication.

<table>

CLINICAL SITE INFORMATION

Directions to Rusk State Hospital

P.O. Box 318
Rusk, TX 75785
Contact: Penny Leake, RN, Patient Care Coordinator
(903) 683-7125

Take Highway 21 West for about 25 miles to Alto. When you get to the blinking traffic light in Alto, take a right on Highway 69 North. Go 12 miles on Highway 69 North until you get to Rusk. Continue north through the blinking traffic light on Highway 69. The hospital will be on your left. Enter at the guard booth and park in the lot directly in front of the main administration building; it is an old white painted brick building with a Historic Plaque on the front. Meet instructor in the front lobby of this building.

Directions to Burke Center MHEC

105 Mayo St
Lufkin Texas
Contact: Kathy Burr (936) 674-3500

Directions to Alcoholics Anonymous in Nacogdoches

Murray St Group (Non smoking)
1221 Murray Street, Nacogdoches, Texas
564-3388
Coming from SFA go down University Drive and turn left on Tanglewood beside the old Cinco deMayo, then take a right on Wedgewood which is the first street you come to, go down for a few blocks and take a left on Wedgewood which is the first street you come to, go down for a few blocks and take a left on Murray, go up Murray for a block or two and the building is easy to see. It has AA in big letters on the sign.

Deep East Texas Group (Smoking Groups: Patients smoke; students may not smoke).
601 E. Main St
Nacogdoches
Contact: Nicole: (936) 569-6441

Directions to Nacogdoches Memorial Behavioral Health Unit

1204 Mound Street
2nd Floor
Contact: Amanda Davis, RN, Nurse Manager

Student should sign upon completion of each simulation. Signature verifies the program was completed as assigned. If the CAI was not completed by the student, cheating/plagiarism has occurred and the student may fail the course or receive a grade of zero according to university and school of nursing policies governing academic integrity. No grades recorded. Unlimited attempts. *This log should be submitted to nursing faculty on Clinical Processing Day. Optimal learning will occur by completing each simulation when the content is taught in lecture.*
