Please find attached the 2013 University Police Department report regarding racial profiling. This report is prepared in accordance with the requirements of the Texas Racial Profiling Law and Section 2.132(b)(6) of the Texas Code of Criminal Procedure. It is provided annually to the members of the Board of Regents as well as the President and other members of the University administration.

During the April Board meeting I will briefly review the report during the Academic and Student Affairs committee meeting. If you have any questions prior to that time I will be glad to visit with you.

Sincerely,

Steve Westbrook, Ed.D.
Vice President for University Affairs
March 1, 2014

Since January 1, 2013, the Stephen F. Austin State University Police Department, in accordance with the Texas Racial Profiling Law (Senate Bill 1074) and 2.132(b)(6) of the Code of Criminal Procedure, has been collecting police data for the purpose of identifying and responding (if necessary) to concerns regarding racial profiling practices. It is my hope, that the findings provided in this report will serve as evidence that the Stephen F. Austin State University Police Department continues to strive towards the goal of maintaining strong and positive relations with the community.

The final components of this report will provide data relevant to the public contacts made during the period of January 1, 2013 thru December 31, 2013 where citations were issued or an arrest was made from a traffic stop. This information has been analyzed and compared to the Stephen F. Austin State University demographic data on students, faculty/staff, and employees housed on the University campus. The analysis of the data and any recommendations for future areas of research are also included. It is my sincere hope that the channels of communication between community leaders and the Stephen F. Austin State University Police Department continue to strengthen as we move forward to meet the challenges of the future.

Sincerely,

Marc Cossich
Chief of Police

Analysis

The data presented in this report contains valuable information regarding police contacts where citations were issued and/or arrests were made with the public between the dates of January 1, 2013 – December 31, 2013. Despite its value, the raw data does not present much information relevant to the racial profiling trends.

Thus, it is felt that further data is warranted. As such, data was obtained through the Stephen F. Austin State University Institutional Research Department, SFASU Housing, Human Resources, and Aramark Dining Service. This data best represents the population that the SFASU Police Department has regular contact with on a daily basis and is used for the contact analysis in this report. The census data was viewed as not being relevant to the “special” population of the SFASU community.

The ethnic breakdown of this data is as follows:
Total SFA Student Enrollment for Fall 2013, Faculty and Staff, and Aramark Dining - Caucasian: 8736, African America: 2980, Hispanic: 1789, Asian: 160, Native America: 68, and Other: 744 (Either not specified or claimed more than one ethnic group);
Total SFA On-Campus Housing for Fall 2013 – Caucasian: 2713, African America: 1368, Hispanic: 294, Asian, 86, Native American: 159, Other: 46 (Either not specified or claimed more than one ethnic group).

When comparing the members of the community who came in contact with the Stephen F. Austin State University Police Department of Public Safety during 2013 with those who, according to SFASU community population were associated with the University during that time, the data showed close correlation between population demographic percentages and the police contact percentages.

None of the percentages varied enough to indicate a problem with racial profiling by police officers. The exact number of the police contacts that resulted in a citation issued and/or an arrest made is provided in the attached sheets. However, the exact number of the community population is not completely exact due to the influx of non-university community members being on the campus for various reasons throughout the work day, weekends, and particularly after 5pm.

In examining the number of citations and arrests made from public contact, 77.8% of them occurred after 5pm and 56% of them are non-SFA affiliates. After 5pm each day and on the weekends is when we have primarily On-Campus Housing students and an influx of non-student population to the campus.

Throughout the calendar year of January 1, 2013 – December 31, 2013, the University Police Department did not receive any complainants against any officer for racial profiling.
