Medicaid Transportation
1-877-633-8747 (1-877-MED-TRIP)

The Medical Transportation Program sets up non-emergency rides for people who have no other way to get to their Medicaid health-care visits. This includes people with Medicaid, children who get services through the Children with Special Health Care Needs program, and people in the Transportation of Indigent Cancer Patients program. The program does not set up rides in an ambulance, even for non-emergency purposes, but the program can pay back (reimburse) someone who uses their personal car to drive a Medicaid member to and from their Medicaid-related health visit.
How to set up a ride

To be approved for a ride, you must not have any other way to get to your Medicaid-related health visit. Here are the steps to setting up a ride:

1. Call us at least 2 work days or more before you need a ride. If you will need to travel a long way out of town to see your doctor, call us at least 5 work days before you need a ride. If you need a ride the same day you call us, we will do everything we can to help, but we can't promise we will be able to get you a ride.

2. When you call, you will need to give us the following facts:
   - Your Medicaid ID number, Children with Special Health Care Needs program number, or your Social Security number.
   - The address where we will pick you up. If there is a phone number at the place we are picking you up, we need that too.
   - The name, address and phone number of the doctor or drug store where you need to go.
   - The date and time of your doctor’s visit.
   - If you or your children have any special needs we’ll need to know that so we can send the right type of vehicle. For example, for people who use a wheelchair, we can send a van with a wheelchair ramp.

UTILITY ASSISTANCE:
Can pay for electric and gas bills for up to 8 months in a crisis or if already disconnected.

WEATHERIZATION:
Submit an application via fax, mail, or email. Someone from the office will review it and send a letter of determination to inform them family if they are eligible for the services based on their income and someone will contact them to schedule an energy audit of their home. Normal services usually include attic insulation, caulk around windows, weather stripping but COULD also include removing old, inefficient furnaces, repairing electric AC units (if less than 10 years old) or replacing refrigerators. They try to do as much as they can (going down a list of approved repairs) until they run out of money. Once all repairs have been approved they hire a contractor and the services will be scheduled to begin within 30-60 days. After complete, GETCAP will come to inspect the work and have contractor fix anything that isn’t up to code. These services are all provided at no cost to the family.

*mobile homes can be considered for weatherization services, however, since they are less durable than a traditional structure the services the family may be eligible for may be less than a family living in a house, duplex or apartment would receive. *

If the family rents, they can still make repairs to the home, they just must have the landlord sign an agreement (attached)

Prescriptions

Community RX
1401 S. University
Nacogdoches, TX 75961
936-568-0055
9:00am – 12:00pm and 1:00pm – 3:00pm Mon-Thurs.
Community RX helps to provide medications for those that don’t have insurance. A family of 4 can make as much as $45,000 and still receive help. The family cannot have Medicaid or other health coverage, unless for some reason the insurance will not pay for the medication.

To receive services the parent/adult student must bring
- Client Social Security card (so the parent must bring the student’s SS card)
- Picture ID (for a minor, the parent must bring his or her ID)
- and proof income for household

The type of medication they can get depends on what drug companies can give to them for free. If you have a family needing a certain medication you can have the parent call to ask if they can get it OR the social worker can call and ask. Community RX takes care of all the paperwork between the drug company, doctor and patient.

ADHD medications they support:
- Concerta
- Vyvanse
- Intuniv

Application for participation in services is available online and in office.

CWJC is a Christian, private, nonprofit agency that offers Bible studying, job readiness training, one-on-one mentoring, life skills and coping skills.

The courses offered include computer skills, job readiness training, résumé writing, interview skills, life skills, coping skills, Biblical foundations, and GED preparation classes. (GED participants must apply first with the Nacogdoches Adult Learning Center and specify that they want to take classes at CWJC)

CWJC courses are 12-week classes, Monday-Friday, in the Fall and Spring. Participants should seldom be tardy or absent, and are expected to dress professionally. Participants should have reliable transportation, but if not, Ms. Adams can sometimes arrange transportation if asked. To participate, one must 18 years of age, drug-free for at least six months and cannot be a registered sex offender. CWJC does background checks and occasional drug-testing. CWJC does offer Summer classes, but they are more limited than Fall and Spring.
