Smoking, Vaping, and Use of Tobacco Products

Original Implementation: October 22, 1991
Last Revision: April 2015

Smoking, vaping, and the use of tobacco products are prohibited in all buildings, facilities and vehicles owned or leased by Stephen F. Austin State University, except in areas so designated by the university. Smoking, vaping, and the use of tobacco is further prohibited within 20 feet of any entrance to a building or facility.

The university shall attempt to maximize reductions in the costs of insurance based upon the non-use of tobacco products.

The university shall develop on-going educational programs to acquaint students, faculty, and staff with the health risks associated with tobacco use.
