Various sections of the state government code, education code, and human resources code, in addition to numerous sections of administrative rules, apply to purchases made by Stephen F. Austin State University. University policies and procedures apply additional requirements to purchases.

Because the university adheres to a policy of centralized purchasing, the procurement office is charged with ensuring that applicable laws, rules, policies and procedures are followed for each purchase. Employees are required to be aware of their limited delegated purchasing authority and that various laws, rules, policies and procedures may affect the processing of their requisition to a purchase order.

Therefore, mandatory training is required for the following employees:
1. for all individuals having access in the university’s financial system to enter requisitions
2. employees having access in the university’s financial system to approve requisition
3. officers and employees authorized to execute contracts, or exercise discretion in awarding contracts, with the exception of employees who enter only travel requisitions.

Training is required every two years. All training is documented in the university’s myTraining system.

Failure to complete training within 60 days of notification will result in all ordering for the department, including p-cards, being shut down until the individual completes training.

The procurement director may allow exceptions to the training timeframes for employees on FMLA leave, out of the country, or as otherwise deemed appropriate.
