1. What are the most pressing student learning shortcomings in your program? What areas of student learning do you want to improve within your program?
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________

2. Which of these are the most urgent and will have the most impact on the academic program?
   - Outcome 1:
   - Outcome 2:
   - Outcome 3:

3. We will be successful when:
   - 1. __________________________________
   - 2. __________________________________
   - 3. __________________________________

4. The Plan—we will accomplish this by...
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________
   - __________________________________
Another Approach
