### Agenda:

LAR Ranking Discussion

### Minutes:

- Keep in mind that even though 4 items are submitted and prioritized, that doesn't mean that is the order of state funding.
- In both rankings, 4, 3, and 2 are in the same location, only #1 moves around.
- Conversations took place regarding using rankings from median score or average priority scores.
- This set does have more external forces than the university budget ranking.
- It was pointed out that the governor has started a priority for the state overall. Perhaps this ranking should align more with the states priorities than what the university says.
- Like UBC, should we send all the data with a narrative to the Cabinet for consideration?
- Keith Hubbard motioned to accept the second set of data rankings. Seconded by Trey Turner.
  - o Unanimously accepted, none opposed, none abstained.
- Tim Bisping will send a brief a note to Dr Westbrook.
- End of year wrap up meeting will be held dead week or finals week.
- Future of LEAP. Does this committee have a say? If there are broad budget cuts across the university, should this committee be in the know?

### Next Meeting

Wednesday, May 4 @ 3:30pm in BU133.
