STANDARD POLICY

POLICY

To ensure excellence of the programs of the School of Nursing (SON) and to assist with ongoing curriculum revision, graduates of the SON and their employers will be asked to participate in a summative evaluation of the program in the form of a survey. RN to BSN Track graduates will participate in a summative evaluation of RN-BSN Track program. Information obtained from the surveys will be used to enhance and revise the curriculum in the Generic and the RN to BSN Track programs.

PROCEDURE

1. A survey will be distributed to all new generic and RN-BSN Track graduates upon graduation. Form 98A will be completed by all generic graduates. Form 98D will be completed by RN BSN Track graduates.
2. A survey (Form 98B) will be sent via email to all generic graduates six months after graduation. The completed survey will be returned via email to the designated SON email address. Form 98E will be sent to RN BSN Track graduates six months after graduation.
3. A survey (Form 98C) will be sent, six months following graduation, to area hospital employers who have hired the graduates. The survey will be returned to the chair of the Evaluation and Program Effectiveness (EPE) Committee.

Once the RN-BSN Track graduate returns the survey (Form 98E) with the name and current email address of current employer, the employee survey (Form 98F) will then be sent to the identified employer.

4. The results of the surveys will be compiled by the EPE Committee and reported to the Director of the School of Nursing and the faculty.
