About the program

Successful completion leads to a Master of Arts in in student affairs and higher education from Stephen F. Austin State University. The program is framed by the Council for the Advancement of Standards in Higher Education, which ensures academic rigor and quality of learning. Our program curriculum has a distinctive “core four” with an emphasis on diversity, college student development, assessment and student success across the curriculum. These courses are also grounded in the American College Personnel Association and National Association of Student Personnel Administrators Professional Competencies.

Within SFA’s SAHE program, students will immerse themselves in the study of college student development and college administration. They will enter a community of emerging professionals dedicated to a similar career passion. To facilitate a strong sense of community, the SAHE program participates in the NASPA Graduate Associate Program and has a professional honor society for student affairs practice, Chi Sigma Alpha. These programs and organizations hold social events, speakers and other professional development events.

This program has a two-course research core courses, SAHE 5356 - Professional Development Seminar and SAHE 5344 Research and Program Evaluation. Students develop an individualized final project focused on contemporary or historical issues in higher education. Graduation requirements also include a professional portfolio and the completion of practicum, or internship, experiences. Part-time students may have the practicum requirement waived if they have at least six months of previous higher education experience to be substituted with approved elective coursework. Graduate assistantships are available on campus and at nearby partnering institutions, but are not guaranteed.

Evening classes are offered in a fixed cohort model for full-time students and a fluid cohort model for part-time students. A mix of online courses are offered through synchronous (Zoom or livestream) and asynchronous. However, most classes are traditional, face-to-face instruction through Zoom.

Program announcements and documents

Major announcements for program events and reminders will be communicated via email to utilize the university email distribution list. Program documents such as manuals, guides and forms will be communicated through this email list. Students are automatically added once they are enrolled. Students will need to regularly check their email to participate in the academic program and related professional experiences.

**Components of this graduate program handbook content are taken from Southern Illinois University Edwardsville CSPA program (2016-2021) and SFA’s counseling and school psychology programs.*

Mission statement

The mission of the SFA Master of Arts in student affairs and higher education program is to develop and advance higher education professionals across the competencies of diversity, assessment, college student development and student success who will demonstrate leadership within the profession.

Program “core four” competencies

Program core competency I: Diversity

1. Knowledge of diversity, equity and inclusion
2. Ability to apply knowledge and understanding of diversity issues in the student affairs profession

This competency is adapted from the ACPA and NASPA competencies and highlights the important concepts of diversity and inclusion. ACPA and NASPA define social justice as the equitable distribution of resources so that all individuals are safe and secure both physically and psychologically. ACPA and NASPA define inclusion as a process that challenges the normativity of dominant groups by recognizing all groups and populations as diverse relative to one another. The SAHE program adheres to these professional definitions of social justice and inclusion in the practice of student affairs and higher education administration. Students explore this theme in the SAHE 5336 - Diversity Issues in Student Affairs and SAHE 5337 - Organization and Group Dynamics courses.

Program core competency II: College Student Development

1. Knowledge of concepts and principles of college student development and learning
2. Ability to facilitate student engagement and involvement in programming to promote student learning and development that are based on current research on student learning and development theories

This competency is adapted from the ACPA and NASPA competencies and addresses the principles of student development and learning theories. This includes the ability to apply theory to improve and inform student affairs and teaching practices. Students explore student populations and theories in SAHE 5319 - Introduction to the Student Affairs and SAHE 5343 - Theories of College Student Development courses.

Program core competency III: Assessment

1. Ability to analyze assessment and research data in higher education
2. Ability to ethically conduct research and assessment in higher education

3. Knowledge of foundational level assessment, evaluation, and research methodologies in higher education

This competency is adapted from the ACPA and NASPA competencies, and focuses on the ability to design, conduct, critique and use various assessment methodologies and the results obtained from them to inform practice. Students engage in applied research in SAHE 5356 - Professional Development Seminar, SAHE 5346 - Ethical and Legal Issues, and SAHE 5344 - Research and Program Evaluation courses.

Program core competency IV: Student Success

1. Knowledge of advising and supporting strategies
2. Ability to use theory and knowledge to practice the student affairs profession effectively and ethically in the areas of advising and supporting students

This competency is adapted from the ACPA and NASPA competencies. This addresses the knowledge, skills and dispositions related to providing advising and support to students and groups through intrusive and developmental approaches. Students explore this theme in SAHE 5345 - Leadership and Administration in Student Affairs, PCOU 5178 - Special Topics in Counseling (mandatory elective), and SAHE 5381 - Interviewing and Helping Skills courses.

Program learning outcomes

At program completion, SAHE students are expected to have the knowledge, skills and perspectives to serve college students, fostering their learning and development in a wide variety of student affairs or student success areas. The following specific program objectives are consistent with the current program assessment plan:

Assessment, evaluation and research

Students will develop and apply assessment, evaluation and research skills to critically assess literature related to the student affairs profession.

Intrapersonal development

Students will demonstrate an understanding of the need for effective intrapersonal development related to self-appraisal and understanding, identity development and personal and professional ethics.

Interpersonal competence

Students will demonstrate effective interpersonal competence related to developing meaningful relationships, collegiality, collaboration and effective leadership.

Leadership skills

Students will acquire the leadership skills and knowledge necessary to work with a diverse population and support social and civic responsibility.

Practical and technical competence

Students will demonstrate practical and technical competence necessary to be an effective student affair professional.

Related SFA academic policies

Admissions policies

To be considered for admissions, students will need to complete the required application materials and return them to the appropriate office. The SAHE program admits on a rolling basis for fall, spring and summer admission. Students interested in graduate assistantships should apply to begin the fall semester. No GRE or letters of recommendation are required.

To apply to the SAHE program, students must:

1. complete and submit a SFA graduate school application at ApplyTexas.com
2. provide official transcripts of all college/university credits
3. complete an undergraduate degree
4. provide an information/data sheet
5. provide a current resume (resume should include names, professional title, email address and telephone numbers of at least three references)
6. provide an introduction video focused on career goals (video should be five minutes maximum; guidelines found in this packet); and,
7. provide a personal statement (see this document for guidelines).

Carefully review all application materials and forms to ensure completion of all required information. Then submit them as indicated below.

Email program application, reference list, current resume, video link and personal statement to:

Dr. Hollie Smith, SAHE Program Coordinator
Stephen F. Austin State University
SAHEGrad@sfasu.edu

Note: All materials inclusive of transcripts must be received prior to being considered for the program. Direct any questions on the application process to the SAHE program coordinator, Dr. Hollie Smith at (936) 468-1018 or SAHEGrad@sfasu.edu

Personal statement

The personal statement consists of three sections:

- (1) a retrospective of leadership or student involvement experiences over time
- (2) a brief, autobiographical sketch that speaks to life and informs readers of personal and professional background or history
- (3) a statement/summary of professional goals about career future in student affairs and higher education.

The overall personal statement may include information on any formal education at the graduate and undergraduate levels, staff or professional development, technical training or professional experiences. The profile should convey a personal and professional history that enables SFA SAHE faculty members to know the person who is applying to the master's program. There is not a required specific format or structure, however, please type your profile, and use a double-space format, one to two pages.

Introduction Video

A video must accompany your application. This video should be no more than five minutes. In the video, you will need to introduce yourself and discuss with the SAHE program faculty members your professional goals. Insert your link into the personal statement to share your video and make sure it can be accessed.

Program admissions

The SAHE program practices holistic admissions in which we consider student and professional involvement and career aspirations in accordance with SFA graduate school admissions criterion. There are two levels of admission:

- **Clear admission-** This admission status allows students to work toward a graduate degree. Generally, students who have an undergraduate grade point average of 2.5 on a 4.0 scale and a 2.8 on the last 60 hours of undergraduate work, are eligible for admission into program.
- **Probationary admission-** Students who do not meet the clear admissions standards may be eligible for probationary admission. Probationary admission status allows students to work toward a graduate degree, however, the students must earn a “B” average on coursework in the first 12 semester credit hours of study (or the number of hours set by the graduate advisor). Probationary students who do not meet that objective will be placed on academic suspension. To be considered for probationary admission, students must have an overall GPA of 2.3 and the consent of a program coordinator and must be recommended by the major academic department and the appropriate academic dean.

Transfer of credits

Students who transfer from a different university may transfer up to nine credit hours. The hours must be reviewed and approved by the program coordinator. Once the credit hours are approved a transfer credit form must be completed.

Advising

Once a student is admitted into the SAHE program, they are assigned a faculty advisor. This is provided in an email sent from the program coordinator. This allows the student to review the class rotation and understand the progression of when to take classes. The faculty advisor will help the student complete a degree map, develop a degree completion schedule, and select courses each semester. Students can follow the degree plan and register for classes before the semester begins. Students are encouraged to contact the advisor before the registration period opens. Faculty members may not be available between semesters. Several courses have enrollment caps to provide adequate instruction or may only be offered once per year. Enrollment is first come, and delayed advising can result in unavailable courses.

During the first semester in the program, students must complete and submit a program course plan with their advisor. Program planning worksheets are available from the program coordinator.

Academic progress and removal from program

All students must demonstrate adequate academic progress. Students are only permitted to earn two “C” grades in the SAHE program. Upon receiving the third “C,” students are removed from the program, and students who make a grade lower than a “C” in any course will be dismissed from the program. Courses may be repeated to improve the grade. Repeating a course does not remove the “C” from the record to determine adequate academic progress.

Students must maintain a grade point average of 3.0 or above to continue admission to the SFA graduate school and SAHE program. Students who fall below a 3.0 are placed on academic probation for one semester. Failure to raise the GPA to a 3.0 during that semester will result in academic suspension. Once a student is placed on academic suspension, they cannot enroll in any classes for at least one semester before enrolling in classes.

Academic appeals (SFASU Policy 6.3)

This policy provides a formal process for students to appeal academic decisions. All relevant documentation under consideration at each step will be forwarded to the appropriate parties at the next procedural level. Any further appeal must be made within ten business days from the conclusion of each step. Recommendations or decisions at each level are generally made within four weeks of receiving the appeal. The burden of proof rests with the student throughout the process.

A student may appeal a final grade if inappropriate criteria were used in determining the grade, the instructor did not adhere to stated procedures or grading standards, or other compelling reasons exist to change the grade. A student may not appeal due to general dissatisfaction with a final grade or disagreement with the instructor’s professional judgment regarding the quality of the student’s work.

It is important to distinguish grounds for grade appeal from questions about quality of instruction. Successful grade appeals must be based on evidence that the student performed at a level sufficient to warrant a different grade. It is important for students to bring to the instructor’s and the department’s attention perceived deficiencies in instruction, but these by themselves do not normally warrant a change in grade.

A student may appeal substantial and/or unjustified deviation from academic policies, procedures and/or requirements.

These steps are to be followed when making an academic appeal:

1. Students must first appeal to the individual with whom they have an academic dispute. In the case of a final grade dispute, they must appeal to the instructor within 30 calendar days after the first class day of the next long semester. Given extenuating circumstances, exceptions to this deadline may be granted by the academic unit head.
2. If the dispute is not resolved, the student may appeal to the academic unit head. The academic unit head then requests a written statement from the individuals involved in the dispute. The academic unit head provides both parties a written recommendation.

3. If the dispute remains unresolved after appeal to the academic unit head, either individual involved in the dispute may appeal in writing to the academic dean. The dean notifies both parties of the continuation of the appeal and provides a written recommendation.
4. Prior to making a recommendation, the dean may refer the appeal to the college council. If the college council has no student members, the dean asks the president of the Student Government Association to recommend no more than two students from that college to be appointed as voting members. The college council reviews all documentation and submits its recommendation to the dean.
5. After a decision is made by the dean, either party may appeal in writing to the provost and vice president for academic affairs. The dean's written recommendation in addition to all documentation is submitted to the provost and vice president for academic affairs. The college council may serve as an advisory body to the provost and vice president for academic affairs. The provost and vice president for academic affairs evaluates all documentation and any additional oral presentations.
6. The provost and vice president for academic affairs informs the student and all persons involved in the appeal process of the final decision.

Faculty members are responsible for the evaluation of student course work conducted in their class and, under normal circumstances, are the sole judge of the grades received by the students in their course.

Elective options policy

All students have a three-credit elective option for which they may take a SAHE special topics course. Students that have one of the practicum courses waived (if they have at least six months of previous higher education experience) may take a second elective to substitute for the second practicum. All electives must be approved by the program coordinator before the student may enroll in the course. Students should not take courses outside of the SAHE program. However, if necessary for scheduling purposes, the student must receive approval to take the course both from the program coordinator and the course instructor.

Retention, remediation and dismissal

If a student is deemed at risk in terms of failure due to academic skills deficits, professional skills deficits or personal issues that interfere with the ability to function in the role of a professional counselor, a remediation plan will be developed and implemented. Remediation can involve repeating classes, other required professional development activities and attending personal counseling. The program coordinator will develop the goals for the plan, identify the required target measures of accomplishment and documentation of goal attainment, and the timeframe for completion. Students who are mandated to attend personal counseling will be required to sign a release of information document that will allow the faculty members to obtain information about the number of sessions attended, willingness to address the identified concerns, and progress toward the identified goals. Personal information will not be shared with the faculty. Failure to complete the remediation plan will result in removal from the program.

Due process

Students who are identified as at risk will have the opportunity to meet with faculty members to hear their concerns, provide additional information that may be relevant and review the remediation plan. Students have the right to appeal the faculty members' decision to the department chair. Students wishing to appeal against the faculty members' decision will need to discuss the appeal process with the department chair.

Time limitations

To ensure that graduates are trained in the most current professional environment, SFA requires completion of the master's degree within a six-year period. Coursework that is prior to the six-year period may not be accepted for credit. Students can request a review from the program coordinator of the content of the course syllabus to determine whether it encompasses current professional knowledge. Students will also be asked to demonstrate retention of the knowledge.

Final project

The purpose of the SAHE program's final project is to allow the student the opportunity to engage in basic research that addresses a relevant educational issue in a parsimonious, coherent and documented manner resulting in a finished product that leads to increased knowledge in the field and prepares the student for future research endeavors. Also, students will develop basic research skills that apply to student affairs professionals' work. Additional information is available in the final project guide distributed to students in SAHE 5356 - Professional Development Seminar.

The final project sequence consists of concepts gained from SAHE 5344 - Research and Program Evaluation and SAHE 5356 - Professional Development Seminar courses. In SAHE 5356, student will author a research paper reporting and orally defend their paper. The final project paper is intended to be completed in one semester, generally during the program's final semester unless approved by the student's faculty advisor and/or program coordinator.

Final project topics should be related to the field of student affairs and higher education, postsecondary policy and/or college access. Topics must be approved by the SAHE 5356 course instructor. Students should be mindful of the time limitations when they select a topic.

Financial aid

Information about the financial aid process, student loans, college work-study, various institutional programs and tuition and fee deferments may be obtained from the Office of Financial Aid and Scholarships.

Graduate assistantships

Many graduate assistantships are available to provide SAHE students with additional professional experience. Assistantships are available on a competitive basis for SAHE students at

SFA's Division of Student Affairs, Enrollment Management, Office of Diversity, Equity and Inclusion, and Department of Athletics. This special collaboration across campus provides preference to SAHE students for open positions, but positions are not guaranteed. A stipend and partial may tuition waiver are provided for assistantships and Residence Life positions provide room and board.

Livestream/Zoom procedures

SAHE students will attend courses via Zoom video conferencing.

The following criteria, in addition to all program and course requirements, must be met:

- Students must attend courses in real-time, with face-to-face video conferencing via Zoom. Students will be responsible for all course assignments and program requirements
- In the event of a technology issue of the instructor's/university's fault, the instructor will work with the student to ensure appropriate instruction is provided. If a technology issue of the student's fault occurs, the course policy for class absences will be followed, according to the syllabus.

Students must adhere to the distance education procedures:

- Courses developed for distance education modalities (e.g., Zoom, online, hybrid) provide ease and convenience for students. As more course offerings move to virtual modalities, guidelines for course participation and etiquette for students and instructors creates course structure. Courses utilizing Zoom or other video conferencing tools benefit from explicit expectations to increase involvement.
- Students and instructors collaborating in an online course that utilizes Zoom or other video conferencing tools follow etiquette guidelines increasing course structure and establishing a productive course environment.

Procedures:

1. Choose a location with low noise levels, few distractions and good internet connection. The connection should be made using a computer, not a phone. A landline connection is preferred. If the student's internet connection is unstable, they may be marked absent.
2. Students should display their first and last name. Preferred first names (e.g., Tom instead of Thomas) may be used as long as it is identifiable for faculty members.
3. When attending synchronous classes, your video feed (i.e., camera) must stay on for the duration of the course period unless otherwise stated in the expectations in the course syllabus or as directed by the instructor for specific activities. Students attending the course or other event should ensure the background captured by the camera is appropriate (e.g., not in a bed or bathroom, at a sporting event, restaurant, or other place of business) and not distracting to others in attendance (e.g., movement of people or pets).
4. Background noise should be minimized. It may be recommended to join the meeting muted (check individual syllabi for each professor's preference). Use the mute function unless talking. If possible, use a headset with a microphone when talking to decrease distracting background noise. If it is not possible to use a headset, minimize noise distractions (e.g., lawn maintenance, noisy pets, other individuals in the house). If unable to move away from the loud or distracting environment, mute the microphone while not actively speaking so as to minimize distractions to others.

5. Wear appropriate clothing. Clothing suitable for in-person classes is appropriate for attending online classes (e.g., pajamas are not appropriate attire). Appropriate attire could range from casual to smart casual for class meetings.
6. Use appropriate language and gestures when participating in course discussions. Attempt to take turns during discussions and not talk over others.
7. Use the chat option to ask questions, if appropriate. Just as in face-to-face classes, use appropriate language that is not offensive or vulgar and refrain from making off topic comments.
8. If the video meeting platform has a “raise hand” function, use that function to indicate you have something to say, as appropriate.
9. Do not multitask during the course period unless directed to find information related to the course by the instructor. Wait until after class to read emails, watch videos or work on other course material.
10. Ask the instructor for permission to record the class.
11. When taking an exam, your video feed must be on. Your video view must be of yourself and your work area. Failure to display yourself or your work area may result in a score of zero for the exam.
12. Certain courses may have additional requirements specific to the nature of the course, which can be found in the course syllabus.

Parties and responsibilities: students are responsible for adhering to the above procedures when participating in courses provided through Zoom or video conferencing platforms. Violations of procedures are addressed by faculty members.

SAHE core faculty

Dr. Hollie G. Smith, Program Coordinator holds a Bachelor of Science and Master of Arts in psychology with an emphasis in management from SFA, and a doctorate in higher education administration from Texas A&M University-Commerce. She serves as the executive director of Student Life, overseeing programs such as Orientation and Transition Programs, Student Publications/Divisional Media, Center for Career and Professional Development, Student Engagement, Student Government Association and the Division of Student Affairs annual assessment initiatives. In addition, she serves as an adjunct faculty member, teaching psychology, SFAS 1101 and graduate student affairs and higher education courses. She has more than 20 years of related professional experience in the field and authored four scholarly articles and facilitated over 30 conference presentations. Her research interests include first year transition programs, student learning outcomes and program evaluation. She is the recipient of the SFA Outstanding Young Alumnus, TACUSPA Dissertation of the Year, NODA Outstanding Advisor, and the University Professional Women's Association Woman of the Year awards.

Dr. Andrew Dies earned a bachelor's degree in Social Work from the University of Kansas and a master's degree in higher education administration from North Carolina State University. Dies also finished his doctoral degree from Georgia Southern University in May 2023 studying adverse childhood experiences, resilience and protective factors. He serves as the assistant vice president of the Division of Student Affairs and dean of students at SFA. Dies has worked in student affairs for 15 years, with time in residence life, student conduct and the Dean of Students Office. Dies has spent the last five years as a dean of students at multiple institutions across the country.

Dr. Veronica Beavers currently serves as the deputy chief diversity officer for the Office of Diversity, Equity and Inclusion at SFA. She is a two-time graduate of SFA. She received a Bachelor of Science with a double major in biology and psychology. In addition, she received a Master of Education with an emphasis on educational leadership. She earned a doctorate in higher education leadership at Texas A&M University-Commerce. Beavers has over a decade of experience working in higher education departments such as the Office of Multicultural Affairs, Office of Title IX, Orientation and Transition Programs and Residence Life. She is also an adjunct professor in the student affairs higher education program and SFA's SFAS 1101 program. During her time as a professional, Beavers has received multiple awards, such as NODA Region IV Outstanding New Orientation, Transition, and Retention New Professional, the SFA Deans Excellence Award and The Organization for Women's Leadership and Equity Advocate Award. She was recognized for a grant she received from the Texas Commission of Arts for her efforts in promoting diversity

and inclusion at SFA. Her research interests include student success, first-year student programs, diversity, social justice and multiculturalism. When asked what she loves most about working at SFA, Veronica will reply by explaining her love for mentoring students and contributing to their success.

Dr. Michara Delany-Fields earned a Bachelor of Science in health studies, Master of Science in human performance at Texas Southern University, and a doctorate in educational leadership in higher education from Prairie View A&M University. At SFA, she serves as the chief diversity officer for the Office of Equity, Diversity and Inclusion. Delany-Fields was the inaugural chief diversity officer where she oversees campus climate and creates strategic initiatives. She previously served as interim dean of students, interim vice president for student affairs and assistant vice president for student affairs and student engagement at Albany State University. Her research interests include diversity, inclusion, social justice and women in higher education.

Lacey Folsom earned both a Bachelor of Science in human sciences at SFA and a master's degree in interdisciplinary studies, with a focus on counseling, educational psychology and human sciences. She is currently pursuing a doctorate in educational leadership with a concentration in higher education at SFA. Folsom serves as the director of Student Engagement. As director, Folsom oversees Fraternity and Sorority Life, Leadership and Service, campus activities and spirit and tradition programs. Folsom has worked in student affairs for more than 10 years in various capacities both in her role within student engagement and with campus-wide initiatives including serving as a conduct officer and an Office of Title IX deputy. Folsom currently serves as the vice president of membership and marketing for Texas Association of College & University Student Personnel Administrators.

Practicum procedures

Overview

The practicum is for students to apply newly learned higher education/ student affairs knowledge, learn new skills and gain exposure and experience in additional functional areas of interest. Practicums are only available in the spring and summer semesters (see below information about summer practicums).

As part of the practicum, students are also required to attend a practicum orientation the semester before the practicum and the practicum seminars associated with the course. In addition, students will complete assignments based on the practicum work.

Graduate assistantship/employment overlap

Students who also hold a graduate assistantship in a college setting may NOT apply their assistantship hours towards their practicum requirements. Assistantships include tuition assistance and are considered employment. In addition, students who work full-time may not use employment hours as practicum hours.

Professional development hours

Students may count some hours of professional development towards the practicum experience. This should not exceed more than 20 hours total for any professional development experience. These include webinars, staff professional development training, conferences (regional, local or national), speakers or seminars. No experience from a graduate assistantship or full-time employment can be counted towards this 20-hour maximum. Students must obtain approval from the practicum course instructor and their site supervisor.

The distribution of the required hours is outlined in the table below:

Category	Student employed full-time in higher education (PT student)	Student who is not employed full-time in higher education (FT student)
Concurrent professional experiences	38 hours	0 hours
Minimum hours on practicum site	80 hours (7-8 hours/week)	118 hours (8-10 hours/week)
Course seminar meetings	12 hours	12 hours
Course assignments	20 hours	20 hours
Total:	150 hours	150 hours

Goals of the practicum sequence

1. Assess oneself compared to professional and ethical standards of the student affairs and higher education profession
2. Hone knowledge, skills and abilities related to counseling and college student affairs administration in a collegiate setting by performing the functions of a professional student affairs practitioner under the supervision of the assigned instructor and site supervisor
3. Reflect on one's strengths and weaknesses regarding assigned practicum responsibilities
4. Integrate and synthesize field experiences with the SAHE curriculum
5. Become a reflective practitioner
6. Broaden and deepen understanding of higher education and student affairs
7. Develop a deeper and more detailed understanding of student affairs profession

Summer practicums

Summer practicum overview

Typically, summer practicum experiences are more administrative in nature as there are not as many student contact opportunities available. Typical summer practicum opportunities may include student leadership retreats, student transition programs, summer conference housing, orientation, bridge programs or administrative positions.

Concurrent registration for SAHE

It is possible to register concurrently for six credits of SAHE 5696 - Student Affairs Practicum in any semester for 300 hours. This is recommended for any students doing a national placement such as with ACUHO-I (residence life), NACA (student activities), NASPA (student affairs), (NODA (orientation) or ACUI (student union).

Summer placement exchange internships (paid experiences)

Summer paid internships are available through several of the professional organizations in student affairs especially and specifically for graduate students. Students seeking a summer placement for NODA for Orientation and Transition Programs or for ACUHO-I for housing/residence life should speak with the program coordinator in the fall as the forms are due at very beginning the spring semester. Summer Placement Exchanges:

Association/Organization	Deadline
ACUHO-I (Residence Life)	Mid-January
NODA (Transition/First-Year Experience)	Mid-January
NACA (Student Activities)	Mid-January
ACUI (Student Union)	Mid-January

General Practicum Timeline for Students

Practicum Semester	
Week one of semester (or prior, in some cases)	Practicum work hours begin
Week eight of semester (Week five in summer)	Formative midpoint evaluation conducted by site supervisor
Last week of classes	Practicum work hours end
First day of finals week	Supervisor submits final evaluation
Finals week	Student submits final paperwork and reflection to faculty supervisor
Finals week	Student submits site evaluation form to faculty supervisor

Additional requirements for practicum

Liability insurance

At select placements students will be encouraged to obtain and maintain liability insurance. More information will be provided to affected students.

Practicum forms and publications

Several forms and publications are important to the SAHE practicum and practicum sequence. These are shared and reviewed by the program coordinator during practicum orientation.

Permission to begin practicum/practicum hours

Students may not begin their practicum work until they are enrolled in the appropriate courses, have demonstrated evidence of liability insurance (if required), have submitted a signed/completed practicum agreement/acceptance of terms form, and have secured approval of the site from the appropriate program coordinator. Only in special cases approved by the faculty member can hours begin before the academic term in which the practicum occurs.

Practicum requirement substitution

Students with less than six months prior experience working in higher education are required to do one practicum for three credits. It is strongly recommended that the two practicums be at different sites with different site supervisors. Students with at least six months experience working in higher education are *not* expected to complete one experience which are substituted with elective coursework. The practicum course is SAHE 5696 - Student Affairs Practicum and students need to be registered for that course during each practicum semester.

Course prerequisites

Students must complete at least two required SAHE non-practicum courses before enrolling in a practicum. Since one of the goals of the practicum is to apply knowledge and skills learned in SAHE coursework, students need to have had some SAHE coursework before doing their practicum. In unusual circumstances, students will be able to enroll in a practicum: after having taking only one prior SAHE course; or during their first SAHE semester of coursework while concurrently taking another SAHE course.

Practicum orientation

Students must attend the practicum orientation. Site supervisors are encouraged to attend, especially if it is their first time supervising. The practicum orientation will cover: practicum general goals and objectives, development of student personal practicum curriculum, practicum assignments/products and student assessment.

Academic writing and research

Overview of expectations

The SAHE program is a writing intensive graduate program which prepares students to engage in the critical discourse of the profession of higher education and student affairs. There are expectations that students will be able to apply a critical lens to communicate research outcomes effectively which inform the development of student development and retention programs or policies.

The SAHE program requires the use of the Publication Manual of the American Psychological Association Seventh Edition as the guide for all written assignments during the duration of their program. Students in the program should be familiar with this style guide prior to completing and handing in any papers for graduate courses. The APA manual may not be a required text for many of the graduate courses taken; however, students are expected to refer to it for guidance for all written assignments in all SAHE courses. A tutorial is provided in SAHE 5319 -Introduction to Student Affairs and students seeking additional clarification should reference the APA seventh edition manual or the Purdue Owl at <http://owl.english.purdue.edu/owl/>.

Each student must author an analysis of a critical issue in student affairs and higher education in SAHE 5356 - Professional Development Seminar. This assignment will include a literature review and students will engage in deeper learning to provide for an in-depth investigation of a significant issue of interest within one of the functional areas.

Academic support plan

Students who demonstrate difficulty with academic writing or critical thinking in any course will be referred for academic support under an academic support plan. Such students will be provided additional academic supports which may include completion of an academic development plan specifying the focus areas for improvement and the improvement strategies; instructor completion of the writing evaluation checklist indicating the problematic elements of a student's writing; participation in writing circles, which are small groups of students who work together to help each other with writing; participation in a writing class; and other strategies, as deemed appropriate.

Failure to complete the ASP may result in deferral of the final project course sequence or academic dismissal from the program.

SAHE program awards

Dr. Adam Eugene Peck SAHE Student of the Year

This award recognizes a graduating or recently graduated SAHE student in the program who has demonstrated academic success, leadership and commitment to the SAHE program and the profession of higher education and student affairs administration. In reviewing the nomination, faculty members will consider outstanding involvement in the classroom (academic achievement), professional practice (employment, practicum or assistantship), and commitment to the profession (involvement in local, regional or national associations).

For a candidate to be nominated as a SAHE student, the individual should be nominated by a SAHE program faculty member.

Outstanding Contributions by a SAHE Student

This award is presented to SAHE student(s) who have provided outstanding, voluntary, non-compensated service and contributed to the enhancement of the SAHE program and/or the higher education profession.

Examples include but are not limited to:

1. Contributions to SAHE and/or SFA through leadership positions, service on committees or projects or volunteerism/community service beyond internship/job requirements
2. Contributions to ongoing research that advances the field
3. Contributions to local, state, regional and/or national organizations (e.g., professional presentations, committee/commission participation, volunteer projects)

For a candidate to be nominated as a SAHE student, the individual should be nominated by a faculty or staff member or a professional with a listing of their professional activities.

SAHE Faculty Award for Academic Excellence

This award is given to a SAHE student for academic excellence who is a member of Chi Sigma Alpha Student Affairs Honor Society and has completed an outstanding final project. This award recognizes the highest achievement in a master's degree research based on a completed final project and overall efforts to contribute to the body of research and knowledge within the profession of higher education and student affairs administration. This student demonstrates a significant commitment to the scholarly contribution to the profession and its intellectual pursuits. Faculty members will consider the candidate academic achievement through transcript review, verify member in the honor society and overall evaluation for the quality of the final project.

For a candidate to be nominated as a SAHE student, the individual should be nominated by a SAHE program faculty member.

SAHE Outstanding Practicum Student and Professional of the Year

This award recognizes a practicum student from the current academic year who has demonstrated mentorship and commitment to professional identity to the field of higher education and student affairs administration. In reviewing the nomination, faculty members will consider practicum evaluations by site supervisors and professional responsibilities (events, artifacts, etc.).

This award recognizes a current student affairs and/or higher education professional who has meaningfully contributed or engaged in advocacy for the SAHE program and reflects the aspirant values of the program (diversity, assessment, student success and student development). In reviewing the nomination, faculty members will consider the four program values through advocacy activities, professional involvement/leadership, knowledge contributions or research, commitment to student development.

For a candidate to be nominated as a SAHE student, the individual should be nominated by a SAHE program faculty member.

Chi Sigma Alpha Student Affairs Honor Society

Overview

Chi Sigma Alpha is the Student Affairs Honor Society International. It is comprised of graduate students, alumni, faculty members and student affairs professionals. Chi Sigma Alpha was founded in 2001 at Virginia Polytechnic Institute and State University to promote and recognize excellence in academics, research and service to the profession of student affairs.

The SFA charter was established in 2022 and holds an annual spring and fall induction as well as professional and social events. Chi Sigma Alpha serves as the graduate student organization for the SAHE program. For more information, contact the program coordinator.

The logo is a three-pillared temple, as seen above, with the society's Greek letters, the motto below and the society's three values of academics, research and service inscribed on the pillars. The colors **maroon** and **gold** represent Chi Sigma Alpha. **Maroon** honors the society's Alpha Chapter at Virginia Tech. **Gold** represents the society's commitment to excellence. The Motto is "Ut Provochem Et Adiuvem" which translates to "That I May Challenge and Support."

Membership eligibility

To be considered for membership in Chi Sigma Alpha, candidates must have a cumulative graduate GPA of 3.75 or higher. Applications and nominations are reviewed each academic year by a panel of faculty members and current members of the chapter executive board, with only the highest-ranking applicants being chosen for membership. Inductions are held one to two times a year in spring and fall semesters. Membership is open to program alumni(ae) and current student affairs professionals.

SAHE program traditions

Commencement hooding ceremony

The program holds an annual SAHE commencement ceremony each spring semester for its fall and spring graduates. This event is planned by Chi Sigma Alpha members, SAHE faculty members and co-sponsored by the Division of Student Affairs.

SAHE awards

The SAHE program has several awards that are given by program faculty members and distributed to select students for professional involvement, final project and outstanding student. These awards are given out at SAHE commencement hooding ceremony.

Chi Sigma Alpha induction

Each spring and fall semester, an induction is held for students who are invited into the national profession student affairs honor society, Chi Sigma Alpha. Students must have a 3.75 GPA. Inductions are conducted during the commencement hooding ceremony.

Professional associations

National Association of Student Personnel Administrators

NASPA is the leading association for the advancement, health and sustainability of the student affairs profession. It serves a full range of professionals who provide programs, experiences and services that cultivate student learning and success in concert with the mission of their colleges and universities. Established in 1918 and founded in 1919, NASPA is comprised of over 15,000 members in all 50 states, 25 countries and eight U.S. Territories.

Through high-quality professional development, strong policy advocacy and substantive research to inform practice, NASPA meets the diverse needs and invests in realizing the potential of all its members under the guiding principles of integrity, innovation, inclusion and inquiry. NASPA members serve a variety of functions and roles, including the vice president and dean for student life, as well as professionals working within housing and residence life, student unions, student activities, counseling, career development, orientation, enrollment management, racial and ethnic minority support services and retention and assessment.

Learn more about NASPA at www.naspa.org.

American College Personnel Association

American College Personnel Association — headquartered in Washington, D.C. at the National Center for Higher Education, ACPA is the leading comprehensive student affairs association that advances student affairs and engages students for a lifetime of learning and discovery.

ACPA, founded in 1924 by May L. Cheney, has nearly 7,500 members representing 1,200 private and public institutions from across the U.S. and around the world. ACPA members include graduate and undergraduate students enrolled in student affairs and higher education administration programs, faculty members and student affairs educators, from entry level to senior student affairs officers, and organizations and companies that are engaged in the campus marketplace.
