STANDARD POLICY

POLICY:

All students accepted into the School of Nursing (SON) shall have a urine drug screen before attending clinical classes to ensure safety of the public and comply with Joint Commission of Accreditation of Health Care Organizations (JCAHO) standards.

PROCEDURE:

All new SON students shall have a clear urine drug screen documented in the SON before attending clinical classes. The drug screen must be at least a 10-panel screen.

The SON will designate the companies approved to do the urine drug screening. Results from a company other than those designated may be accepted at the discretion of the SON.

The student will pay for the urine drug screen.

If a student has a positive drug screen, the SON will accept a second screen within one week. The student will pay for the second urine drug screen.

If the second drug screen is positive, the student will not be allowed to attend clinical classes.
