

PCOE STUDENT SUPPLEMENTAL TRAVEL FUND POLICY

The Perkins Professional Development Committee is a subcommittee of the PCOE College Council. The Perkins Professional Development Committee shall be responsible for making recommendations to the Dean of the James I. Perkins College of Education regarding funding for undergraduate and graduate students activities related to PCOE Student Supplemental Travel Fund expenditures. The following policy is to be used by the Perkins Professional Development Committee for decision-making regarding the disbursement of PCOE Student Supplemental Travel Funds for student professional development activities.

DESCRIPTION:

1. The pool for the PCOE Student Supplemental Travel Funds is awarded annually to the Perkins College of Education and is administered by the Dean.
2. Funds will be allocated as supplemental support for students who deliver research papers or present creative activity or who travel for academic competition at state, regional, national, or international conferences. Students attending state sponsored events located at least 100 miles from campus are eligible for funding.
3. Student professional development/travel activities **not** included under this policy are:
 - a. Formal education courses (e.g., undergraduate and graduate courses)
 - b. Data collection activities
 - c. Professional development activities within the local community
4. Within one academic year (September 1-August 31), students may receive supplemental travel funds **one time**. Supplemental travel disbursements may not be carried over from one semester to the next.
5. Funds are intended as supplemental support only. Supplemental funding for students attending state, regional/national or international conferences may be awarded up to \$500. Supplemental funding for students will not generally exceed \$500 per academic year and disbursements will be allocated on a first-come-first-serve basis. The committee reserves the right to split the allotted funds each academic year between the fall and spring semesters to ensure a more equitable distribution in funding. Allocations beyond \$500 may be awarded at the discretion of the committee and with the approval of the Dean.
6. Students traveling as a group to the same conference should submit their applications together at one time. Group funding may be pro-rated depending on the number of students traveling at the discretion of the student travel committee to provide an equitable distribution of funds.
7. Students who are presenting/performing/competing as a group on a single project are only eligible for \$500 combined for that particular project. For this reason, faculty sponsors are encouraged to apply for funding for the 1st author or presenting authors only.

8. Student travel reimbursements are paid once the student has returned from the conference and has submitted the required documentation such as hotel receipts, conference registration, travel costs, etc.
9. Projects involving human subjects (including surveys) must have IRB approval, and approval number must be provided.

STUDENT ELIGIBILITY: The PCOE Student Supplemental Travel Fund is available for currently enrolled undergraduate and/or graduate students holding a minimum GPA of 2.5 for undergraduates and 3.0 for graduate students on a 4.0 scale. Students seeking supplemental travel disbursements must be enrolled on a part-time or full-time basis and be in good academic standing at the time of the application submission. Students placed on academic suspension and/or probation at any time during the academic year are not eligible for PCOE Student Supplemental Travel funds. All students must be endorsed by a sponsoring faculty member overseeing the professional development activity.
