STANDARD POLICY

POLICY

To facilitate effective evaluation of clinical educational experiences, students will be provided with the opportunity to assess their clinical sites for achievement of course objectives. The purpose of the clinical agency evaluation is to facilitate identification of strengths and weaknesses in the educational program within the School of Nursing.

PROCEDURE

1. At the completion of each clinical nursing course, students will be asked to evaluate online the clinical agency/agencies in which they practiced. (Form 40)
2. The Evaluation and Program Effectiveness Committee will compute and analyze the results and report the results to faculty.
