

SFA Research Collaborative

Office of Research and Graduate Studies

Compiled June 9, 2021

Agriculture

Erin, Brown
browneg@sfasu.edu
936.468.4433

Research Interests

- weaning stress, use of drones in animal handling, agriculture awareness, service learning

Research Strengths

- weaning stress, use of drones in animal handling, agriculture awareness, service learning

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Candis, Carraway
carrawaycl@sfasu.edu

Research Interests

- Scholarship of Teaching and Learning Teacher Retention and Burnout College Student Recruitment and Retention Impacts of Study Abroad Integration of Science in Agricultural Education

Research Strengths

- Survey Design Qualitative Research

Grant Experience

- Yes, external grants only

Funding Agencies

- USDA

Responses/Feedback

- No response

Michael, Maurer
maurerma@sfasu.edu
936.468.1729

Research Interests

- Horticulture - plant physiology, plant water relations, plant nutrition, plant management and plant evaluation.

Research Strengths

- Applied field research projects resulting in graduate student thesis

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- USGA - United States Golf Association FFF - Fluid Fertilizer Foundation USDA - Non point source GCSAA - Golf Course Superintendents Association of America

Responses/Feedback

- No response

Anthropology, Geography and Sociology

Dianne, Dentice
denticede@sfasu.edu
936.468.2241

Research Interests

- Race, gender, all that is happening with the Insurrection arrests, extremist social movements, recreation and leisure

Research Strengths

- I have published the most in race and gender. I am in getting an MIS now through LEAP and my research agenda is starting to change. Darrel McDonald (geography) and I have a chapter accepted for review in a Palgrave handbook on social change. The chapter title is: "The Recreation and Leisure Industry Amidst a Pandemic." I like to collaborate across disciplines when I get the opportunity.

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- I have always thought that SFA faculty has research depth and talent. During my tenure here I have published with friends from graduate school rather than colleagues. Now that I am crossing disciplines with the MIS - I am looking forward to more collaborations with SFA colleagues.

Art

Amanda, Breitbach
breitbaca@sfasu.edu
936.468.1797

Research Interests

- ecology Texas Gulf Coast - industry, ecology, culture Texas oil industry working landscapes agriculture

Research Strengths

- creativity visualization photography communication writing-grant writing

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Rural Futures Institute Mid America Arts Alliance University of Nebraska-Lincoln Stephen F. Austin State University

Responses/Feedback

- My current research focuses on the Texas Gulf Coast and the conflicts between its value to the the oil/petrochemical industry and to wildlife - particularly migrating birds. I am interested in looking at this topic from all angles and would love to work with others whose research focuses on the coast. I am particularly interested in working with ornithologists, ecologists, recreation specialists, and petroleum engineers, but would also welcome collaboration with anyone studying language, culture, or history of the Texas Gulf Coast region.

Neal, Cox
coxn@sfasu.edu
936.468.4563

Research Interests

- Art, printmaking, photography, drawing, digital imaging, bookbinding,

Research Strengths

- creative problem solving

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- I would like to study the physics of lens optics pursuant to casting lenses for DIY cameras

Linda, Post
postl@sfasu.edu
718.387.9039

Research Interests

- Digital media art, performance, movement, dance, kinesthetics and phenomenology.

Research Strengths

- Visualization, installation, interactive design.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Dallas Museum of Art

Responses/Feedback

- I am interested in collaborating across campus with computer science, dance, psychology and others to explore visual art installation in relationship to research of human experience.
-

Lauren, Selden
lselden@sfasu.edu
936.468.4183

Research Interests

- metalworking and jewelry sculpture interdisciplinary collaboration Art and Anything (creating an experience by mixing two fields)

Research Strengths

- Organization Working towards a long term goal Generating excitement Curiosity and interest in continuous learning

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Dallas Museum of Art (OTIS AND VELMA DAVIS DOZIER TRAVEL)

Responses/Feedback

- Selected previous collaborative experience: -Collaboration with advanced casting class and the Gault Archaeology Site-making metal replicas of Clovis lithic points. -Collaboration with multiple university metalworking and jewelry programs to do collaborative projects where work was shipped and presented in multiple locations. -Curating exhibitions with Professional Practices classes -Inflatable sculptures for Pre-K students. Students sat inside of sculpture and college students read them books about Color. -Collaboration between art students and local glass group. -Part of Faculty Learning Community- Interdisciplinary Collaboration -Pen and Pigment Exhibition. Art and Fiction Writing course created works inspired by each other.

Art Education

Maggie, Leysath
leysathmn@sfasu.edu
936.468.4262

Research Interests

- education reform; art integration; social justice through art; art education advocacy.

Research Strengths

- Community relationships and activity/event organization

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NEA and SFA's RCA

Responses/Feedback

- I am interested in interdisciplinary efforts at the university level.

Athletics

Evan, Amstutz
amstutzem@sfasu.edu
936.468.6244

Research Interests

- I have an extensive database of sport related metrics that I have collected over multiple seasons. I would love to collaborate with someone/a group of people to evaluate this dataset and possibly assign an importance score to various occurrences in the lines of code as they lead to success/failure in a volleyball match.

Research Strengths

- I have undergrad research experience in Entomology, Ecology, and statistics, and a graduate research background in Human Behavioral Psychology.

My strengths are in data collection, database management, and statistical manipulation.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- I'd love to pair my applied experience in the athletics realm with the added analytical and organizational expertise of the academic side of campus. I feel there is a strong possibility for publication, as well as application in our volleyball program.

William, Crittenden
coachwally@sfasu.edu
936.468.1013

Research Interests

- Sports, Recreation, HealthandWellness, Community Development

Research Strengths

- Grant writing, community activation, event management, short-mid-long term planning.

Grant Experience

- Yes, external grants only

Funding Agencies

- US Youth Soccer (Funded), Templeton Foundation (Not Funded), SFA Technology Grant (Not Funded)

Responses/Feedback

- We have all kinds of research opportunities that would activate/benefit both on-campus and off-campus populations groups. I have two sister companies, Wellnicity and Genesis Today that are prepared to participate and Wall-mart reached out today, April 28, 2021, to discuss an initiative they think would fit within the LSI.

Biology

Carmen G, Montana
montanascg@sfasu.edu
936.468.2322

Research Interests

- Freshwater community ecology and ecosystem ecology
Aquatic Invasive Species (fish and aquatic invertebrates primarily)
Anthropogenic stressors on freshwater ecosystems
Conservation Biology
River and Stream Ecology
Food web Ecology
Fisheries Ecology

Research Strengths

- Organized, with clear and good research plans
Responsible
Enthusiastic and deeply committed to work
Open to listen and discuss research ideas with others
Open for collaboration across disciplines
Enthusiastic for writing papers and disseminating results of the research projects

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- National Science Foundation (NSF)
Texas Parks and Wildlife Department (TPWD)

Responses/Feedback

- Collaborative research with other colleges
Departments may involve:
1) Nutrient analysis, both in water and production sources.
2) Mercury contamination, both in aquatic animal tissues and sediments
3) Microplastic (polymers) identification
4) GIS analysis

Lindsay, Porter
lindsay.porter@sfasu.edu
936.468.2232

Research Interests

- Medical entomology, immunology, genetics, and forensics.
Gene expression, gene silencing, recombinant protein expression.

Research Strengths

- Molecular biology techniques.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Louisiana Mosquito Control Association, Hamilton Company, Texas Academy of Sciences

Responses/Feedback

- No response

Zeljko, Radulovic
zeljko.radulovic@sfasu.edu
936.468.6619

Research Interests

- Arthropod vectors and vector-borne microorganisms

Research Strengths

- Application of variety of molecular biology based techniques

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH (not individually, as a part of the project)

Responses/Feedback

- Maybe collaboration of sample collection, related to different vertebrate samples that can be reservoirs of microbial pathogens that I study.

Business Communication and Legal Studies

Chris, McKenna
mckennacj@sfasu.edu
936.468.1549

Research Interests

- Business communication; business ethics; rhetoric and composition; pedagogy; human resource management; business history.

Research Strengths

- Strong writer and editor. Not averse to survey-based research or quantitative research (for someone with a background in the humanities).

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- Grant writing training would be useful, as well as introduction to potential grant databases.

Campus Recreation

Benito, Telesca
telescaba@sfasu.edu
936.468.1775

Research Interests

- Health and Wellness Behavioral dynamics in social groups/settings Conduct and discipline methodology and outcomes

Research Strengths

- Data gathering

Grant Experience

- Yes, external grants only

Funding Agencies

- Not specified

Responses/Feedback

- We are currently in need of looking at behavior patterns that affect long-term satisfaction in quality of life linked to habits developed in 18 -25 year old students.

We need assess the barriers that preclude students to being more engaged in active pursuits in collegiate environments.

Center For Teaching and Learning

Theunis, Oliphant
oliphantt@sfasu.edu
936.468.2774

Research Interests

- Teaching and learning Artificial Intelligence Virtual/Mixed/Augmented Reality Cryptography Cryptocurrencies

Research Strengths

- Writing

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Chemistry and Biochemistry

John, Gary
garyjb@sfasu.edu
936.468.2189

Research Interests

- Reactivity of metals in enzymes, cooperativity in redox processes, small molecule activation

Research Strengths

- Inorganic, Bioinorganic, Organic, and Computational Chemistry

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF, NIH, ACS PRF

Responses/Feedback

- Finding grant opportunities, expanding access to library and research databases, developing grant budgets.

Michael, Janusa
janusama@sfasu.edu
936.468.1139

Research Interests

- Research interest focuses on the environmental science areas of water and soil quality. Also interested in starting research involving pesticides and/or food chemistry.

Research Strengths

- quantitative research

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Kefa, Onchoke
onchokek@sfasu.edu
936.468.2386

Research Interests

- 1. Environmental/Analytical Research: Plant bioremediation studies; metal speciation (and interaction with PAHs) in composted wastewater sludges.
- 2. Computational Chemistry (and physical-organic) studies of various molecules of biological interest; photochemistry of nitrated PAHs (singlet states, triplet states, radical anions); carcinogenicity of particulates Molecular Modeling, Computational studies of PAHs, electronic structure calculations; Docking Studies; Vibrational/molecular Spectroscopy; Electronic structure calculations; DFT calculations of the electronic excited states; electronic structures of molecules, structure-reactivity relationships.
- 3. Spectroscopy and Chromatography: Synthesis, characterization via $1\text{H}/13\text{C}$ NMR, IR/Raman, fluorescence, UV-Vis, HPLC, MPLC, and ion chromatography.
- 4. Studies of Emerging Pollutants in water and wastewater.
- 5. Photochemistry:
- 6. Electrochemical Studies
- 7. Water and food chemistry: Assessment of water and wastewater, and food quality

Research Strengths

- 1. A seasoned researcher, and caring mentor to undergraduate and graduate students. 2. A researcher who seeks solutions from others with expertise. 3. Efficient in accomplishment of research tasks. 4. Frequently communicates research findings through peer reviewed publications in journals. 5. A seasoned reviewer of manuscripts submitted to journals.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Carnegie Foundation, NSF and PRF (part of NSF)

Responses/Feedback

- Instrumentation support for chromatography. In particular in support of an established mass spectrometry center, the need to use Shared Instrumentation laboratories at SFA.

Bidisha, Sengupta
bidisha.sengupta@sfasu.edu
936.468.2485

Research Interests

- Biophysical Chemistry, Cancer Biology, Nanomaterials

Research Strengths

- Optical Spectroscopy, HPLC, mammalian cell culture

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH, NSF, HHMI, INBRE, EPSCoR

Responses/Feedback

- Sensitive fluorimeter (e.g. Horiba Yvon), time resolved absorption and fluorescence, cell culture.

Communication

Larry, King
lking@sfasu.edu
936.468.1260

Research Interests

- Political communication Emerging religions Media events Comparative media studies Diffusion of information Mediated reality Political rhetoric and oratory Media depictions of religion Alamo films Jesus films

Research Strengths

- Rhetorical and critical analysis Survey research Quantitative research Qualitative research Mixed methods research Content analysis

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Dishman Foundation Lilly Foundation

Responses/Feedback

- No response

Computer Science

Jeremy, Becnel
becneljj@sfasu.edu
936.468.1468

Research Interests

- Quantum Computing, Radon Transforms, Topological Vector Spaces, Virtual and Augmented Reality

Research Strengths

- Writing, Coding, Problem Solving

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSA, NSF

Responses/Feedback

- Time, I suppose. I have projects I am currently working on and others I would like to pursue. Thus, further projects need to either have funds to buy out my time or lead to grant funding that buys out my time.

Dipak, Singh
singhd1@sfasu.edu
936.468.1689

Research Interests

- Machine Learning, Artificial Intelligence, Natural Language Processing, Computer Vision, Probabilistic Graphical models, Network science, Deep Learning, Natural Disasters, Big Data, Data Center Networks

Research Strengths

- Machine Learning, Artificial Intelligence, Natural Language Processing, Computer Vision, Probabilistic Graphical models, Network science, Deep Learning, Natural Disasters, Big Data, Data Center Networks

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- I would like to work in interdisciplinary research work. Anything related to big data in different fields of science and developing predictive models based on those data using statistical methods, such as machine learning.

Department of Education Studies

Tracey, Hasbun
tlcovington@sfasu.edu

Research Interests

- Early Language Early Literacy Early Childhood Pre-service Teacher Education Accreditation (some areas but not all)

Research Strengths

- ?

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Department of Management and Marketing

Brian, Nagy
brian.nagy@sfasu.edu
936.468.1256

Research Interests

- 1. organizational legitimacy 2. liabilities of newness 3. assets of newness 4. impression management behaviors 5. entrepreneur behaviors

Research Strengths

- writing survey data collection survey data analysis case study writing

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Economics and Finance

Beverly, Mendoza
beverly.mendoza@sfasu.edu
936.468.1815

Research Interests

- My research interests lie in International Economics and Trade. My current research studies firm export strategies based on information spillovers and export experience. Although, I am also interested in branching out to study the effects of government policies on global trade.

Research Strengths

- I am good at analyzing big detailed data sets using a variety of regression models. I am able to synthesize large data with the theory.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Ryan, Phelps
phelpsrt@sfasu.edu
936.468.1501

Research Interests

- Policy Analysis Education Household Finance Health and Health Economics Environmental Economics

Research Strengths

- Survey Design Applied Statistics Model Design

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- RWJF

Responses/Feedback

- I believe that research teams and professional editorial and grant writing support would improve the efficiency and productivity of research at SFA.

Education Studies

Shannon, Darst
darstd@sfasu.edu
512.206.9463

Research Interests

- Best practices for personnel preparation in educational settings; visual impairment communication and literacy; all topics related to students and individuals who are DeafBlind; assistive technology for students in special education; caseload evaluation for visual impairment professionals; all topics related to visual impairment.

Research Strengths

- Strong experience with quantitative and qualitative research; strong experience with survey research design, single-subject case study research design, ethnographic research design, and applied behavior analysis (ABA)-related quantitative research studies; strong statistics and data analysis experience; strong experience working with teams and solo research; strong experience with presentations (international, national, regional, state, and local settings); strong experience with writing and editing article submissions for peer-reviewed journals.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- OSEP, RSA

Responses/Feedback

- I would like to collaborate with various other concentrations and programs in the field education personnel preparation. I would especially like to collaborate with those in the fields of Deaf/Hard-of-Hearing, Educational Diagnostician, Licensed School Psychologist, and Special Education.

Marisol, Diaz
marisol.diaz@sfasu.edu

Research Interests

- Marxist analysis on education Critical pedagogy and academic achievement (elementary) Critical Race theory Critical ethnography Conceptual teaching of science and math as social justice practice.

Research Strengths

- Qualitative methods Problem statement(s)/question Theoretical frameworks

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- TEA

Responses/Feedback

- I need this kind of support!

Summer, Koltonski
koltonsksl@sfasu.edu
936.468.1215

Research Interests

- Special education, disabilities, Applied Behavior Analysis, Autism,

Research Strengths

- Hard work ethic, creative

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Mark, Montgomery
montgomems@sfasu.edu
936.468.1697

Research Interests

- Mathematics education; feedback; teacher noticings; pre-service teacher preparation; co-teaching

Research Strengths

- Qualitative research

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response

Heather, Olson Beal
olsonbehk@sfasu.edu
936.468.1676

Research Interests

- school choice, educational reform, education policy, experiences of women in higher education, MotherScholars, experiences of marginalized 6-12 students in schools and in out-of-school spaces, second language education, immersion programs

Research Strengths

- qualitative research - ethnography, fieldwork, participant and non-participant observation, interviews

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Spencer Foundation, Raise your Hand Texas, US Department of Ed

Responses/Feedback

- We need to connect existing human (and other) resources on campus with existing needs in ways that currently are not being done systematically.

Susan, Reily
reilys@sfasu.edu
936.468.2906

Research Interests

- leadership teacher preparation curriculum and instruction design literacy social and emotional development best practices

Research Strengths

- writing mixed-method design collaborating with others

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- At this moment in time, I feel the two areas most in need are a closer look at leadership methods and best practices related to social and emotional development.

Sarah, Straub
straubsm@sfasu.edu

Research Interests

- Culturally responsive pedagogy, case studies, narrative inquiry, social studies education, bilingual education, study abroad

Research Strengths

- qualitative autoethnography

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Eric, Torres
eric.torres@sfasu.edu
936.468.4071

Research Interests

- -Critical interrogation of education public policy and its global trends -Relations of power in the context of education -Equity, diversity and inclusion in the public space - Re-description of public education as a fundamental right - Pedagogical implications of post-formal approaches to ethics, identity formation, multiple allegiances, fear, conflict and warfare -Critical global learning

Research Strengths

- Active narrative inquiry Qualitative analysis Cultural studies

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- Collaboration in research in international/global settings with undergraduate students as research assistants.

Tingting, Xu
xut@sfasu.edu
936.468.1603

Research Interests

- Early childhood obesity, body size and healthy habits, physical exercises intervention to support academic learning; pre-service teachers study abroad experience, service learning,

Research Strengths

- quantitative method

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF, IES, Spencer foundation

Responses/Feedback

- No response

English

Sara, Parks
sara.parks@sfasu.edu
936.468.2239

Research Interests

- professional and technical communication, science and agriculture communication, writing pedagogy

Research Strengths

- Pragmatic and applied contexts with qualitative, exploratory aims. Small case studies. Interpretive approaches.

Grant Experience

- Yes, external grants only

Funding Agencies

- Sustainable Agriculture Research and Education (SARE)

Responses/Feedback

- I have a lot of experience with the NSF EPSCoR grant and general NSF grant processes since this was the site of my dissertation.

I can support team communication across disciplines. For my own scholarship the team I work with might become the participants, since my work looks at expert communication. However, I'm also interested in external sites related to environmental concerns.

Elizabeth, Tasker
taskerea@sfasu.edu
715.8867

Research Interests

- 18th century British women writers, 18th century rhetoric, rhetorical theory, satire

Research Strengths

- Rhetorical theory, satire theory, literary analysis, archival research, cultural history

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NCTE

Responses/Feedback

- I need motivation to apply for grants. I am concluding several major projects right now, and I want to start a new one.

Environmental Science

Sheryll, Jerez
jerezs@sfasu.edu
936.468.6614

Research Interests

- Air quality assessment, modeling, and control hydraulic fracturing

Research Strengths

- open-minded resourceful and inventive good understanding of the scientific method and data analyses a good writer and speaker a team player

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- USDA, NRCS

Responses/Feedback

- No response

Forestry

I-Kuai, Hung
hungi@sfasu.edu
936.468.2464

Research Interests

- Spatial analysis, remote sensing, unmanned aerial system

Research Strengths

- geographic information system, geostatistics

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- National Institute of Food and Agriculture

Responses/Feedback

- Whenever possible, include the spatial component of any data collected in a research.
-

Matthew, McBroom
mcbroommatth@sfasu.edu
936.468.2313

Research Interests

- Hydrology, water quality, watershed management, ecohydrology

Research Strengths

- Basic and applied research

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- EPA, TCEQ, USFS, NPS, TWRI, TPWD

Responses/Feedback

- No response

Brian, Oswald
boswald@sfasu.edu
936.468.2275

Research Interests

- Any terrestrial applied ecology topic, but not just limited to forestry, fire and range management

Research Strengths

- Research and publications of research.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- USDA, JFSP, TPWD, TFS, NRCS, USDA.....

Responses/Feedback

- No response
-

Christopher, Schalk
schalkc@sfasu.edu
936.468.1332

Research Interests

- Ecology; conservation biology; herpetology; community ecology; trophic ecology; invasive species; amphibians; reptiles; larval amphibians; snakes; turtles; aquatic ecology; wildlife management; non-game ecology; road ecology; experimental ecology.

Research Strengths

- Grant-writing; publishing

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- TPWD; TXDOT; USFS; USDA; NSF; Herpetologists' League

Responses/Feedback

- No response

Jeremy, Stovall
stovalljp@sfasu.edu
936.468.2127

Research Interests

- forestry, silviculture, forest ecophysiology, restoration ecology, mineland reclamation, invasive species

Research Strengths

- research

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF, NIFA, OSMRE, NASA, TPWD, Luminant, HCFCD, Working Lands LLC

Responses/Feedback

- I'm already collaborating with lots of folks at SFA across several departments, so I'm not sure what this might add. We'll see.

Yanli, Zhang
zhangy2@sfasu.edu
936.468.2157

Research Interests

- GIS and modeling, GPS, drone, 3D modeling and printing

Research Strengths

- GIS and modeling, GPS, drone, 3D modeling and printing

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- USDA

Responses/Feedback

- No response

Geography

Jeff, Roth
jroth@sfasu.edu
936.468.4405

Research Interests

- Nacogdoches East Texas New Mexico Black Geographies and History Natural Resources Law and Policy The Borderlands of the U.S. and Mexico Documentary Film Production Policing in the U.S.

Research Strengths

- Nacogdoches New Mexico Black Geographies and History Natural Resources Law and Policy The Borderlands of the U.S. and Mexico Documentary Film Production Policing in the U.S. Historical and Geographical Qualitative and Quantitative Methods

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- SFASU Sustainable Agriculture Research and Education, USDA

Responses/Feedback

- No response

Government (Criminal Justice)

George, Day
daygj@sfasu.edu
936.468.3948

Research Interests

- offender rehabilitation; baseball analytics; faith-based offender programming; offender visitation and recidivism; institutional misconduct within prisons; juvenile delinquency

Research Strengths

- statistical analysis and research design

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

History

Perky, Beisel
pbeisel@sfasu.edu
936.468.2093

Research Interests

- History, architecture, landscape, agriculture, equine, cemeteries, Gilded Age/Progressive Era, timber industry, oral history, museums, historic preservation

so these topics could include collaboration with mapping; surveying; some biology/chemistry especially in the cemetery with gravestones; graphic design; etc.

Research Strengths

- Keeping the big picture in mind while going after the small details - I'm detail oriented - finding linkage between project; primary sources

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- US Dept. of Ed (twice, not successfully), various humanities based grants - successfully; private foundations and private funding all successfully; my students in my non-profit course have a good track record of successful grant applications as well

Responses/Feedback

- I'd like more information

Court, Carney
carneycp@sfasu.edu

Research Interests

- Race, music, and culture in modern America. Broadly defined.

Research Strengths

- Historicizing and contextualizing projects and ideas—especially in terms of music/art.

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response

Human Development and Family Studies

Hyunsook, Kang
kangh@sfasu.edu
936.468.2975

Research Interests

- I am interested in Aging, Health, Dementia/Alzheimer's, Family Well-being.

Research Strengths

- Analysis, Statistics.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH, NIA

Responses/Feedback

- N/A

Ginny, Watkins
ginnywatkins@sfasu.edu
936.468.4502

Research Interests

- Outdoor playgrounds, natural play environments, supporting student parents.

Research Strengths

- Writing, Ethnographies

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Human Sciences

Gina Fe, Causin
causingf@sfasu.edu
936.468.1411

Research Interests

- Expatriation Meetings, Events, Festivals Sustainability and Accessibility Diversity and Multiculturalism

Research Strengths

- Developing research questions Research Methods SPSS Literature Review

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- USDA NSF NIH/NIA USAID

Responses/Feedback

- Anywhere where my expertise is needed. I like transdisciplinary research and open to work with any body who needs me.

Flora, Farago
faragof@sfasu.edu
936.468.2192

Research Interests

- Prejudice and stereotype development in children and adolescents
Racial and gender socialization in childhood
Anti-racist parenting and teaching practices; anti-bias curricula
Scholar-activism and community based participatory action research
Gender development in the Global South; East Africa specifically (Uganda and Kenya)

Research Strengths

- Mixed-methods research practices; international collaborations; building bridges among multi-disciplinary teams

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Spencer Foundation; Russell Sage Foundation; WT Grant Foundation; SRCD; Williams Institute at UCLA;

Responses/Feedback

- Research methods workshops Research brown bags /presentation Collaboration on applying for research grants Statistical consultation

Hyunsook, Kang
kangh@sfasu.edu
936.468.2975

Research Interests

- Aging, Health and aging, Well-being in later life, Alzheimer/Dementia

Research Strengths

- StatisticsandAnalysis

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH

Responses/Feedback

- I would like to have/set up Center on Aging in which I can develop/work my research idea on aging and Gerontology focused. In addition, I am pretty much interested in developing more a Certificate in Aging Studies since it is a multidisciplinary area of study.

Darla, O'Dwyer
dodwyer@sfasu.edu
936.468.2439

Research Interests

- Food fermentation Gut microbiota Dietary Supplements

Research Strengths

- Research design Case studies Review articles

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH

Responses/Feedback

- I need help with statistical analysis
-

Sally, Swearingen
sswearingen@sfasu.edu
936.468.2048

Research Interests

- Residence Hall Life Portfolio's University Libraries

Research Strengths

- Literature reviews Surveys

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Human Services

Jaime, Flowers
jaime.flowers@sfasu.edu
936.468.1117

Research Interests

- 1.) norming novel narrow band measures of personality (or anything) 2.) behavior assessment processes in schools 3.) de-implementation of non EBP in schools 4.) professional issues related to ABA or school staff

Research Strengths

- 1.) strong quantitative research skill
Love doing mixed methods and would love to find a qual researcher wanting to collaborate

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Woodcock johnson foundation

Responses/Feedback

- No response
-

Ralf, Schuster
ralf.schuster@sfasu.edu
936.468.1065

Research Interests

- Assessment in health sciences, rehabilitation, substance abuse, neuroscience, and clinical psychology.

Research Strengths

- I have advanced skills in biostatistics and SPSS and have been immersing myself in using R for meta-analyses. I have undertaken two large systematic reviews in vocational rehabilitation.

Grant Experience

- Yes, external grants only

Funding Agencies

- National Institutes of Health

Responses/Feedback

- SFA should invest in subscribing to the Foundation Directory and SPIN Funding Opportunities Database, which would pay for itself. I have built very large qualitative databases that I cannot access because I no longer have access to NVivo, a standard software for qualitative research everywhere.

Human Services and Educational Leadership

Jessica, Conn
connjl@sfasu.edu
936.468.1330

Research Interests

- Communication and swallowing of individuals with Dementia. Dysphagia Clinical Education and Assessment

Research Strengths

- Clinical and practical application perspective.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- I am currently completing a PhD in Health Sciences but welcome additional experience in applying the processes and theories I am learning.

Rochelle, Cade
rochelle.cade@sfasu.edu
936.468.2602

Research Interests

- Assessment in Counseling Counseling in Correctional and/or Forensic Settings Drug and Alcohol Counseling

Research Strengths

- Not specified

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response

Leigh, Kirby
leigh.kirby@sfasu.edu
936.468.1250

Research Interests

- Retention, recruitment, gatekeeping in the counseling profession, impact of mental health issues on academics,

Research Strengths

- Finding resources, enjoy working with others

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Daniel, McCleary
mcclearydf@sfasu.edu
936.468.3940

Research Interests

- Not specified

Research Strengths

- Not specified

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response

Kinesiology and Health Science

Mary, Hawkins
hawkinsmi@sfasu.edu
936.468.1610

Research Interests

- Community needs assessments, community health, public health assessments, program planning and evaluation, motherscholars, stress, women's health, public health improvement, health access, sexuality, disease prevention, and diversity.

Research Strengths

- Review of literature, Justification/Rationale, Program planning, Logic Models, Evaluation planning, and general grant writing

Grant Experience

- Yes, external grants only

Funding Agencies

- Blue Cross Blue Shield Foundation of Louisiana, Robert Wood Johnson Foundation, Christus Foundation

Responses/Feedback

- I would love to do some collaborative research with other professors!
-

Sarah, Sanchez
sanchezs12@sfasu.edu
210.465.5157

Research Interests

- Investigating a person's critical thinking response to improvisation techniques.
Impact of the arts during and post covid.
Music therapy and somatics.

Research Strengths

- Creation of hands on activities. Simplicity of surveys. Network to other universities.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Languages, Cultures and Communication

Louise, Stoehr
lstoehr@sfasu.edu
936.468.2167

Research Interests

- Applied Linguistics and the Teaching of Languages Foreign Language Pedagogy Computer-Assisted Language Learning Multiculturalism in Contemporary Society Issues of Sustainability across Cultures Social Justice Issues in Modern Germany Translation and Translation Theory Twentieth- and Twenty-First-Century German-Language Literature

Research Strengths

- Not specified

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Linda, Levitt
levittlb@sfasu.edu
936.468.1236

Research Interests

- media studies popular culture studies gender studies cultural memory

Research Strengths

- Not sure what this question means but synthesis of ideas, analysis

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NEH

Responses/Feedback

- No response

Perry, Moon
pmoon@sfasu.edu
936.468.2474

Research Interests

- 20th century French film; the philosophy of Jean-Paul Sartre

Research Strengths

- I'm thorough in my research, and very good at writing prose.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- Actually, I'm not sure what SFA Research Collaborative is. If the point is to collaborate with other faculty or graduate students on research projects, then my own research agenda would not fit with that. I'm answering yes to the question below, but only provisionally until I learn more about the program.

Library, East Texas Research Center

Linda, Reynolds
lreynolds@sfasu.edu
936.468.1562

Research Interests

- Preservation and access of research/materials Digitization/preservation Oral History/interviewing/access to materials Students use of primary source material, on- site/virtual

More on a personal side since I can't seem to ingrain it into my job: Asian Dramas and how they compare to reality and other countries reality (does not include K-pop/mandopop(M-pop/C-pop)/J-pop which are different from dramas but have some overlap), this includes most things hallyu (Korean wave)

Iran history and culture (some political)

Marfan Syndrome (I've learned/lived with a lot and have taught others about its effects)

Research Strengths

- Standards and workflows of digitization, and/or preservation and public access to research material

Oral history best practices, equipment, and public access to interviews

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NEH NHPRC TSLAC Small state/local grants Others I can't remember

Responses/Feedback

- No response

Management and Marketing

Jason, Reese
reesejd1@sfasu.edu
936.468.1465

Research Interests

- Sport marketing for professional sport, intercollegiate athletics, and participant and recreational sport Pricing of sport related products Consumer price perceptions Consumer behavior to price changes in the sport industry Business case writing Case writing

Research Strengths

- Create comprehensive literature reviews. Cohesively write implication sections of manuscripts. Effective teaching notes for case studies.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- The use of innovative methodologies. Data analysis techniques.

Robert, McDermand
mcdermanrd@sfasu.edu

Research Interests

- College athletics Student-athlete welfare Big-data in sports research Sports analytics Sports law Analytic research methods

Research Strengths

- Quantitative analytic research methods Big data Python and R coding Data scraping Literature reviews

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

Mass Communication

janice, cho
janice.cho@sfasu.edu

Research Interests

- Family, Intergenerational influences, advertising, children

Research Strengths

- SPSS, literature review, data gathering, qualtrics

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- No response

Bailey, Thompson
thompsonba@sfasu.edu

Research Interests

- Sexuality, gender, sorority, fraternity, media, social media, television, rape culture, sexual assault prevention programming, athletics

Research Strengths

- Interviewing, survey construction, coding, textual analysis, literature review writing, APA style

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- SPSS help, data analysis

Mathematics and Statistics

Matthew, Beauregard
beauregama@sfasu.edu
936.468.1702

Research Interests

- Applied and Computational Mathematics; Mathematical Biology; Ecological Modeling; Partial Differential Equations

Research Strengths

- Interdisciplinary background in engineering, mathematics, mechanics, and computational science.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF, DOE, DOD

Responses/Feedback

- No response

Keith, Hubbard
hubbardke@sfasu.edu
936.468.1533

Research Interests

- modeling and predicting (STEM) student success, STEM teacher recruitment and training, college student persistence in major, college recruitment in connection with scholarships

Research Strengths

- experience with SFA datasets, experience with longitudinal data

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF

Responses/Feedback

- No response
-

Thomas, Judson
judsontw@sfasu.edu

Research Interests

- Mathematics education and PreTeXt development. PreTeXt is an XML application for authors of scientific articles, textbooks and monographs that incorporates the best of DocBook, LaTeX, and HTML. When a document is written in PreTeXt, it is possible to quickly produce print, PDF, web, HTML, Sage Notebooks, Jupyter Notebooks, and even braille from a single source.

Research Strengths

- I am a principal investigator on a \$2 million NSF grant. I am currently working with colleagues at the University of Michigan, the University of Delaware, and in Greece to better understand how students and faculty use dynamic mathematics textbooks. I have written two books using PreTeXt and working on a third. I am colleagues to further develop PreTeXt.

Grant Experience

- Yes, external grants only

Funding Agencies

- NSF. The PreTeXt group has also submitted a grant to the Sloan Foundation (not funded).

Responses/Feedback

- Time, time, time, time. Did I mention time? Under the current teaching load, it is extremely difficult to do research. I am fortunate that I do not have to teach summer school; however, this is not the case for many. Without time, it is very difficult to conduct a quality research program. Money is also useful.

Greg, Miller
gmillers@sfasu.edu
936.468.1860

Research Interests

- My main interest to share associated with the SFA RC would be to provide statistical consulting through GRANT FUNDED projects. All of the rest of my consulting is done privately through my own consulting firm.

Research Strengths

- communication of statistical ideas in the research context, data analysis, statistical support for extramural projects, design of experiments for research, oral presentation of data-driven topics, statistical analysis involving software, writing.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Internal Texas Higher Educational Coordinating Board Numerous private statistical consulting contracts with private entities (most in healthcare or law)

Responses/Feedback

- I would like to be considered as a "tag along" by researchers who are seeking extramural funding opportunities and need statistical support for their research. I would hope that many researchers around campus would find value in collaborating with a statistician as they put forth research proposals so that they can have greater confidence in the data-driven portion or analysis of their projects. That is the area where I can aid researchers across campus the most.

Jacob, Turner
turnerja2@sfasu.edu

Research Interests

- General statistical methods and consulting.
Current research interests are in statistical study designs, predictive modeling (including classic regression), bioinformatics, clinical trials, nursing projects such as diet studies during pregnancy, compositional analysis (soil compositions, blood counts). Open to learning other fields.

Research Strengths

- I am a practicing statistician. Before coming to SFA, I worked in the industry as a biostatistician where I provided statistical support to anyone at the hospital where I worked. This included working with nurses, biologists, immunologists, and cardiologists. My main role was to provide various degrees of statistical support including power and sample size justification in grant proposals, statistical analysis, writing methods sections in manuscripts, and fielding reviewer questions.

I still currently consult in these areas from colleagues outside of SFA, but would love to do these type of things for my fellow SFA faculty. Build some bridges. I'm open to getting outside of the hard science fields. My wife is finishing her masters in bilingual education so I've become interested in educational research as well.

Can code in R and SAS and somewhat familiar with Minitab and SPSS.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH
Full disclosure, I've always been a co-pi or a was in a supporting role. Of course me playing the statistical support role. I have not applied for an external grant with which I was the PI.

Responses/Feedback

- I'm not sure.

Music

James, Adams
adamsjf@sfasu.edu
936.468.4435

Research Interests

- music production, acoustic systems, Audio-Over-IP, Interactive Music Systems, Music Cognition and Perception.

Research Strengths

- As many of my "research" topics are creative projects that have musical or technical product outcomes, my strength in this area is that I have a many years of experience producing and working in these spaces. Through time, I have honed my ability to work within tight time frames, limited budgets, and to work with peoples from many different backgrounds (artist and technologist). I have been able to involve students in many of my research endeavors. Additionally, my research has had direct contributions to my field as well as contributing to technology upgrades at SFA.

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- I have none at this time.

Music, Band

Chris, Kaatz
kaatzc@sfasu.edu
936.468.1347

Research Interests

- - Impact of conducting (visual movement) on music ensemble performance - Impact of repertoire on student growth in ensemble classrooms - Utilization of "play" in instruction and its effect on speed/depth of student learning and engagement
- Impact of instructor language on students' perception of material and/or their place in the classroom - Student-centric classrooms and their effect on the learning process

Research Strengths

- - Able to generate numerous ideas - Willingness to use my classrooms as a means of exploring research ideas - Teach a variety of classes full of students interested in research

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- The largest population of students I work with are music education majors. Much of my research interests are in regards to objectively identifying effective classroom practices based on students' psychological experience in the classroom. However, my research interests have the capacity to engage with a wide variety of fields across campus.

For example, examining the influence of visual conducting gesture on musical ensemble performance has the capacity to engage the fields of music, dance (conducting gesture is artistic visual movement), psychology (students' perception of gestures), and science (objectively identifying, measuring, and tracking various aspects of visual movement).

Office of Research and Graduate Studies

Sampson, Pauline
sampsonp@sfasu.edu
936.468.2807

Research Interests

- women leadership

Research Strengths

- qualitative NVIVO

Grant Experience

- Yes, external grants only

Funding Agencies

- Dept of ED Rotary

Responses/Feedback

- Collaborative work on external grants

Physics, Engineering and Astronomy

Robert, Friedfeld
rfriedfeld@sfasu.edu
936.468.2197

Research Interests

- Thin Film Solar Cells Electro-chemical deposition Scanning Tunneling Microscopy (STM) Atomic Force Microscopy (AFM) Scanning Electron Microscopy (SEM) Energy Dispersive Spectroscopy (EDS) X-Ray Diffraction (XRD)

Research Strengths

- The Thin Films and Microscopy Laboratory located in the Miller Science Building is available for collaborative work with other interested parties.. I have worked in the past with researchers in the fields of Chemistry/Bio-Chemistry, Geology, Agriculture and Archaeology. I am always on the lookout for new and interesting research projects.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NASA NSF - MRI grant opportunities.

Responses/Feedback

- STM, AFM, SEM, EDS, Tube Furnaces, Solar Simulator, various Keithley Instruments for making electrical measurements, equipment for electro-chemistry.

Psychology

Lauren, Brewer
brewerle@sfasu.edu
936.468.1470

Research Interests

- Self-control, self-regulation, correlates and consequences of philosophical beliefs, free will belief, psychology of money, behavioral economic, judgmentanddecision-making, stereotyping, prejudice, discrimination, gender, person perception, attitudes, women's issues, women in STEM, higher education, educational access and decision-making, scholarship of teaching and learning

Research Strengths

- Quantitative methods and statistics, survey design and construction, experiments with creative manipulations and externally-valid outcome measures, interdisciplinary work. Software expertise: Qualtrics, SPSS, JAMOVI, PSPP, Excel, MediaLab

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Spencer Foundation

Responses/Feedback

- No response
-

Steven, Estrada
estradasm@sfasu.edu
936.468.1415

Research Interests

- How physiological systems produce complex mental states and behavioral action patterns. Emotional influences on judgement and decision making,

Research Strengths

- Strong in experimental design, with an orientation toward theoretically driven hypotheses. Familiar with psychometrics and survey design. Expert in univariate and multivariate analysis, including factor analysis, mediation analysis, logistic regression, hierarchical linear modeling, and canonical correlation.

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NIH, NSF, KECK foundation

Responses/Feedback

- No response

Michael, Walker
mwalker@sfasu.edu
936.468.1483

Research Interests

- Sexual violence response and prevention College student success and wellness Behavioral Intervention / Threat Assessment Teams Suicide Prevention and Response Behavioral Assessment of Attention Application of GIS in social science

Research Strengths

- Behavioral and Psychological Assessment

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Department of Justice/OVWandTexans for Safe and Drug-Free Youth (formally Texans Standing Tall)

Responses/Feedback

- No response

School of Accountancy

Stephanie, Ross
stephanie.ross@sfasu.edu
936.468.1595

Research Interests

- Corporate Governance; Compensation; Auditing

Research Strengths

- Researching the Topic; Writing; Analyzing Results

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- Coding

School of Social Work

Christine, Bishop
christine.bishop@sfasu.edu

Research Interests

- Immigration; adolescents; mentoring; attachment; parenting

Research Strengths

- Qual. research analysis; writing reports; writing literature reviews

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- I would love to be added to the list for potential future collaboration.

School of Theatre

Slade, Billew
billewbs@sfasu.edu **

Research Interests

- Practice Based Research, Somatics, Phenomenology of Performance. Intersections between performance training and cognitive science, intersections between performance training and sports psychology, Ecological performance

Research Strengths

- Clear writer, Development of practical research, Collaboration

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response

CC, Conn
conncs@sfasu.edu
936.468.1031

Research Interests

- Lighting Design, Sound Design, Theatre, Mentoring, gender parity in the arts, women's issues, maternity leave and child care in the arts

Research Strengths

- Creative ideas, presentation of materials, writing

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- I need collaborators that have strengths in editing and qualitative data analysis

Social Work

Steve, Cooper
scooper@sfasu.edu
936.468.2845

Research Interests

- interorganizational relationships; provider/service networks; rural social work; mental health; substance use; health/wellness/well-being; social determinants of health; child/adolescent mental health; Multi-Systemic Therapy (MST); trauma-informed services; interprofessional education

Research Strengths

- mixed methods; quantitative methods; concept mapping; social network analysis; evaluating networks/interorganizational relationships; community action/participatory action research; appreciative inquiry; program/services evaluation

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Health Services and Resources Administration (HRSA); Office of Rural Health Policy (ORHP); Substance Abuse and Mental Health Services Administration (SAMHSA); Economic Development Administration (EDA); Texas Department of Protective and Regulatory Services (TDPRS - predecessor to TDFPS); Hogg Foundation for Mental Health; Patient Centered Outcomes Research Institute (PCOORI); Texas Medical Association Foundation (TMAF); Texas Guaranteed Foundation (TGF); Houston Endowment; Episcopal Health Foundation; US Department of Health and Human Services (USDHHS); Federal Quality Improvement Center for Early Childhood

Responses/Feedback

- No response
-

Emmerentie, Oliphant
oliphante@sfasu.edu
936.468.2291

Research Interests

- 1. Community impact, collaborations and revitalization
- 2. Social and environmental justice and human rights
- 3. HIV/AIDS
- 4. Participatory action research, appreciative inquiries and community/organization needs assessments
- 5. Domestic violence, substance abuse, mental health and quality of life
- 6. Program evaluations for organizations
- 7. International social work and related professions research
- 8. Intervention research

Research Strengths

- 30 years experience in leading research projects including federal and foundation funded projects. 30 years experience serving on doctoral committees for international universities
- Expertise on qualitative research and mixed methodologies including appreciative inquiries, participatory action research, intervention research and use of NVivo
- Experience in designing and implementing community level research study
- Knowledge working with private and public funders

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- HRSA, SAMHSA, Episcopal Health Foundation, T.L.L. Temple Foundation, Hogg Foundation for Mental Health, Robert Wood Johnson Foundation, USAID, CSWE

Responses/Feedback

- Inter-professional research projects - which bring different disciplines together that traditionally do not work together. For example, social work, forestry, STEM. Innovative projects which will benefit rural communities.

Ronald, Rush
rushrr@sfasu.edu
337.274.8873

Research Interests

- Employment/occupational issues; individual, marriage, family counseling/therapy; rural communities; health and social; education (K-12andhigher ed) social; international social issues; faculty intention to stay

Research Strengths

- Qualitative methodology

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- Research/grant guidance, opportunities; assist other researchers.

Theatre

Angela, Bacarisse
abacarisse@sfasu.edu
936.468.1126

Research Interests

- History of clothing clothing as it relates to Women's lives style of clothing clothing and culture arts management

Research Strengths

- clothing

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- continued learning in connecting economy and technology with clothing styles
-

Inga, Meier
meier@sfasu.edu
936.468.4648

Research Interests

- trauma, violence, 9/11, memorialization

Research Strengths

- Not specified

Grant Experience

- Not specified

Responses/Feedback

- No response

Area not specified

Mihae, Bae
baem@sfasu.edu
936.468.3988

Research Interests

- Early Literacy Teaching effectiveness Sports and exercise for all ages

Research Strengths

- Interdisciplinary research Field-based research

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- No response
-

Kevin, Jones
kevin.jones@sfasu.edu

Research Interests

- School/university partnerships secondary education music education Culturally Responsive Teaching Urban Education Black Boys

Research Strengths

- Qualitative research Narrative Inquiry

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- Not specified

Responses/Feedback

- No response

Mark, Ludorf
ludorfmark@gmail.com
936.468.1460

Research Interests

- Customizing education Leadership Attention

Research Strengths

- Statistics Innovative thinking Critical analysis

Grant Experience

- Yes, internal grants only

Funding Agencies

- Not specified

Responses/Feedback

- I would hope the Collaborative would find a way to help faculty to find time to complete research they may have in the process.

Ken, Morton
mortonkw@sfasu.edu
936.468.1401

Research Interests

- Positive effect of exercise on academic performance. Anything related to student wellbeing. Benefits of recreation, exercise, sports on aspects of physical, social, or mental health.

Research Strengths

- Creating and administering surveys We have the perfect facility and programs to aid in this type of research

Grant Experience

- No

Funding Agencies

- Not specified

Responses/Feedback

- Partner with academic programs to determine the effect of exercise/recreation on academic performance.
Positive impact of participation in sport, recreation and exercise on multiple aspects of student wellbeing.

Amanda, Rudolph
rudolpham@sfasu.edu
936.468.1891

Research Interests

- Rural education Gifted education Educational reform

Research Strengths

- Survey design Quantitative design

Grant Experience

- Yes, external grants only

Funding Agencies

- THECB

Responses/Feedback

- No response
-

Alexandra, Van Kley
avankley@sfasu.edu
936.468.2569

Research Interests

- Microbial ecology, Species identification based on DNA; Microbiota and its composition based on next generation sequencing; eDNA and metagenomics; Extremophiles

Research Strengths

- Big data analysis (next generation sequences analysis), bioinformatics

Grant Experience

- Yes, both internal and external grants

Funding Agencies

- NSF equipment grant (collaborative effort)

Responses/Feedback

- Any nature samples that need microbial community identification
