I. POLICY

It is the policy of the SFASU police department that all employees receive training that is mandated by the state and adequate additional instruction in all areas required for the proper performance of specific tasks that are assigned to the department’s officers.

Officers receive their basic peace officer training in an academy setting. While this training is essential to the making of a competent police officer, additional training is needed to familiarize any officer, regardless of prior experience, with the operational policies, procedures, and practices of this department and this community.

This training takes place during a field training program. Experienced officers who have been trained as field training officers (FTO) are used to instruct new officers to ensure that our officers are trained and capable of performing their duties.

II. PURPOSE

The purpose of this policy is to outline the procedures to be used in the field training program.

III. PROCEDURES

A. Organization and Administration
