Management's Discussion and Analysis Unaudited

For the Year Ended August 31, 2018

INTRODUCTION

Stephen F. Austin State University (the University) is a comprehensive regional public institution of higher education and an agency of the State of Texas (State). The University was founded in 1923 and is named for the "Father of Texas," Stephen Fuller Austin. It is located in the city of Nacogdoches, a part of the East Texas forested region. The main campus has more than 400 acres, including part of the original homestead of Thomas J. Rusk, early Texas patriot and United States Senator. In fall 2017, the University enrolled 12,614 students in 34 academic units and 6 colleges. The University offers baccalaureate, masters, and doctoral degrees.

The University is accredited by the Southern Association of Colleges and Schools Commission on Colleges. Specific academic programs hold numerous other accreditations.

The University does not include any blended components in the Financial Statements.

OVERVIEW OF THE FINANCIAL STATEMENTS AND FINANCIAL ANALYSIS

The objective of Management's Discussion and Analysis is to help readers of the University's Financial Statements better understand the financial position and operating activities for the fiscal year ended August 31, 2018, with selected comparative information for the year ended August 31, 2017. This discussion should be read in conjunction with the Transmittal Letter, Financial Statements, and Notes to the Financial Statements. Management has prepared the Financial Statements and Notes to the Financial Statements along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the University administration.

Three primary statements are presented: Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; and Statement of Cash Flows. The Financial Statements are prepared in accordance with requirements established by the Texas Comptroller of Public Accounts.

FINANCIAL HIGHLIGHTS

- Enrollment for the fall 2017 semester was 12,614. This figure represents a slight decrease of one percent from the enrollment of 12,742 recorded in fall 2016. Retention rates and persistence to graduation are two metrics by which the Texas Legislature evaluates State universities. The University reported the highest first-time undergraduate retention rate in University history, with the fall 2017 value of 71.6 percent representing a four percentage point increase over the past five years.
- The University's financial position at August 31, 2018, reflected total assets and deferred outflows of \$482 million and total liabilities and deferred inflows of \$368 million. Overall, the net position of the University increased \$23.8 million. However, with the implementation of GASB Statement No. 75, the Employees Retirement System recorded a negative restatement of almost \$57 million to the University's long-term liabilities.
- The University began a five-year capital fundraising campaign to coincide with the University's 100-year anniversary in 2023.
- In the fall of 2016, the University began construction of a Science, Technology, Engineering and Mathematics (STEM) building after the approval and sale of \$46.4 million in tuition revenue bonds. The \$61.2 million bond issue also provided for the refunding of the 2008 revenue bond and 2009 revenue bond in the amount of \$10.4 million and \$13.9 million, respectively. In July 2018, the University held a ribbon-cutting ceremony for the opening of the STEM building.

CONDENSED FINANCIAL INFORMATION AND FINANCIAL HIGHLIGHTS

Statement of Net Position

The Statement of Net Position provides a snapshot view of assets available for use in the University's continuing operations and enables readers to determine the amounts owed to others. Over time, increases or decreases in net position are indicators of the improvement or decline of the financial health of the University. The Statement of Net Position presents the assets, liabilities, deferred outflow and inflow of resources, and net position of the University at a specific point in time, in this case August 31, 2018. Net position represents the residual interest in the University's assets and deferred outflows of resources after deducting liabilities and deferred inflows of resources.

"Net Position" displays three major categories: Invested in Capital Assets, Net of Related Debt; Restricted Net Position; and Unrestricted Net Position. The Invested in Capital Assets, Net of Related Debt category identifies the equity in property, plant, and equipment owned by the University. Restricted Net Position is either expendable or non-expendable. Restricted Net Position - Expendable may be expended only for the purposes designated by the external donor or provider of the assets. Restricted Net Position - Non-expendable is comprised entirely of funds held as permanent endowments. Unrestricted Net Position is available for any lawful purpose of the University. Although Unrestricted Net Position assets are not subject to externally imposed stipulations, these assets may have other commitments for various future uses in support of the University's mission. These include commitments for encumbrances outstanding at year-end. Also recognized in Unrestricted Net Position are unspent Higher Education Funds (HEF) and other appropriations which have restrictions imposed by the State. Assets and liabilities are generally measured using current values, except capital assets, which are stated at historical cost less an allowance for depreciation.

A summarized comparison of the University's Statement of Net Position at August 31, 2018, and 2017 follows:

| Total Net Position | \$ 113,603,266.37 | \$ 146,610,286.91 |

In fiscal year 2018, GASB Statement No. 75 became effective for all State agencies. GASB Statement No. 75 requires State agencies to report its proportionate share of the State's Other Post-Employment Benefits (OPEB) liability on the face of the Financial Statements. OPEB includes retiree health care insurance, life insurance and nonpension benefits. Restatement to the University's net assets for its proportionate share of the prior years' accumulated liability associated with OPEB was \$56,912,940.00. However, changes in current year actuarial assumptions reduced this liability to \$48,756,360.00 for the year ended August 31, 2018.

Statement of Revenues, Expenses, and Changes in Net Position

The change in total net position is calculated from the activity shown on the Statement of Revenues, Expenses, and Changes in Net Position. This statement presents operating revenues and expenses, non-operating revenues and expenses, and other revenues, expenses, gains (losses) and transfers.

Operating revenues are receipts for providing goods and services to the various constituencies of the University. Operating expenses include salaries, wages, and goods and services needed to carry out the mission of the University. Non-operating revenues and expenses include non-exchange transactions for which no goods or services were provided. This category includes State appropriations, Pell grants, gifts, investment income, and interest payments on long-term debt.

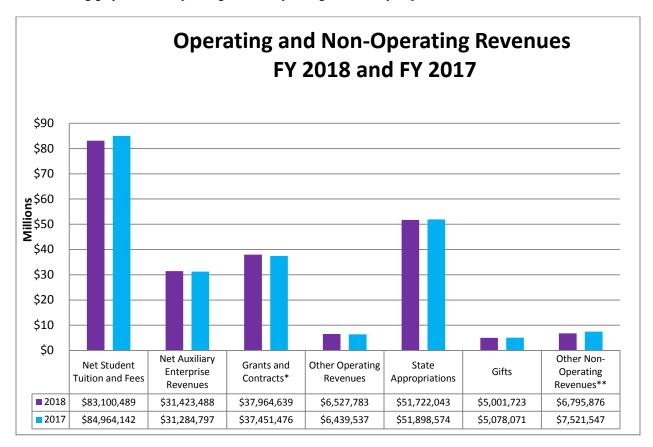

A summarized comparison of the University's Statement of Revenues, Expenses, and Changes in Net Position for the years ended August 31, 2018, and 2017 follows:

The following graph exhibits operating and non-operating revenues by major source:

^{*} Grants and Contracts includes both Operating and Non-Operating Grants and Contracts.

Some of the fiscal year 2018 highlights presented in the Statement of Revenues, Expenses, and Changes in Net Position are as follows:

- In January 2017, the Board of Regents approved no increase in designated tuition for the 2017-18 fiscal year. With relatively stable enrollment, the only factors affecting tuition and fee revenues were the increase in exemptions and the increase in tuition discounting as shown in the next table.
- The Board of Regents approved a slight increase of .5 percent in housing rates and a 1.7 percent increase in meal plan rates for the 2018 fiscal year. Occupancy for the fall term was 94 percent and the spring term held at 82 percent.
- With regard to Non-Operating Revenues and Expenses, the University experienced a decrease in interest expense on bonded debt of almost \$2.4 million. This reflects the savings realized on the 2016 issue that refunded the 2008 and 2009 bond issues and therefore reduced interest expense \$1.4 million and recorded amortization of premium in the amount of approximately \$0.5 million.

^{**}Other Non-Operating Revenues includes Net Investment Income, Net Increase (Decrease) in Fair Value of Investments, and Net Other Non-Operating Revenues.

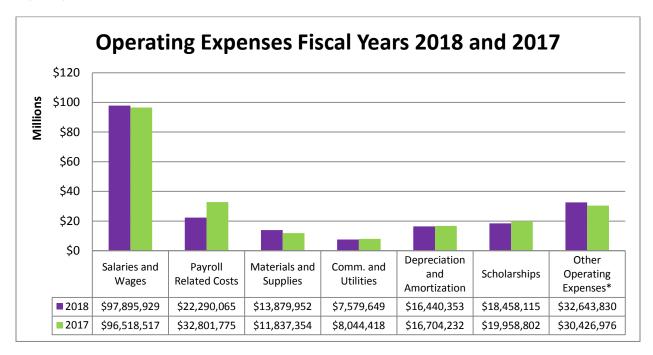

Discounts and allowances reported as offsets for both tuition and fees and auxiliary enterprise revenues include exemptions, tuition discounts, and the allowance for doubtful accounts, which is a calculated estimate of the uncollectible student receivables. The chart below reflects these amounts and the related variances from fiscal year 2017.

| Gross Student Revenues, Exemptions, Discounts and Allowances | | | | |

The following is a graphic presentation of the major operating expense categories for the fiscal years ended August 31, 2018, and 2017:

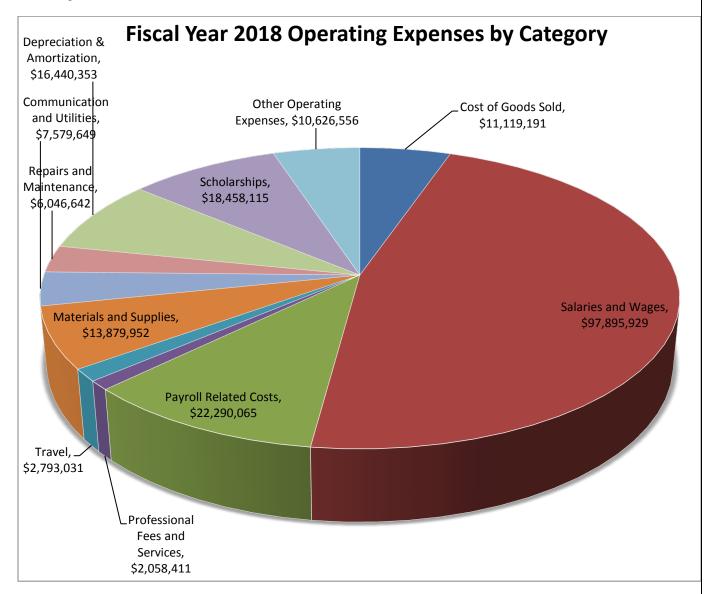

^{*}Other Operating Expenses includes Cost of Goods Sold, Professional Fees and Services, Travel, Repairs and Maintenance, Rentals and Leases, Printing and Reproduction, Federal Pass-Through Expenditures, and Other Operating Expenses.

Reported net scholarships decreased by approximately \$1.5 million. However, the gross amount of scholarships actually awarded to students from grants and outside organizations increased by approximately \$1.2 million. The largest contributor to the decrease in State and federal student loans is the discontinuance of the Perkins Loan program. A portion of scholarships has been reclassified as either tuition discounts or auxiliary discounts using the NACUBO discount formula. The discount calculation takes into account various types of aid to the student as shown below:

| Gross Scholarships and Related Discounts Applied to Revenues | | | | |
|--------------------------------------------------------------|------------------|------------------|-------------------|--|
| | 2018 | 2017 | Net Change | |
| State and federal student loans | \$ 79,272,360.44 | \$ 82,256,807.31 | \$ (2,984,446.87) | |
| Gross Scholarships | 53,609,207.53 | 52,378,061.26 | 1,231,146.27 | |
| Scholarships - Reclassified to Tuition/Fee Discounts | (23,651,301.36) | (22,141,915.22) | (1,509,386.14) | |
| Scholarships - Reclassified to Auxiliary Enterprises | (11,499,790.73) | (10,277,343.69) | (1,222,447.04) | |
| Scholarships (as reported) | \$ 18,458,115.44 | \$ 19,958,802.35 | \$ (1,500,686.91) | |

Some of the fiscal year 2018 significant changes from the prior year for all other operating expenses are:

- Included in the overall payroll costs is a \$1.4 million increase in salaries and wages and a variance of \$10 million in payroll related costs that includes an overall decrease of \$13 million related to net pension expense adjustments pertaining to the GASB Statement No. 75 requirements. Since 2018 was the first year of implementation, significant adjustments were necessary to establish beginning balances of related assets, liabilities and pension expense offsets. As indicated in the chart below, salaries and wages and payroll related costs account for more than half of the University's operating expenses.
- Repairs and maintenance costs increased approximately \$1.1 million. In large part, this variance relates to facility renovations as approved by the Board of Regents as part of the University's capital plan.
- Materials and supplies increased \$2 million primarily due to the equipping of the new STEM building that opened in the summer of 2018.

^{*}Other Operating Expenses includes Rentals and Leases, Federal Pass-Thru Expenditures and Printing and Reproduction costs.

Statement of Cash Flows

The purpose of a Statement of Cash Flows is to provide relevant information about the University's cash receipts and payments during the fiscal year. The Statement of Cash Flows, when used with related disclosures and information in the other financial statements, provides relevant information about the University, such as:

- Its ability to generate future net cash flows.
- Its ability to meet obligations when due.
- Its needs for external financing.
- The reason for differences between operating income and associated cash receipts and payments.
- The effects on the University's financial position of its cash and its non-cash investing, capital and financing transactions.

The Statement of Cash Flows provides details about the University's major sources and uses of cash during the year. It presents detailed information about the cash activity and an indication of the University's liquidity and ability to meet cash obligations. There are four categories of cash flow activity:

- 1. Cash Flows from Operating Activities cash flows from operating activities result from providing services and producing and delivering goods. They include all other transactions not defined as non-capital financing, capital and related financing, or investing activities.
- 2. Cash Flows from Non-Capital Financing Activities cash flows from non-capital financing activities include borrowing money and repaying the principal and interest on amounts borrowed for purposes other than to acquire, construct, or improve capital assets.
- 3. Cash Flows from Capital and Related Financing Activities cash flows from capital and related financing activities include acquiring and disposing of capital assets, borrowing money to acquire, construct, or improve capital assets and repaying the principal and interest amounts.
- 4. Cash Flows from Investing Activities cash flows from investing activities include making and collecting loans (except program loans) and the acquisition and disposition of debt or equity instruments.

The Statement of Cash Flows reports net cash provided or used in each of the four categories of classifying cash transactions. It also reports the net effect of these flows on cash and cash equivalents during the fiscal year in a manner that reconciles beginning and ending cash and cash equivalents for the year.

The final section of the Statement of Cash Flows reconciles the Net Cash Provided (Used) by Operating Activities to the Operating Income (Loss) reflected on the Statement of Revenues, Expenses, and Changes in Net Position. When transactions are part cash and part non-cash, only the cash portion is reported within the Statement of Cash Flows. Non-cash items include information about investing, capital and financing activities that affect assets and liabilities but do not result in cash receipts or cash payments in the fiscal period. The non-cash portion is reported in the non-cash transaction section supplemental to the Statement of Cash Flows.

A summarized comparison of the Statement of Cash Flows at August 31, 2018, and 2017 follows:

Statement of Cash Flows

Net cash provided (used) by operating activities should be viewed together with net cash provided (used) by non-capital financing activities because State appropriations are significant sources of recurring revenue in support of operating expenses, but under GASB Statement No. 35 they must be classified as non-capital financing activities instead of operating activities. Additionally, federal financial aid revenues, including Pell grants, are classified as a non-operating activity since these are considered non-exchange activities, but the offsetting expenditures are recognized as operating expenses. Overall, the University experienced a decrease of \$32.8 million in cash and cash equivalents due almost entirely to the construction of the STEM building using bond proceeds.

Cash used by operating activities decreased by approximately \$14.5 million due to more timely drawdowns of direct loan funds from the federal government. The University fronts these funds for the students and then initiates reimbursement from the government. The receivable related to this activity decreased \$15 million.

Cash flows provided by non-capital financing activities in fiscal year 2018 decreased almost \$1 million from the prior year. The University had received in the previous fiscal year a \$3.6 million one-time funding in State appropriation for payment on the 2016 tuition revenue bond (TRB) issue. In fiscal year 2018, the adjustment to benefit expense as required by GASB Statement No. 75 completely offset that variance.

Net cash used for capital and related financing activities increased \$61.7 million due in large part to the construction of the STEM building using the bond proceeds of the \$61.2 million 2016 series TRB that also refunded two other outstanding issues in addition to the construction costs.

Net cash provided from investing activities was virtually unchanged from the previous year.

ECONOMIC OUTLOOK

Total enrollment for fall 2018 increased by 4 percent when compared to the previous fall, and the University experienced another increase in the retention rate of first-time freshmen to their sophomore year.

In October 2018, the Board of Regents authorized the issuance of financing revenue system bonds for no more than \$125 million for the planned construction or renovation of four buildings on campus. The bond issue will fund the first phase of a fine arts initiative; the conversion of the Kennedy Auditorium into a welcome center and one-stop shop for prospective students; the addition of the second phase of a freshman residence hall and cafeteria; and, the construction of a basketball training facility.

During the upcoming fiscal year, the University will close out the Perkins Loan program per instructions by the federal government. At the end of fiscal year 2018, the University held \$3.4 million in loan receivables, most of which will be transferred to the federal government.

NOTE 1: Summary of Significant Accounting Policies

Entity

Stephen F. Austin State University (the University) is an agency of the State of Texas (the State). The University's financial records comply with State statutes and regulations including compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

The University serves the State as a public institution of higher education.

The University has four related entities. The University has determined no related entity is a reportable component unit of Stephen F. Austin State University.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments and GASB Statement No. 35, Basic Financial Statements — and Management's Discussion and Analysis — for Public Colleges and Universities, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in these Statements. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an audit opinion has not been expressed on the financial statements and related information contained in this report.

The University follows the "business-type activities" reporting requirement of GASB Statement No. 34 that specifies all the financial statements required for enterprise funds.

Blended Component Units

No component unit has been identified which should be reported as a blended unit.

Discretely Presented Component Units

No component unit has been identified which should be discretely presented.

Fund Structure

Basis of Accounting - Proprietary Fund Accounting

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial positions, and cash flows. The financial statements of the University have been prepared on the accrual basis. Accrual accounting attempts to record a transaction's financial effects in the period in which the transaction occurred, rather than when funds are received or paid. Revenues are recorded when they are earned or when the University has a right to receive the revenues. Expenses are recognized when incurred. The date related cash was received or paid is of no consequence.

Four essential elements of accrual accounting:

- Recognition of expenditures when incurred and the subsequent amortization of the deferred outflows
- Recognition of revenues when they are earned
- Capitalization of certain expenses and the subsequent depreciation of the capitalized costs
- Accruals of revenues earned and expenses incurred

Proprietary funds use the flow of economic resources measurement focus, which is similar to the focus used by commercial entities. Proprietary funds focus on whether the enterprise is economically better off as a result of the events and transactions that occurred during the fiscal period reported. Transactions and events that improved an enterprise's financial position are reported as revenues or gains. Transactions and events that diminished the economic position of the enterprise are reported as expenses or losses. Both current and long-term assets and liabilities are presented on the Statement of Net Position.

The Statement of Revenues, Expenses, and Changes in Net Position is segregated into operating and non-operating sections.

Generally, operating activities are those that directly result from the provision of goods and services to customers or are directly related to the principal and usual activity of a fund. GASB Statement No. 34 indicates that a consideration for defining a proprietary fund's operating revenues and expenditures is how individual transactions would be classified for purposes of preparing a Statement of Cash Flows according to GASB Statement No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting.

Since certain grants are actually contracts for services, they are classified as operating activities. State appropriations and certain grants, such as the Pell grants, are reported as non-operating activities even though they are directly related to the principal and usual activity of the University. These are considered non-exchange transactions and are therefore considered non-operating revenues.

Budget and Budgetary Accounting

The University prepares an annual budget which represents anticipated sources of revenue and authorized uses. This budget is approved by the University's Board of Regents. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated. Budget information is not included in the Annual Financial Report.

Assets, Liabilities, and Net Position

Assets

Assets are reported separately as either current or noncurrent in the Statement of Net Position.

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of proprietary fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

<u>Inventories</u>

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued using the average cost method. The consumption method of accounting is used to account for inventories and prepaid items. The cost of these items is expensed when the items are sold or consumed.

Prepaid Items

Prepaid items include prepaid expenses attributable to a subsequent fiscal year, including scholarships attributed to the 2018 fall semester. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Equipment with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year is capitalized. Other categories of capital assets have capitalization thresholds that are set by the State. These assets are capitalized and reported at cost or, if not purchased, at appraised fair value on the date of acquisition. Donated assets are reported at fair value on the acquisition date. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets, such as works of art and historical treasures, are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method of depreciation.

Other Receivables - Current and Noncurrent

Current receivables are specified in the Statement of Net Position. They include amounts that are reasonably expected to be received in fiscal year 2018. Noncurrent receivables are those receivables that are not expected to be collected within one year. Included in this category are student accounts receivable

and loan receivables that are not expected to be received during fiscal year 2018. The disaggregation of other receivables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivable and Payable Balances."

Liabilities

Liabilities are reported separately as either current or noncurrent in the Statement of Net Position.

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables – Current and Noncurrent

The disaggregation of other payables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivable and Payable Balances."

Employees' Compensable Leave

Employees' Compensable Leave represents the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the Statement of Net Position. These obligations are normally paid from the same funding source from which the covered employee's salary or wage compensation was paid.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts. Liabilities are reported separately in the Statement of Net Position as either current, for the amounts due within one year, or noncurrent, for the amounts due thereafter.

Bonds Payable - Revenue Bonds

The principal of revenue bonds is reported separately in the Statement of Net Position as either current, for the amounts due within one year, or noncurrent, for the amounts due thereafter. Bonds payable are recorded at par value, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities. Interest expense is reported on the accrual basis.

Bonds Payable - Tuition Revenue Bonds

The principal of tuition revenue bonds is reported separately in the Statement of Net Position as either current, for the amounts due within one year, or noncurrent, for the amounts due thereafter. Bonds payable are recorded at par value, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities. Interest expense is reported on the accrual basis.

Bonds Payable - General Obligation Bonds

The principal of general obligation bonds is reported separately in the Statement of Net Position as either current, for the amounts due within one year, or noncurrent, for the amounts due thereafter. Bonds payable are recorded at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities. Interest expense is reported on the accrual basis.

Deferred Outflows of Resources

Deferred Outflows of Resources represent the University's net asset consumption that is applicable to a future fiscal year.

Deferred Inflows of Resources

Deferred Inflows of Resources represent the University's net asset acquisition that is applicable to a future fiscal year.

Net Position

The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is "Net Position" on the Statement of Net Position.

Invested in Capital Assets, Net of Related Debt

Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted Net Position</u>

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

The amortized balance of accretion on capital appreciation bonds is included as part of unrestricted net position unless a sinking fund was established, in which case the balance is reported as part of the restricted net position balance.

Interfund Activities and Transactions

The University has the following types of transactions among State appropriated funds and other State agencies:

- **Transfers** Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund or State agency and as "Transfers Out" by the disbursing fund or State agency.
- Reimbursements Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one State agency for another are recorded as expenditures by the reimbursing State agency and as a reduction of expenditures by the reimbursed State agency. Reimbursements are not displayed in the financial statements.
- Interfund Receivables and Payables Most receivables and payables from or to other State agencies are recorded as "Due from Other Agencies" or "Due to Other Agencies" on the Statement of Net Position. The amounts associated with the State Energy Conservation Office revolving loan program are recorded as "Interfund Payable" on the Statement of Net Position. Repayments associated with the loan program due during the current year are classified as "Current"; repayments due thereafter are classified as "Noncurrent."

The composition of the University's interfund activities and balances are presented in Note 12.

NOTE 3: Deposits, Investments and Repurchase Agreements

The University is authorized by statute to make investments following the "prudent person rule." There were no significant violations of legal provisions during the period.

Deposits of Cash in Bank

Cash in Bank per AFR

As of August 31, 2018, the carrying amount of deposits was \$55,483,562.60 as presented below:

| CASH IN BANK – CARRYING AMOUNT | \$56,502,446.30 |
|--------------------------------------------------------------------------------|-----------------|

These amounts consist of all cash in local banks. These amounts are included on the Statement of Net Position as part of the "Cash and Cash Equivalents" accounts, except for the certificates of deposit, which are recorded as Cash Equivalents, Short-Term or Long-Term Investments, based on their maturity date and management's intent. Certificates of deposits with maturity dates of three months or less are recorded as cash equivalents.

\$55,483,562.60

As of August 31, 2018, the total bank balance was as follows:

| Business-Type Activities \$58,725,960.43 Fiduciary Funds |
|----------------------------------------------------------|
|----------------------------------------------------------|

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the University will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Stephen F. Austin State University Board Policy 3.21, *Investments*, states that all deposits shall be secured by a pledge of collateral with a market value equal to no less than 100 percent of the deposits plus accrued interest less any amount insured by the FDIC. Pledged collateral must conform to Chapter 2257 of the Government Code, Collateral for Public Funds.

At August 31, 2018, amounts insured by the FDIC were \$1,500,000.00. The bank balances at August 31, 2018 that were exposed to custodial credit risks were as follows:

| Fund T | Гуре | Uninsured and uncollateralized | Uninsured and collateralized with securities held by the pledging financial institution | Uninsured and collateralized with securities held by the pledging financial institution's trust department or agent but not in the University's name |

Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investment. In order to mitigate this risk, Stephen F. Austin State University Board Policy 3.20, *Investments-Endowment Funds*, limits foreign equity investments to a maximum of 30% of the equity portfolio. The exposure to foreign currency risk as of August 31, 2018 was:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Stephen F. Austin State University Board Policy 3.21, *Investments*, addresses credit risks by authorizing investments only in certain types of securities.

As of August 31, 2018, the Standard & Poor's credit quality ratings of the University's investments by type of securities with credit risk exposure were as follows:

| Investment Type | AAA | AA | A | ВВВ | ВВ | В | CCC | NR |
|------------------------------------------------------|--------------|----------------|--------------|--------------|------------|------------|-----|--------------|

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Stephen F. Austin State University Board Policy 3.21, *Investments*, addresses interest rate risk by limiting the maximum duration of any security to ten years and limiting the weighted average duration of the portfolio to five years as follows:

| | | Unaccrued | | |
|------------------------------------------------|---------------------|------------------|--|--|
| | Effective | Market Value | | |

The University invests funds in the Texas A & M University System's (A&M System) investment pool, which includes investment derivatives in the form of forward currency exchange contracts used for the purchase or sale of a specific foreign currency at a fixed quantity and price on a future date as a hedge against either specific transactions or portfolio positions. Additional information on these contracts can be found in the Texas A & M System's financial statement note disclosures.

The following table summarizes the University's share of the pending foreign exchange contracts as of August 31, 2018:

| Foreign Exchange Contracts | - S | | | |

The University's share of the fair value of open foreign currency exchange contracts as of August 31, 2018, was (\$241.39), which is included in the net increase (decrease) in fair value of investments on the Statement of Revenues, Expenses and Changes in Net Position.

The gross counterparty exposure related to the University's share of these contracts as of August 31, 2018, is presented below.

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2018, the University's concentration of credit risk is immaterial to any single issuer.

Reverse Repurchase Agreements

The University, by statute, is authorized to enter into reverse repurchase agreements. A reverse repurchase agreement is a transaction in which a broker-dealer or financial institution transfers cash to the University and the University transfers securities to the broker-dealer and promises to repay the cash plus interest in exchange for the same or similar securities. Credit risk exposure for the University arises when a broker-dealer does not return the securities or their value at the conclusion of the reverse repurchase agreement. As of August 31, 2018, the University was not participating in reverse repurchase agreements.

Securities Lending

In securities lending transactions, the University would transfer its securities to broker-dealers and other entities for collateral – which may be cash or securities – and simultaneously agrees to return the collateral for cash or the same securities in the future. The University invests the cash received as collateral and, if the returns on those investments exceed the "rebate" paid to the borrowers of the securities, the securities lending transactions generate income for the University. The University did not participate in securities lending transactions during fiscal year 2018.

NOTE 4: Short-Term Debt

There was no reportable activity for short-term debt during the year ended August 31, 2018.

Claims and Judgments

The University had no unpaid settlements or judgments as of August 31, 2018.

Employees' Compensable Leave

Annual Leave

Full-time employees earn eight to twenty-one hours per month vacation leave (annual leave) depending on years of State employment. The State's policy is that employees may carry accrued vacation leave forward from one fiscal year to the next up to a maximum number of hours allowed based on their years of service. Employees with at least six months of State service who terminate employment are entitled to payment for all accumulated annual leave. The University accrues the dollar value of annual leave benefits which are payable upon retirement, termination, or death of its employees. The amounts of these liabilities are reported in the Statement of Net Position. The estimated liability, \$4,684,167.29 as of August 31, 2018, is based on outstanding balances reported in the leave reporting system multiplied by the employee's respective salary rate. The University made lump sum payments of \$467,896.73 for accrued leave to employees who separated from State service during the fiscal year ended August 31, 2018.

Sick Leave

Sick leave is earned at the rate of eight hours per month and is paid only when an employee is absent due to illness or to the estate of an employee in the event of his/her death. The maximum sick leave payment to an employee's estate is the lesser of one-half of the employee's accumulated entitlement or 336 hours. Sick leave accumulation from one fiscal year to the next is not limited. The University recognizes the cost of sick leave when paid. The liability is not shown in the financial statements since historical payouts of sick leave have been minimal.

Overtime and Compensatory Leave for FLSA Non-Exempt and Exempt Employees

Under the federal Fair Labor Standards Act and State laws, overtime can be accumulated in lieu of immediate payment as compensatory leave for non-exempt, non-emergency employees up to a maximum of 240 hours. For emergency personnel (e.g., University police officers), overtime can be accumulated up to a maximum of 480 hours. Overtime is calculated at a rate of 1.5 times an employee's normal rate of pay. Non-exempt employees may earn compensatory leave when they work additional hours but the number of hours worked in the work week does not exceed 40 hours. Compensatory time is calculated on an hour-for-hour basis. Unpaid overtime and compensatory time for non-exempt employees is included in the calculation of current and long-term liabilities because these employees are eligible to be paid for these accruals upon death or termination.

Compensatory leave is allowed for exempt employees who are not eligible for overtime pay. This leave is accumulated on an hour-for-hour basis and must be taken within one year from date earned or it lapses, up to a maximum of 80 hours in a fiscal year. There is no death or termination benefit for compensatory leave for exempt employees and it is non-transferable. For these reasons, no liability is reported in the financial statements for compensatory leave earned by exempt employees.

NOTE 7: Derivatives

A derivative security is a financial instrument which derives its value from another security, currency, commodity or index. Investment derivatives are entered into with the intention of managing transaction or currency exchange risk in purchasing, selling or holding investments. These include futures contracts and forward contracts.

The following disclosure summarizes the University's share of the A&M System's derivative activity. Note 3 also discloses details about these investment derivatives.

NOTE 9: Defined Benefit Pension Plans and Defined Contribution Plan

The State of Texas has joint contributory retirement plans for all of its benefits-eligible employees. One of the plans in which the University participates is administered by the Teacher Retirement System of Texas (TRS). The TRS defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms. The contributory percentages of participant salaries currently provided by the State and by each participant are 6.8% and 7.7%, respectively, of annual compensation. Further information regarding actuarial assumptions and conclusions, together with audited financial statements, are included in TRS' annual financial report. Deferred outflows of resources and deferred inflows of resources related to the pension plan administered by TRS are disclosed in Note 28.

The State has also established an Optional Retirement Program (ORP) for institutions of higher education for certain administrative personnel and faculty. Participation in ORP is in lieu of participation in TRS, and the selection to participate in ORP must be made in the first 90 days of eligibility. The ORP allows participants to select from a variety of companies for the purchase of annuity contracts or to invest in mutual funds. The contributory percentages on salaries for participants entering the program prior to September 1, 1995, are 8.5% and 6.65% by the State and each participant, respectively. The State's contribution is comprised of 6.6% from the ORP appropriation and 1.9% from other funding sources. The 6.6% contribution is mandatory with the other 1.9% being at the discretion of the University's Board of Regents. The Board has approved the additional contributions for these employees. The contributory percentages on salaries for participants entering the program after August 31, 1995, are 6.6% and 6.65% by the State and each participant, respectively. Since these are individual annuity contracts or mutual fund investments, the University has no additional or unfunded liability for this program.

GASB Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, paragraph 27(d) requires universities that administer the ORP to disclose the amounts contributed by members and by the employer for that plan. Following are the ORP contributions made for the 2018 fiscal year:

| Contributions | | | Year Ended Aug. 31, 2018 |
|------------------------|-------|----|-----------------------------|
| Member Contributions | | \$ | 1,959,410.61 |
| Employer Contributions | | | 2,082,528.49 |
| | Total | \$ | 4,041,939.10 |

NOTE 10: Deferred Compensation

University employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., Chapter 609. Two plans are available for employees: the 403(b) Tax Sheltered Annuity (TSA) plan and the Texa\$aver 457(b) plan. The TSA is administered by Stephen F. Austin State University. The 457(b) plan is administered by the Employees Retirement System of Texas. The assets of these plans do not belong to the University or to the State, and thus they have no liability related to the plans.

NOTE 11: Postemployment Benefits Other Than Pensions - Not Applicable

NOTE 12: Interfund Activity and Transactions

The University experienced routine transfers with other State agencies that were consistent with the activities of the fund making the transfer. Repayment of amounts reported as Due To or Due From Other State Agencies will normally occur within one year from the date of the financial statement.

Following are individual balances and activity reported as Due From and Due To Other State Agencies as of August 31, 2018:

The detailed State Grant Pass-Through information is listed on Schedule 1B - Schedule of State Grant Pass-Throughs From/To State Agencies.

In 2012, the University financed a comprehensive energy management program with a revolving loan fund from the State Energy Conservation Office (SECO) funded with American Recovery and Reinvestment Act (ARRA) funds and institutional Higher Education Funds (HEF). The total amount borrowed from SECO was \$13,327,627.82, with capitalized interest of \$197,015.33. The remaining balances, reported as Interfund Payables, are reflected in the table below:

| Current Portion | Interfund | Purpose |

NOTE 13: Continuance Subject to Review - Not Applicable

NOTE 14: Adjustments to Fund Balances and Net Position

During fiscal year 2018, certain accounting changes and adjustments were made that required the restatement of net position. Pursuant to the requirements of Governmental Accounting Standards Boards'(GASB) Statement 75, the beginning balance of the unrestricted net assets was adjusted to reflect the cumulative net effect of implementing this pronouncement for prior years. The primary objective of this Statement, according to GASB, is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. We also adjusted the 2017 capital assets by \$123,691.59 for some items that had been misclassified in the previous year. The restatements are presented in the following table.

| | Restatement | Prior Period | Total |
|-------------------------------------|-------------------|--------------|-------------------|
| | | Adjustments | |
| Net Position August 31, 2017 | \$ 146,610,286.91 | | \$ 146,610,286.91 |

Description of the Case

The plaintiff alleges the University took adverse personnel action against plaintiff in violation of the Texas Commission on Human Rights Act.

- * Reasonably Possible indicates the event is more than remote, but less than likely.
- * Probable indicates the event is likely to occur.

NOTE 16: Subsequent Events

In October 2018, the Board of Regents approved a bond resolution authorizing the issuance of revenue financing system bonds for not more than \$125,000,000.00. The proposed bond issue would finance a fine arts expansion initiative; renovate an existing building for a welcome center and student support center; construct a basketball practice facility; and construct and renovate a student residential and dining facility.

NOTE 17: Risk Management

The University is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; losses resulting from providing health and other medical benefits to employees; and natural disasters. It is the University's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. The methods the University uses to handle each of these risks are summarized below.

<u>Injuries to Employees</u>: Employees of the University are covered by a workers' compensation insurance policy provided by the State Office of Risk Management (SORM). An Interagency Contract with SORM is executed on behalf of the University for workers' compensation insurance every two years. SORM assesses the University an amount for the insurance coverage in accordance with 28 T.A.C. 251.507. The initial estimated assessment for fiscal year 2018 was \$307,966.33, to be paid in two installments. The first payment of \$230,974.75 was made in September. The assessment was adjusted during the year and the remaining payment of \$76,153.38 was made in May, bringing the actual assessment total to \$307,128.13.

Provision for Health and Other Medical Benefits: Employees of the University are eligible for health insurance and optional coverage(s) if they are employed at least 50% time. The coverage is provided through the State, under the Texas Employees Group Benefits Program (GBP), which was administered by HealthSelect. Eligible employees may select health, dental, vision, life, TexFlex, accidental death and dismemberment, dependent life, and long and short-term disability coverage. All risks associated with these benefits are passed to the GBP. The costs of health insurance coverage are jointly paid by the State and the University as follows: 100% for full-time employees and 50% for their dependents; 50% for part-time employees and 25% for their dependents. Employees hired on or after September 1, 2014, have a 60-day waiting period to participate in health insurance coverage. Contributions made by the State on behalf of the University for health and other medical benefits were \$6,723,092.00 for the year ended August 31, 2018.

<u>Damage to Property</u>: The University is required by certain bond covenants to carry fire and extended coverage and boiler/heavy equipment insurance on buildings financed through the issuance of bonds. The insurance protects the bondholders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments. In fiscal year 2018, there was a catastrophic power outage throughout the entire campus that resulted in a \$354,723.30 claim.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a State highway be insured for minimum limits of liability in the amount of \$30,000 per injured person, up to a total of \$60,000 for everyone injured in an accident (bodily injury) and \$25,000 for property damage. However, through the SORM Auto Insurance Program the University has chosen to carry liability insurance on its licensed vehicles in the amount of \$250,000/\$500,000/\$100,000. The University also carries physical damage for vehicles ten years and newer. The annual premium was \$89,047.00 with a deductible paid of \$6,463.78.

<u>Torts and Other Risks</u>: The University is exposed to a variety of civil claims resulting from the performance of its duties. The University has purchased commercial insurance to address this risk.

<u>Claims and Judgments</u>: Changes in the balances of the University's claims liabilities for 2018 are noted in the table below:

| | Beginning Balance | Increases | Decreases | Ending Balance |
|--------------------|-------------------|-------------|-------------|----------------|
| Claims & Judgments | - | \$47,070.14 | \$47,070.14 | - |

NOTE 18: Management's Discussion and Analysis (MD&A)

See Management's Discussion and Analysis at the beginning of this financial report.

NOTE 19: The Financial Reporting Entity

The University is an agency of the State of Texas. The ten members of its Board of Regents are appointed by the Governor, and include one non-voting student Regent. The University has no component units or joint ventures.

NOTE 20: Stewardship, Compliance and Accountability

Note 1, Summary of Significant Accounting Policies, discusses the generally accepted accounting principles upon which the financial statements are based and addresses any changes in accounting principles. The University had no material violations of finance-related legal or contractual provisions. Per the laws of the State of Texas, the University cannot spend amounts in excess of appropriations granted by the Texas Legislature. There are no deficits reported in Net Position.

NOTE 21: Not Applicable

NOTE 22: Donor Restricted Endowments

The University endowments are invested to maximize returns yet preserve principal. The long-term objective of maintaining the purchasing power of the endowments coupled with the goal of providing a reasonable, predictable, stable and sustainable level of income to support current needs guide the management of these funds. Distributions from the earnings and cumulative net appreciation are made annually to fund scholarships, professorships, and for other uses as stipulated by the donors. The Vice President for Finance and Administration reviews the total return on endowment accounts and recommends an annual distribution. The distribution to spending accounts was 3.35% for 2018.

The following tables presents the amount of net appreciation for donor restricted true endowments for fiscal year 2018 and the changes from the prior year amounts for expendable and non-expendable balances.

| Donor Restricted Endowments | Amounts of Cumulative Net Appreciation | Reported in Net Position |
|-----------------------------|----------------------------------------------|---------------------------|
| True Endowments | \$ 3,563,684.72 | Restricted for Expendable |
| Term Endowments | 7,243.40 | Restricted for Expendable |

NOTE 28: Deferred Outflows of Resources and Deferred Inflows of Resources

Beginning with fiscal year 2015, the University reported deferred outflows of resources and deferred inflows of resources in connection with GASB Statement No. 68 requirements related to pension reporting. The requirements include that affected State agencies disclose the proportional share of the net pension liability, pension expense, deferred outflows and inflows related to pensions if those amounts are not identifiable in the financial statements. This year, State agencies were additionally required to report the effects of implementing GASB Statement No. 75, Other Post-Employment Benefits (OPEB) on the face of the entity's financials.

| Business-Type Activities | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---------------------------------|--------------------------------|-------------------------------|
| TRS Pension (Note 9) | \$13,311,337.00 | \$11,503,330.00 |
| ERS OPEB | 13,025,179.00 | 10,780,265.00 |
| Total | \$26,336,516.00 | \$22,283,595.00 |

Details of the pension plan administered by the Teacher Retirement System of Texas (TRS) are disclosed in Note 9.

STEPHEN F. AUSTIN STATE UNIVERSITY Agency No. 755 Schedule 1A-Schedule of Expenditures of Federal Awards For the Fiscal Year Ended August 31, 2018

Note 1: Non-Monetary Assistance - N/A

Note 2: Reconciliation

Below is a reconciliation of the total of federal pass through and federal expenditures as reported on the Schedule of Federal Financial Assistance to the total of federal revenues and federal grant pass-through revenues as reported in the general-purpose financial statements. Generally, federal funds are not earned until expended; therefore, federal revenues equal federal expenditures for the reporting period.
