

This generation of Texas students is the future of Texas.

It's starting. All over Texas, students are stepping up, finding their voices and fueling the movement called Generation TX. Equal parts inspiration and information, Generation TX connects us and clarifies the steps we need to take on the path to college and career education, from taking the right classes and tests, to applying to colleges, and then finding the money to pay for school.

We're Generation TX, and we know that education beyond high school can lead us to the future we want. We're strong. We're determined. And we're not alone—we're supported by our families, friends and by a community that's depending on us to succeed. It's up to all of us to get inspired and make it happen. Because the future of Texas is Generation TX.

We are strong. We are independent. We are ready for careers. We support our families. We want to go to college. We face new challenges. We have unlimited potential. We believe in our future. We follow our dreams. We are the leaders of tomorrow.
