

Student Records

Original Implementation: 1974

Last Revision: April 11, 2022

The purpose of this policy is to comply with federal law which: (1) grants to students the right of access to their education records, (2) protects students from illegal use of their education records and (3) restricts the disclosure of the social security numbers of students.

I. Definitions

For the purposes of this policy, the university adopts the following definitions:

- A. Student means any person who attends or who has attended the university.

- B. Education records means any record (in handwriting, print, digital, tapes, film, or other medium) maintained by the university or an agent of the university which is directly related to a student, except:
 - 1. a personal record kept by a staff member, if it is kept in the personal possession of the individual who made the record, and information contained in the record has never been revealed or made available to any other person except the maker's temporary substitute;
 - 2. an employment record of an individual whose employment is not contingent on the fact that he/she is a student, provided the record is used only in relation to the individual's employment;
 - 3. records maintained by the University Police Department if the records are maintained solely for law enforcement purposes, are revealed only to law enforcement agencies of the same jurisdiction, and the department does not have access to education records maintained by the university;
 - 4. records maintained by University Health Services if the records are used only for treatment of a student and made available only to those persons providing the treatment;
 - 5. records maintained by University Counseling Services if the records are used only for treatment of a student and made available only to those persons providing the treatment; and,
 - 6. alumni records that contain information about a student after he/she is no longer in attendance at the university and the records do not relate to the person as a student.

- C. A school official is a person employed by the university in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has

contracted as its agent to provide a service instead of using university employees or officials (such as an attorney, auditor or collection agent); a person serving on the Board of Regents; a scholarship committee, for the sole purpose of evaluating scholarship recipients; an outside individual/entity involved in the financial aid process reviewing information regarding financial aid eligibility; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

- II. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the university. University employees, including student employees, and others designated by the Registrar will annually complete Family Educational Rights and Privacy Act (FERPA) training. Initial training must be completed no later than thirty (30) days from start of employment or granting of access. If training is not completed as required, access to any system containing student information may be removed.

Annual notification is published on the SFA website and in the annual Welcome Edition of the Pine Log. Specific information may be obtained by consulting with administrative officials listed in this policy.

III. Student Rights

Each student has the right to:

- A. receive a list of the types of education records maintained by the university;
- B. inspect and review the contents of his/her records, excluding the exceptions included in this policy;
- C. obtain copies of his/her records at personal expense if failure to provide such copy would effectively prevent the student from inspecting or reviewing the record;
- D. receive explanations and interpretations of his/her records; and,
- E. request a hearing to challenge the contents of his/her records.

IV. Procedure to Inspect Education Records

Students may inspect and review their education records upon request to the appropriate record custodian.

Students should submit to the record custodian or an appropriate university staff person a written request that identifies as precisely as possible the record or records they wish to inspect.

The record custodian or an appropriate university staff person will make the needed arrangements for access as promptly as possible and notify the student of the time and place

where the records may be inspected. Access must be given in 45 days or less from the receipt of the request.

When a record contains information about more than one student, the student may inspect and review only the records that relate to him/her.

The record will indicate the name of the party making the request, any additional party to whom it may be disclosed, and the legitimate interest the party had in requesting or obtaining the information. The record of requests may be reviewed by the student.

The university may disclose any of these items without prior written consent, unless the student files a Request to Prevent Disclosure of Directory Information form with the Registrar's Office. Students have until the twelfth-class day of a regular semester or the fourth-class day of a condensed semester to file the form before information may be released by the university for that semester.

XII. Review and Destruction of Education Records

The university may destroy obsolete records provided the right to access has been followed as outlined in Section 3 of FERPA.

XIII. Correction of Education Records

A student has the right to request a correction on his/her education records that he/she believes is inaccurate, misleading or in violation of his/her privacy rights. The university shall attempt to settle the disputed contents of an education record by informal proceedings. If informal proceedings fail to achieve a satisfactory settlement, the student may request a formal hearing using the following procedures.

- A. To receive a hearing, a student must file a written request with the president of the university. In so doing, the student should identify the part of the education record he/she wants amended and specify why he/she believes it is inaccurate, misleading or in violation of his/her privacy rights.
- B. Within 10 working days of receiving the request, the president will arrange for a hearing, and notify the student at least five working days in advance of the date, place and time of the hearing.
- C. The hearing will be conducted and the decision rendered by a hearing officer, appointed by the president, who does not have a direct interest in the outcome of the case. The president shall name the hearing officer in the written notice sent to the student.
- D. The student shall be afforded a full and fair opportunity to present evidence relevant to the issues listed in the original request to amend his/her education records.
- E. The hearing officer will prepare a written decision based solely on the evidence presented at the hearing.
- F. If the hearing officer decides that the disputed contents of the education record are inaccurate, misleading or in violation of the student's right to privacy, the officer will amend the record and notify the student in writing that the record has been amended.
- G. If the hearing officer decides that the disputed contents of the education record are not inaccurate, misleading or in violation of the student's right to privacy, the officer will notify the student of his/her right to place a statement in the education record commenting on the disputed contents and/or a statement setting forth the student's reasons for disagreeing with the decision.
- H. The student's statement will be maintained as part of the student's education record as long as the disputed contents are maintained by the university. If the university discloses the disputed contents of the education record to any person, it must also disclose the student's statement to the person.

XIV. Disclosure of Social Security Number

Federal law requires that when any federal, state or local government agency requests an individual to disclose his/her social security number (SSN), that individual must also be advised whether that disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, and what uses will be made of it. Accordingly, students, or applicants for admission as students, are advised that disclosure of a student's SSN is mandatory as a condition for participation in certain activities at the university.

Under the mandatory category, the SSN is used to verify the identity of the student, and as an identifier to record necessary data accurately for activities such as admissions; housing and food services; determining and recording eligibility for student financial assistance to include loans, scholarships, and grants; student employment; recording entitlement to and disbursement and repayment of loans; recording entitlement to and payment of scholarships,

grant allowances, and official student travel and per diem; determining and recording eligibility for and participation in athletic and similar events; and other related requirements which may arise.

Disclosure of a student's SSN is voluntary for certain other activities. Under the voluntary category, the SSN is used to verify the identity of the student and to record data accurately for such activities as testing, reporting and evaluation of the ACT and the SAT; recording and reporting student grades and related academic data; registering for placement services to include preparation of resumes and furnishing information to prospective employers and such other related uses which may arise.

Authority for requiring the disclosure of a student's SSN is grounded in federal law that provides that an agency may continue to require disclosure of an individual's SSN as a condition for the granting of a right, benefit or privilege provided by law where the agency required this disclosure under statute or regulation prior to January 1, 1975, in order to verify the identity of an individual.

Pursuant to statutes passed by the state of Texas and the federal government and to regulations adopted by agencies of the state of Texas and the federal government, and by the Board of Regents of the university, the disclosure of the SSN may be required on student application forms and other necessary student forms and documents.
