

**IF I SEND YOU A STRANGE
SNAPCHAT, OUR FRIENDSHIP IS
REAL**

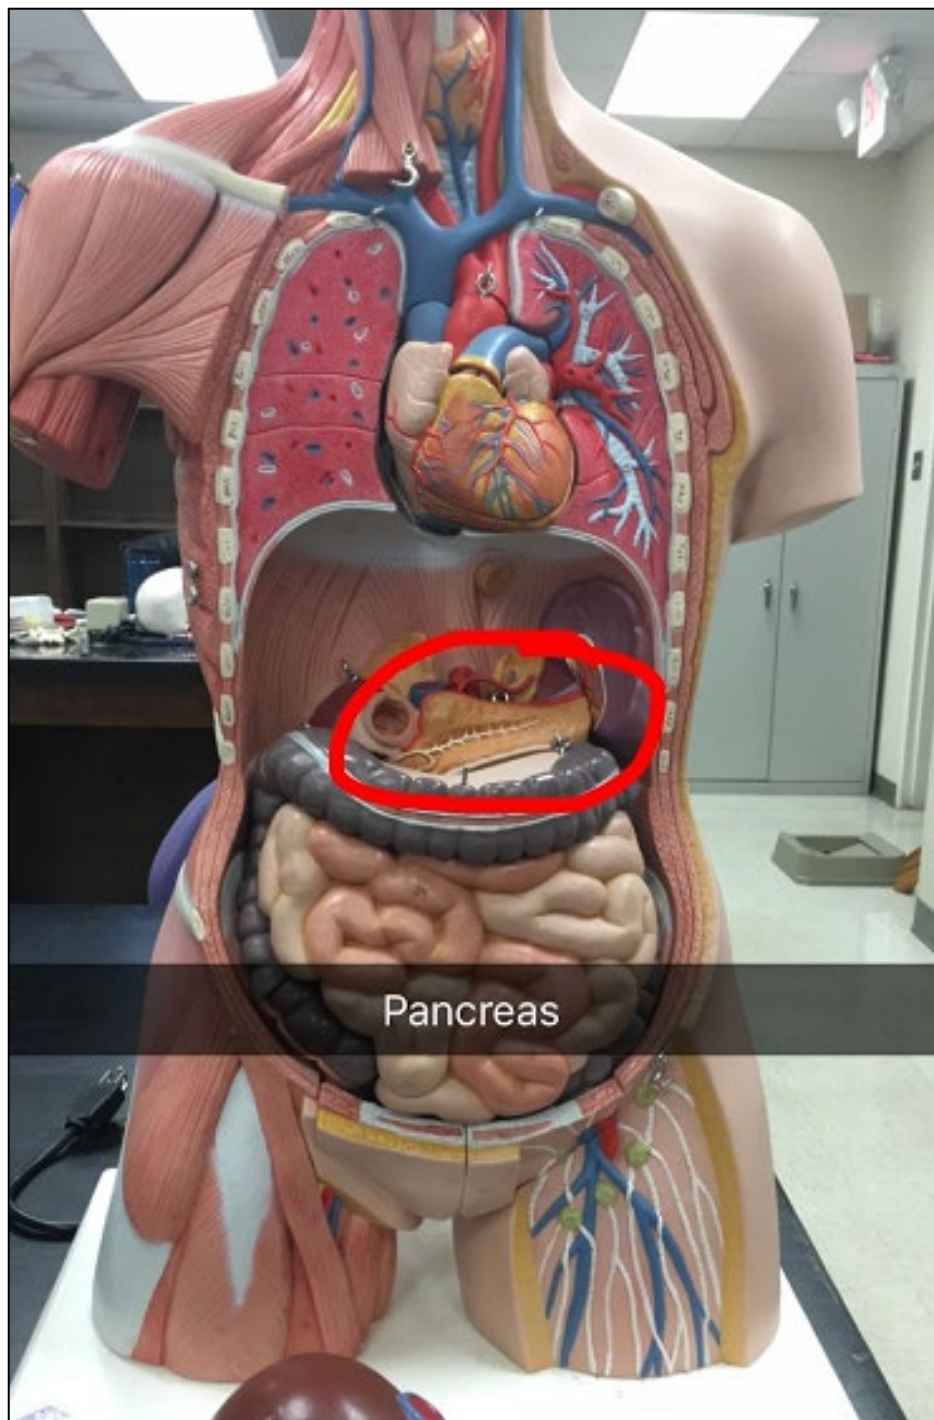

**Erin Childress
Department of Biology**

USE SNAPCHAT IN A MEANINGFUL WAY

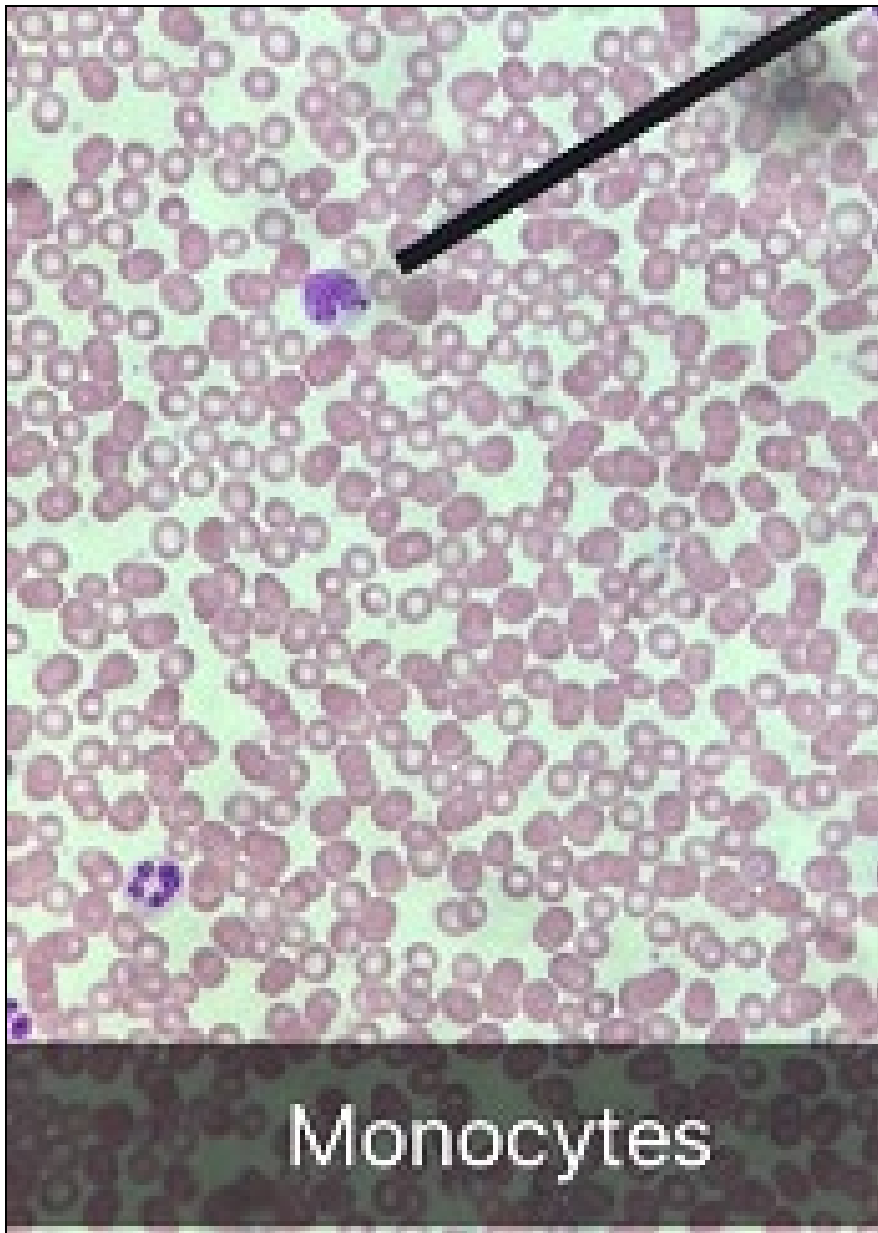

- Video messaging application
- Take photos, record videos, add text and drawings
- Post to Story
- Save in your photo collection and view later

- Snapchat adds labels to the picture you take.
- Great tool for identifying structures on a model

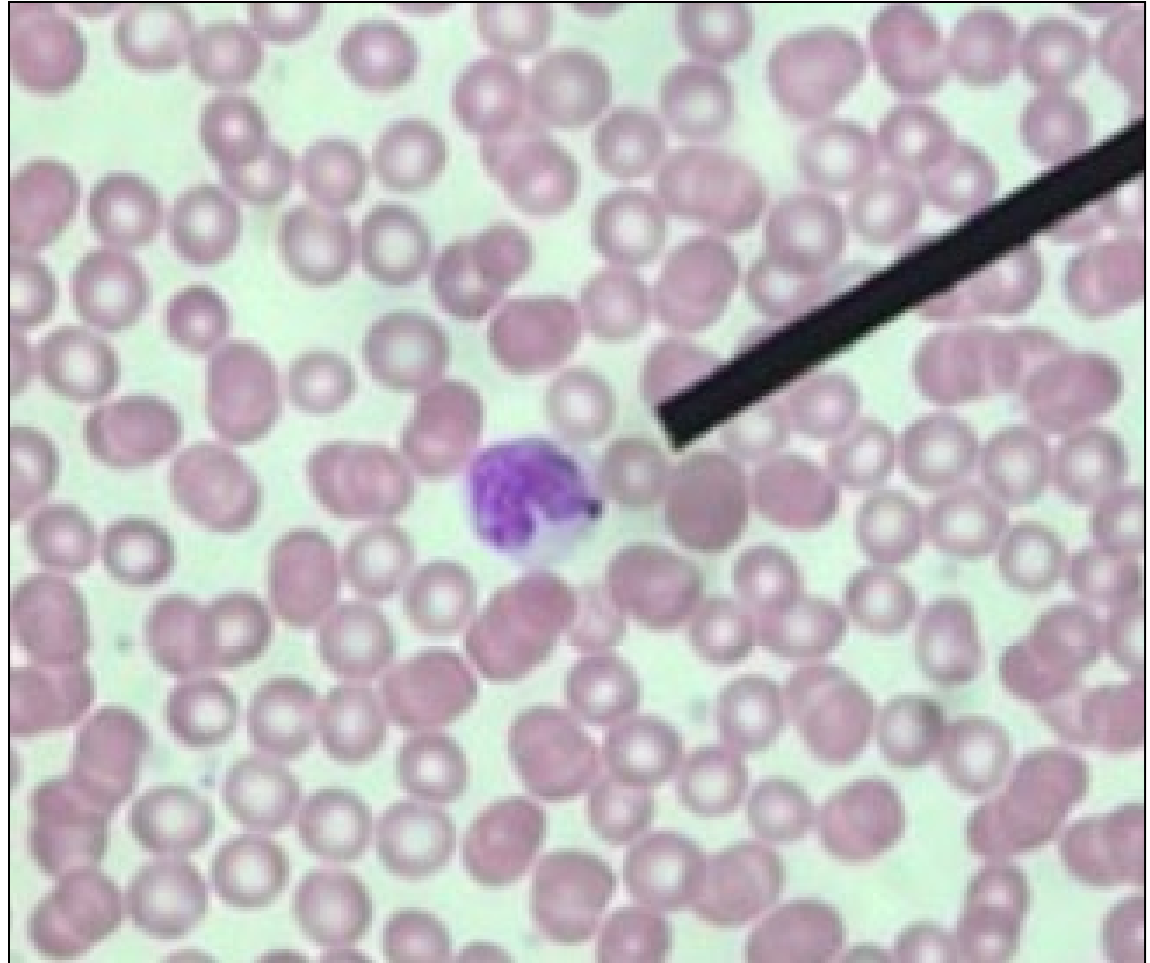

- Point to a structure on a slide and take a picture through the microscope eyepiece.
- Have each person at the table identify a different structure.

- Once you save your SnapChat to your photos you can magnify the picture even more.

○ Thank you

○ Snap away!
