

Stephen F. Austin State University – M.A. in History with an emphasis in Public History

For more information contact the History Department at 936.468.3802

History is the research, interpretation, and presentation of the past.

Public history at SFA connects historically-minded individuals and groups of the East Texas community with the university faculty and students.

Together we have completed numerous oral history, restoration, historic marker, National Register, tour, publication, and conference projects.

Do public history! Discover the context and significance of local and regional historic events, sites, and individuals. Present the past to the public & explain its relevance to the 21st century while preserving the integrity of our historic resources.
