**STEPHEN F. AUSTIN STATE UNIVERSITY  
Request for Proposal #AUDITOR-FY23**

**ADDENDUM NO. 1**

**THIS ADDENDUM DOES NOT HAVE TO BE ACKNOWLEDGED FOR THE RESPONSE TO  
RECEIVE CONSIDERATION.**

**Please note the following responses to questions received by email:**

1. What is the reason for issuing an RFP?  
Answer: End of current agreement and renewal options.
2. Is there a mandatory rotation requirement?  
Answer: No
3. Are the current auditors eligible to submit a proposal?  
Answer: Yes
4. How long have the current auditors been the auditors for the University Intercollegiate Athletics Program and Charter School?  
Answer: Since 2011
5. Is the transition to a new audit firm a concern? What would lessen your concern?  
Answer: Yes, Given the quick turnaround time of the work, expectations and responsibilities must be clearly defined and understood by both contracting parties.
6. The current RFP is for 1 year with four additional 1-year periods, has the University typically used the option periods?  
Answer: Yes
7. Can you please clarify the submittal process for the proposal? Section 3.32 requests an electronic version with the preference being a searchable PDF. That USB Drive is to be mailed and/or hand delivered to the addresses noted within vs being sent via email in an electronic format?  
Answer: USB Drive is to be mailed or hand-delivered. Do not email.
8. What has been the fieldwork timing in the past (number of weeks)? Has interim test work been performed in the past for the Charter School audit? If not, would you want interim fieldwork to occur?  
Answer: The fieldwork timing is crucial. The duration is a quick turnaround from the date the numbers are available until the reports are delivered. Two to three auditors are typically onsite for two days performing work for both engagements

simultaneously. During the past two years, all work had been performed remotely. Internal Audit dedicates around 40 hours to assist with samples, questions, scheduling, etc. The previous firm did not perform interim fieldwork. Desired time for FY 2022 fieldwork is during the week of December 5.

Answer: FY2020 NCAA \$5,835; Charter \$8,487. FY2021 NCAA \$6,010, Charter \$8,742. No overrun billings.

14. Should proposed fees and budget be included for just the first year or for all 5 potential years?

Answer: Fees for first year should be provided on Exhibit C with a maximum escalation rate provided.

15. Does the University anticipate that the NCAA agreed upon procedures include the required ticket sales audit or is this performed by the University's Department of Audit Services?

Answer: Agreed upon procedures should include required audit elements.

16. What accounting software does the University and Charter currently use?

Answer: Ellucian Banner

17. Will GASB 87 be applicable for the Charter School?

Answer: No

Specifically, the Regulations apply to all students, employees, visitors, and other third parties on University-controlled property, including institutions and entities with whom University places its students. Further, such Regulations prohibit unequal treatment on the basis of sex as well as sexual harassment and sexual misconduct. As a condition of employment, enrollment, doing business, or being permitted on the campus, Contracting Party agrees to: 1) Report immediately to the Title IX coordinator any and all claims of sex discrimination or sexual misconduct; 2) Cooperate with University's Title IX investigation; and, 3) Cooperate fully with all sanctions that University may impose against such individual, organization, or entity, who is found to have violated the Regulations. Texas law authorizes institutions of higher education (defined by Section 61.003, Education Code) to use the group purchasing procurement method (ref. Sections 51.9335, 73.115, and 74.008, Education Code). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP.

## INTRODUCTION

Effective August 1, 2022: NCAA constitution, Article 2(D)(1)(c) states that all members of the NCAA must submit annually its financial data as determined by the division detailing operating revenues, expenses and capital relating to the intercollegiate athletics program.

### Division I:

As mandated under the provisions of NCAA Bylaw 3.2.4.17, NCAA Division I member institutions are required to submit financial data detailing operating revenues, expenses, and capital related to its intercollegiate athletics program to the NCAA on an annual basis. This financial data is subject to agreed-upon procedures performed by a qualified independent accountant and must be presented to the president or chancellor prior to submission to the NCAA via the Membership Financial Reporting System.

### Division II:

As mandated under the provisions of NCAA Constitution 6.2.3 (Financial Report), at least once every three years, NCAA Division II member institutions are required to perform an expenses and revenues review related to its intercollegiate athletics programs which is subject to the agreed-upon procedures. The expenses and revenues review shall be performed by a qualified independent accountant and must be presented to the president or chancellor.

In addition, per the new NCAA Constitution Article 2(D)(1)(c), institutions are required to submit financial data annually to the NCAA via the Membership Financial Reporting System. The data collected will be stored within the Institutional Performance Program (IPP) for comparison and reporting purposes.

### Division III:

Division III members are provided with two methods in which to meet the constitutional requirement.

1. Division III institutions can submit financial data annually to the NCAA via the Membership Financial Reporting System for Institutional Performance Program (IPP) purposes. Per the regular financial audit requirements, revenue and expenditures associated with outside groups or individuals shall be included in this audit.
2. Division III institutions can submit the EADA Certificate of Completion to the NCAA via the Membership Financial Reporting System.

## **BACKGROUND INFORMATION**

### **1. NCAA LEGISLATION**

The NCAA agreed-upon procedure reporting legislation for each of the three membership divisions are contained in each division's manual:

#### **a. Division I**

Bylaw 3.2.4.17. "An institution shall submit financial data detailing operating revenues, expenses and capital related to its intercollegiate athletics program to the NCAA on an annual basis in accordance with the financial reporting policies and procedures. The required data shall include, but is not limited to, the following:

- (a) All expenses and revenues for or on behalf of an institution's intercollegiate athletics program, including those by any affiliated or outside organization, agency or group of individuals;
- (b) Salary and benefits data for all athletics positions. The data shall include base salary, bonuses, endorsements, media fees, camp or clinic income, deferred income and other income contractually guaranteed by the institution;
- (c) Capital expenditures (to be reported in aggregate for athletics facilities), including capitalized additions and deletions to facilities during the reporting period, total estimated book value of athletically related plant and equipment net of depreciation, total annual debt service on athletics and university facilities and total debt outstanding on athletics and university facilities;
- (d) Value of endowments at fiscal year-end that are dedicated to the sole support of athletics;
- (e) Value of all pledges at fiscal year-end that support athletics; and
- (f) The athletics department fiscal year-end fund balance."

Bylaw 3.2.4.17.1. "The report shall be subject to annual agreed-on verification procedures approved by the membership (in addition to any regular financial reporting policies and procedures of the institution) and conducted by a qualified independent accountant who is not a staff member of the institution and who is selected by the institution's chancellor or president or by an institutional administrator from outside the athletics department designated by the chancellor or president. The independent accountant shall verify the accuracy and completeness of the data prior to submission to the institution's chancellor or president and the NCAA. The institution's chancellor or president shall certify the financial report prior to submission to the NCAA. "

**b. Division II**

Bylaw 6.2.3.1. “At least once every three years, all expenses and revenues for or on behalf of a Division II member institution's intercollegiate athletics programs, including those by any affiliated or outside organization, agency or group of individuals (two or more), shall be subject to agreed-on procedures approved by the Division II membership (in addition to any regular financial reporting policies and procedures of the institution) conducted for the institution by a qualified independent accountant who is not a staff member of the institution and who is selected either by the institution's president or chancellor or by an institutional administrator from outside the athletics department designated by the president or chancellor. If, within the last three years, the institution has conducted an overall institutional audit that includes a financial audit of all athletics department funds using the agreed upon procedures, then the institution is not required to perform a separate financial audit of all athletics department expenditures. An institution is not required to use the agreed upon procedures in years outside the once in every three-year cycle.”

Bylaw 6.2.3.1.1. “The report created pursuant to the approved procedures shall be completed and presented to the president or chancellor on or before January 15 after the end of the institution's fiscal year.”

**c. Division III**

Bylaw 6.2.3. “All expenditures and revenue for or on behalf of a Division III member institution's intercollegiate athletics programs shall be subject to the institution's regular financial audit. In particular, additional revenue and expenditures associated with outside groups or individuals shall be included in this audit.”

**2. INTERPRETATIONS**

**a. Objectives of Agreed-Upon Procedures**

The institution's agreed-upon procedures report shall be presented to the president or chancellor by the independent accountant. The report's primary purpose is to ensure that the president or chancellor is made aware of all financial activity (both internal and external) for athletics purposes and to assist the institution in exercising control over financial activity made by or on behalf of the intercollegiate athletics program. The report should not be filed with the NCAA national office. However, should information supplied as a result of this initiative raise questions or prompt concerns about the proper application of NCAA legislation, an institution's president or chancellor may wish to contact the NCAA administrative services staff for assistance.

The report's secondary purpose is to ensure the accuracy of the data the institution is submitting for sports sponsorship, Pell grants and grants-in-aid, which determines the calculation of several Division I NCAA Revenue Distributions.

The agreed-upon procedures scope of work shall include the reporting of revenue and expenses required in NCAA financial reporting information. The definitions used in the agreed-upon procedures provide a consistent means of reporting intercollegiate athletics finances and will provide the presidents or chancellors and

other campus decision makers of our member institutions with empirical data to assist them in making their formal decisions.

Data available for the agreed-upon procedures may vary among institutions as a result of differences in athletics programs' organizational structure, financial resources and accounting and budgetary methods. Information that may prove particularly useful (depending on circumstances noted above) to institutions in evaluating the level of institutional control includes:

- (1) A comparison of actual revenues and expenses related to the intercollegiate athletics program as defined on pages 17-26 (from both internal and external sources) to amounts budgeted;
- (2) The nature of institutional internal controls that affect operations of the intercollegiate athletics program, and
- (3) The relationship of expenses for or on behalf of intercollegiate athletics by affiliated and outside organizations (e.g., booster groups, alumni organizations, independent or affiliated foundations, supporting organizations) to institutional expenses for similar purposes and the nature of internal controls in place to monitor the financial activities of such affiliated and outside organizations.
  1. Affiliated Organization: An organization that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with an organization (in this case the institution and/or intercollegiate athletics).
  2. Supporting Organization: An organization that provides supporting activities, such as management and general activities, fundraising activities or membership development activities, to a not-for-profit organization (in this case a not-for-profit institution and/or intercollegiate athletics).

The financial information, the existence and appropriateness of the institution's internal controls are the responsibility of the institution. Independent accountants, through the application of agreed-upon procedures, should not provide an opinion or assurance on the reliability of financial information generated by the institution, the existence and functioning of appropriate internal controls. The agreed-upon procedures report presents the findings of the agreed-upon procedures performed by the independent accountant. An understanding of this distinction in role and responsibility is crucial to the president or chancellor's effective use of the information provided as part of the agreed-upon procedures performed.

The NCAA has developed the agreed-upon procedures set forth in this document with the assistance of the National Association of College and University Business

Officers (NACUBO) and Association of College and University Auditors (ACUA). These procedures seek to provide flexibility in complying with the provision of Bylaw 3.2.4.17. At a minimum, the institution's president or chancellor should seek information considered consistent with the legislation's purpose and the requirements of professional auditing literature, recognizing reasonable cost and benefit considerations.

An institution's president or chancellor also may request additional information from the institution's athletics department, affiliates and outside groups, as well as the performance of additional agreed-upon procedures in agreement with the independent accountants. Each institution's president or chancellor should consider carefully what approach best serves the institution's needs in evaluating institutional control. The president or chancellor may include a formal assessment of internal controls over intercollegiate athletics programs financial processes.

The independent accountants will not review or include in their reports information concerning the institution's compliance with NCAA legislation. Responsibility for assuring compliance with NCAA legislation is the ultimate responsibility of the institution's president or chancellor, and the information provided as part of the agreed-upon procedures report is intended to assist president or chancellors in their efforts to assure institutional compliance.

While the detection of improper application of NCAA legislation is not the primary function of these procedures, the independent accountants should be alert nonetheless for situations or transactions that may indicate the existence of such conditions. If, during the course of executing the procedures, the independent accountant becomes aware of acts that may indicate a violation of NCAA legislation, the independent accountant shall immediately report the violation to the institution's president or chancellor.

**b. Organization of Intercollegiate Athletics Programs**

Intercollegiate athletics programs vary significantly in scope and complexity among institutions. Financial reporting procedures and controls also vary. For example, some institutions clearly have segregated intercollegiate athletics from other institutional athletics programs and physical education while at other institutions, these activities are integrated with the institution's administrative structure and accounting records.

Likewise, the extent to which institutions receive cash or in-kind contributions from affiliated and outside organizations and the method by which such contributions from affiliated and outside organizations are included in the institution's athletics department's financial statements vary considerably. Institutional accounting practices also differ in areas such as indirect facilities and administrative support, grants-in-aid costs and student-activity fees. Institutions and their independent accountants should be aware of these differences among programs and recognize that NCAA legislation does not mandate particular

organizational structure or specific budgetary approaches.

For purposes of these procedures, as applicable, the independent accountant (or, in Division III, the institution's accountant) shall include certain financial information of the following organizations, agencies and groups within the agreed-upon procedures:

- (1) Booster organizations established by or on behalf of an intercollegiate athletics program. For the purposes of this legislation, a booster group may be defined as any organization that has as its principal, or one of their principal purposes, the generating of moneys, goods or services for or on behalf of an intercollegiate athletics program, or the promotion of said program through other means;
- (2) Independent or affiliated foundations or other organizations that have as a principal, or one of their principal purposes, the generating or maintaining of grants-in-aid or scholarship funds, gifts, endowments, or other moneys, goods or services to be used primarily by the intercollegiate athletics program, and
- (3) Alumni organizations that have as a principal, or one of their principal purposes, the generating of moneys, goods or services for or on behalf of an intercollegiate athletics program and that contribute moneys, goods or services directly to an intercollegiate athletics program, booster group, or independent or affiliated foundation as previously noted.

**c. The Independent Accountant**

In Divisions I and II, the agreed-upon procedures report is required to be conducted by an independent accountant who is not an institutional staff member. This requirement is not intended to question the ability or integrity of institutional accountants or auditors, but rather to emphasize that this is a separate procedure for specific NCAA compliance purposes and to further protect the institution from inferences that the agreed-upon procedures were not objective. In Division III, an independent accountant is not required.

For the purposes of this legislation in Divisions I and II, an individual employed by the state (or by a state university system) to perform audits for that state's colleges and universities (or for the colleges and universities within a state university system) is considered to be an independent accountant, provided the individual is not a regular employee of the institution. The procedures undertaken by state auditors in the performance of their duties should meet the minimum standards set forth in these agreed-upon procedures applicable to the revenues and expenses of all independent booster or support organizations. If state auditors are unable to perform those procedures, the president or chancellor is required to engage an independent accountant to satisfy these procedures. The approach required by the independent accountant to satisfy these procedures will depend

on the scope of the state auditors work and the ability and willingness of the independent accountant to rely on the work performed by the state auditors.

Work performed by internal auditors at Division I and II institutions, even though their responsibility includes an annual financial audit for the entire institution (including intercollegiate athletics and institution-controlled affiliated or outside organizations), would not meet the requirements of this legislation. Internal auditors may prepare schedules and accumulate data or provide other information for the practitioner's use in performing the agreed-upon procedures. Accordingly, independent accountants may use work performed by internal auditors. However, it would be inappropriate for the independent accountant to agree to merely read the internal auditors' report solely to describe or repeat the findings, take responsibility for all or a portion of any procedures performed by the internal auditors by reporting those findings as the practitioner's own, or report in any manner that implies shared responsibility for the procedures with the internal auditors.

## **AGREED-UPON PROCEDURES**

Depending on the institution's existing level of agreed-upon procedures and the organizational structure of the institution's intercollegiate athletics programs and related affiliated or outside organizations, there are several approaches that the independent accountant may use to comply with the agreed-upon procedure requirements for Division I and II institutions. [Note: In Division III, the completion of the institution's regular financial audit shall satisfy the requirements of Bylaw 3.2.4.17, provided that all revenues and expenses for or on behalf of the institution's intercollegiate athletics programs are subject to the annual institutional audit, including additional revenues and expenses associated with affiliated and outside groups or individuals.]

Work performed by an independent auditor as part of a Division I or II institution-wide financial audit would comply with the terms of this legislation if the work performed by the independent auditor relative to the institution's department of intercollegiate athletics conforms to the requirements set forth in the section entitled "Minimum Agreed-Upon Procedures." In using this approach, the independent auditor shall also conduct certain minimum agreed-upon procedures related to the revenues and expenses of affiliated and outside organizations that are not under the accounting control of the institution. See the "Minimum Agreed-Upon Procedures for Affiliated and Outside Organizations" section for details. Affiliated and outside organizations (e.g., booster clubs, affiliated foundations and alumni groups) are considered to be under the accounting control of the institution when all activities of the organization (including revenues and expenses) are recorded on the books and records of the institution and are subject to the internal control structure. Alternatively, where an institution-wide agreed-upon procedure has been performed, the president or chancellor may elect to comply with these agreed-upon procedures by engaging the independent auditor to perform separate agreed-upon procedures as discussed in the next paragraph.

In the event that an institution-wide independent audit has not been conducted, or the athletics department functions as a separate legal or accounting entity (e.g., a separately incorporated athletics foundation), a Division I or II institution would comply with the terms of this legislation by engaging an independent accountant to perform these agreed-upon procedures on the statement. To the extent that activities of affiliated and outside organizations are under the accounting control of the institution, those revenues and expenses shall be included in the statement that the independent accountant applies these agreed-upon procedures against. Otherwise, activities of affiliated and outside organizations shall be subject to minimum agreed-upon procedures as set forth in the section entitled "Minimum Agreed-Upon Procedures for Affiliated and Outside Organizations."

**This section describes the minimum level of procedures considered to be necessary to achieve the objectives of this legislation.**

**1. Athletics Department Statement of Revenues and Expenses**

To provide adequate information for the independent accountant to execute these agreed-upon procedures, the institution must prepare the statement. The statement reports the revenues and expenses of the intercollegiate athletics programs as recorded on the general ledger of the institution. Please note that expenses on behalf of an institution's athletics programs by affiliated and outside organizations not under the accounting control of the institution shall be included in the statement and subject to the agreed-upon procedures set forth in the section entitled "Minimum Agreed-Upon Procedures for Affiliated and Outside Organizations."

Factors that influence the classification of revenues, expenses and major programs in the statement include:

- a. The internal account structure of the reporting institution's intercollegiate athletics program;
- b. The institution's usual treatment of indirect facilities and administrative support related to athletics, and
- c. The degree to which institutional funds or state appropriations are earmarked or budgeted by the institution for athletics and generally considered to be a part of the department's operating revenue. More detailed discussion of revenue and expenditure classifications is set forth separately in Appendices A thru C.

The institution shall prepare the statement using the basic accounting and revenue recognition principles set forth in the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide entitled "Not-for-Profit Organizations" (the "NFP Audit Guide") and in the NACUBO publication entitled "College and University Business Administration." Please note that the statement presents an excess (deficiency) of revenues over (under) expenses but does not present any fund or net asset balances. In addition, changes in loan, endowment or plant funds related to intercollegiate athletics shall not be included in the statement. Significant additions to restricted funds related to intercollegiate athletics, as well as significant changes to endowment and plant funds, shall be disclosed separately in the notes to the statement.

After the institution has prepared the statement, the independent accountant shall meet with the institution's president or chancellor (or his or her designees) to identify areas of significant interest and specific agreed-upon procedures related to both internal controls and other specified areas.

**2. Minimum Compliance Agreed-Upon Procedures**

The institution, through discussions with the independent accountant, shall identify aspects of the institution's internal control structure unique to the intercollegiate athletics department. Consideration should be given to departmental organization, control consciousness of staff, use of internal auditors in the department, competency of personnel, adequate safeguarding and control of records and assets, controls over

interaction with the information technology department, and other relevant matters.

The president or chancellor may include a formal assessment of internal controls over intercollegiate athletics programs financial processes. The independent accountant may test the internal control procedures unique to intercollegiate athletics and internal control procedures for the athletics department. In those situations where the institution's independent accountant performed tests of controls in connection with the audit of the institution's financial statements, the independent accountant may expand the scope of these tests of controls to specifically include transactions from the intercollegiate athletics department.

Regardless of the situation, the independent accountant shall test specific elements of the control environment and accounting systems that are (1) are unique to intercollegiate athletics and (2) have not been addressed in connection with the audit of the institution's financial statements (e.g., the system of accounting for revenues from ticket sales).

Finally, the independent accountant shall perform agreed-upon procedures related to the institution's procedures for gathering information on the nature and extent of affiliated and outside organization activity for or on behalf of the institution's intercollegiate athletics program. The institution must provide the independent accountant with the institution's procedures for gathering information on the nature and extent of affiliated and outside organization activity for on behalf of the institution's intercollegiate athletics program. The independent accountants will then test those procedures. After completing these procedures, independent accountants shall report their findings to the president or chancellor in a format similar to that outlined in Appendix E.

### **3. Minimum Agreed-Upon Procedures**

To identify unusual items, the NCAA has developed minimum agreed-upon procedures for independent accountants to use regarding the accuracy of revenues and expenses of intercollegiate athletics programs. For a complete listing of the minimum agreed-upon procedures, see the sections entitled "Minimum Agreed-Upon Procedures Program for Revenues" and the "Minimum Agreed-Upon Procedures Program for Expenses" in Appendix D to be performed by the independent accountant to comply with this legislation.

The minimum agreed-upon procedures are intended to indicate the nature of the procedures to be performed on the institution's financial systems and records. The institution and their independent accountants should conform to such procedures as appropriate for the institution's systems and records, as well as to professional practice and reporting standards.

Upon approval of the institution, the minimum agreed-upon procedures performed may be tailored by the independent accountant based upon the specific areas of significance to the institution. The institution should keep the objective of the minimum agreed-upon procedures in mind when determining the sufficiency of the procedures to be performed.

The institution's president or chancellor may engage the independent accountant to perform supplemental agreed-upon procedures. The independent accountant shall document the scope of the supplemental agreed-upon procedures requested by the president or chancellor in an engagement letter signed in advance by the institution's president or chancellor. The institution, together with the independent accountant, shall determine the extent of the supplemental agreed-upon procedures to be performed.

**a. Institutional Representations**

In an engagement to apply agreed-upon procedures to certain financial and other information of the institution, the independent accountant shall obtain written representations from the institution's management. These representations may be tailored to cover specific assertions and matters unique to the intercollegiate athletics department (e.g., completeness of the schedule of intercollegiate athletics activities, institutional compliance with NCAA legislation and a listing of all known affiliated and outside organizations reported to the independent accountant).

**b. Report on Agreed-Upon Procedures**

**i. Application of Agreed-Upon Procedures**

The independent accountants' report on agreed-upon procedures applied to the institution should be in the form of procedures and findings. Among other things, the report should have a title that includes the word "independent" and identify the specified parties, the subject matter, and the procedures performed (and findings). See Appendix E for a listing of the required elements for a report on agreed-upon procedures. Examples of reports concerning agreed-upon procedures applied to institution's statement and affiliated and outside organizations' records are included as Appendix E.

**ii. Presentation of the Statement of Revenues and Expenses**

The basis of presentation of the statement will vary among institutions. As a result, the institution's statement may be presented in conformity with accounting principles generally accepted in the United States of America (GAAP) or with a comprehensive basis of accounting other than GAAP.

**iii. Notes and Disclosures**

- (a) Each individual contribution of moneys, goods or services received directly by an intercollegiate athletics program from any affiliated or outside supporting organization, agency or individuals (e.g., contributions by corporate sponsors) that constitutes 10 percent or more of all contributions received for intercollegiate athletics during the reporting period shall be disclosed in the notes to the statement of athletics department revenues and expenses (the "statement") and included in the agreed-upon procedures report. Disclosure of the source of funds, goods and services, as well as the value associated

these items, shall also be made within the notes to the statement. In addition, as part of the minimum agreed-upon procedures, the independent accountant shall obtain and review documentation for each such contribution.

- (b) A description of the institution's policies and procedures for acquiring, approving, depreciating, and disposing of intercollegiate athletics-related assets, shall be included in the notes to the statement.
- (c) The independent accountant shall also obtain repayment schedules for all outstanding intercollegiate athletics debt maintained by the institution during the reporting period. At a minimum, the independent accountant shall recalculate annual maturities (consisting of principal and interest) provided in the schedules obtained. The independent accountant shall then agree the total annual maturities to documentation and the institution's general ledger, as applicable. The repayment schedule(s) shall be included in the notes to the statement.

## **MINIMUM AGREED-UPON PROCEDURES FOR AFFILIATED AND OUTSIDE ORGANIZATIONS**

Following are minimum agreed-upon procedures that independent accountants and institutions shall use in applying agreed-upon procedures related to expenses for or on behalf of intercollegiate athletics programs by affiliated and outside organizations not under the institution's accounting control. The results of these procedures may be reported and included within the agreed-upon procedures report on the institution. See Appendix E.

1. The institution shall identify all intercollegiate athletics-related affiliated and outside organizations and obtain those organizations' statements for the reporting period. Once the institution has made these statements available, the independent accountant shall agree the amounts reported in the statement to the organization's general ledger or, alternatively, confirm revenues and expenses directly with a responsible official of the organization. ### Athletic Student Aid

- 29.** Select a sample of students (10% of the total student-athletes for institutions who have used NCAA's Compliance Assistant (CA) software to prepare athletic aid detail, with a maximum sample size of 40, and 20% of total student-athletes for institutions who have not, with a maximum sample size of 60) from the listing of institutional student aid recipients during the reporting period. Data should be captured by the institution through the creation of a squad/eligibility list for each sponsored sport.

*Note: The Division I revenue distribution equivalencies (athletic grant amount divided by the full grant amount) should only include tuition, fees, room, board and required course-related books, per Bylaw 20.02.7. Cost of Attendance or Other Expenses Related to Attendance are not countable for revenue distribution purposes. To access revenue distribution equivalencies within Compliance Assistant (CA), go to Reports > Standard Reports > Calculation of Revenue Distribution Equivalencies Report (CRDE).*

- 30.** Obtain individual student account detail for each selection and compare total aid in the institution's student system to the student's detail in CA or the institution report that ties directly to the NCAA Membership Financial Reporting System.

- 31. Division I Institutions Only:** Perform a check of each student selected to ensure their information was reported accurately in either the NCAA's CA software or entered directly into the NCAA Membership Financial Reporting System using the following criteria:

- The equivalency value for each student-athlete in all sports, including head count sports, needs to be converted to a full-time equivalency value. The full-time equivalency value is calculated using the athletic grant amount reported on the Calculation of Revenue Distribution Equivalencies Report (CRDE) from CA as

the numerator and the full grant amount which is the total cost for tuition, fees, required course-related books, room and board for an academic year as the denominator. If using the NCAA CA software, this equivalency value will be calculated for you on the CRDE report labeled "Revenue Distribution Equivalent Award".

- Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount).
- Other expenses related to attendance (also known as cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board, and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.7). Note: for compliance purposes equivalencies may include other expenses related to attendance per Bylaw 15.02.2, however these expenses are not allowed to be included for revenue distribution equivalencies.
- Full grant amount should be entered as a full year of tuition, not a semester or quarter.
- Student-athletes are to be counted once, regardless of multiple sport participation, and should not receive a revenue distribution equivalency greater than 1.00.
- Athletics grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championships competition, emerging sports for women and football bowl subdivision football.
- Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants' requirements of Bylaw 20.9.6.3.
- Institutions providing grants to student-athletes listed on the CRDE as "Exhausted Eligibility (fifth-year)" or "Medical" receive credit in the grants-in-aid component.
- The athletics aid equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (reference Bylaw 15.5.3.1).
- If a sport is discontinued and the athletic grant(s) are still being honored by the institution, the grant(s) are included in student-athlete aid for revenue distribution purposes.
- All equivalency calculations should be rounded to two decimal places.
- If a selected student received a Pell Grant, ensure the value of the grant is not

included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.

- If a selected student received a Pell Grant, ensure the student's grant was included in the total number and total dollar value of Pell Grants reported for Revenue Distribution purposes in the NCAA Membership Financial Reporting System.

## **ADDITIONAL MINIMUM AGREED-UPON PROCEDURES**

In order for the NCAA to place reliance on the **Division I** financial reporting to calculate the Division I NCAA revenue distributions, which is a financial benefit to the institution, the following procedure are required:

**1. Grants-in-Aid:**

- a. Compare and agree the sports sponsored reported in the NCAA Membership Financial Reporting System to the Calculation of Revenue Distribution Equivalencies Report (CRDE) from Compliance Assistant (CA) or other report that supports the equivalency calculations from the institution. The NCAA Membership Financial Reporting System populates the sports from the NCAA Sports Sponsorship and Demographics Form as they are reported by the institution between May and August. If there is a discrepancy in the sports sponsored between the NCAA Membership Financial Reporting System and the CRDE or other report that supports the equivalency calculations, inquire about the discrepancy and report the justification in the AUP report.
- b. Compare current year Grants-in-Aid revenue distribution equivalencies to prior year reported equivalencies per the Membership Financial Report submission. Inquire and document an explanation for any variance great than +/- 4%.

**2. Sports Sponsorship:**

- a. Obtain the institution's Sports Sponsorship and Demographics Form submitted to the NCAA for the reporting year between May and August. Validate that the countable NCAA sports reported by the institution met the minimum requirements, set forth in Bylaw 20.9.6.3, related to the number of contests and the number of participants. If the institution requested and/or received a waiver related to minimum contests or minimum participants for a sport, that sport would not qualify as a sponsored sport for the purposes of revenue distribution. Also, only sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football are eligible. Once countable sports have been validated, ensure that the institution has properly reported these sports as countable for revenue distribution purposes within the NCAA Membership Financial Reporting System. Note: Any discrepancies MUST be resolved within the NCAA Membership Financial Reporting System prior to the report being submitted to the NCAA.
- b. Compare current year number of Sports Sponsored to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance.

*\*Note for 2020-21 reporting only: Sports an institution expected to sponsor in academic year 2020-21, as reported on the institution's 2020 Sports Sponsorship and Demographics form, would qualify as a sponsored sport for the purposes of revenue distribution. This exception is consistent with the intent of the Division I Council Coordination Committee's decision on March 25, 2020 to grant an extraordinary blanket waiver in light of the impact of the COVID-19 global pandemic.*

### **3. Pell Grants:**

- a. Agree the total number of Division I student-athletes who, during the academic year, received a Pell Grant award (e.g. Pell Grant recipients on Full Athletic Aid, Pell Grant recipients on Partial Athletic Aid and Pell Grant recipients with no Athletic Aid) and the total dollar amount of these Pell Grants reported in the NCAA Membership Financial Reporting System to a report generated out of the institutions financial aid records of all student-athlete Pell Grants. Note 1: Only Pell Grants for sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football are countable. Note 2: Student-athletes should only be counted once even if the athlete participates in multiple sports. Note 3: Individual student-aid file testing in step 31 above should tie any selected student athletes who received Pell Grants back to the report of all student athlete Pell Grants to test the completeness and accuracy of the report.
- b. Compare current year Pell Grants total to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance greater than +/- 20 grants.

## **APPENDIX F | Common Questions and Answers**

- Q: Can an internal auditor of one member institution conduct the required independent audit for another member institution in the same state system?
- A: Yes, provided the individual is an independent certified auditor and is not a staff member of that institution.
- Q: Can a member institution seek an extension of the deadline for completion of the annual agreed-upon procedures?
- A: No. NCAA legislation does not contain a provision under which the deadline may be extended or waived.
- Q: Are agreed-upon procedures performed by the internal audit division of a state system of higher education considered independent?
- A: Yes, since individuals who perform the work are employees of the state system reporting to the system's director of internal audits, provided the internal audit division performs the minimum agreed-upon procedures in a manner consistent with NCAA agreed-upon procedures for each institution.
- Q: Are there specific sanctions for noncompliance of the agreed-upon procedures?
- A: As a Division I member failure to complete the required agreed-upon procedures during the period allotted would constitute a violation of NCAA Bylaw 3.2.4.17. The institution would be subject to the Association's enforcement procedures and would need to contact the NCAA enforcement staff to report the circumstances of the violation, as well as any procedures the institution may have implemented to prevent a recurrence.
- Q: How does a Division II institution satisfy the agreed-upon procedures requirement if the institution sponsors a sport(s) at the Division I level?
- A: The NCAA Interpretations Committee determined during its June 30, 1993, conference call that a Division II member institution that sponsors a Division I sport(s) shall not be subject to agreed-upon procedures (Based on Division II legislative action August 2004) for the Division I sport(s). This interpretation supersedes the previous legislative staff interpretation of January 15, 1992.

- Q: Does an independent group or organization that does not constitute a booster organization by name only (e.g., alumni association, foundation) need to have its athletically related financial activities included in the institution's financial audit (i.e., tested by the auditor and reported to the institutional auditor)?
- A: Any agency or group of individuals (two or more) that has as its principal purpose the generation of moneys, goods or services for or on behalf of an intercollegiate athletics program should be included in the annual agreed-upon procedures.
- Q: Once affiliated and outside organizations (e.g., independent groups, affiliated foundations), such as those that do not fall under the purview of direct institutional oversight, are identified, how is their financial data to be included in the agreed-upon procedures?
- A: Either the organization's statements of revenues and expenses should be procured or, if audited independently of the institution, agreed-upon procedures and any reports to management related to the internal control structure need to be obtained and reviewed. Also, a schedule of expenses by the affiliated and/or outside organization for or on behalf of the institution's athletics program should be obtained and reconciled with the revenues recorded in the athletics program's accounting records.
- Q: What are the criteria used in compiling the total dollars generated for or on behalf of an athletics program?
- A: An institution must disclose in a footnote to the statement of athletics department revenues and expenses contributions from any outside source (not included as an agency, organization or group as indicated in the NCAA agreed-upon procedures in the section entitled "organization of intercollegiate athletics programs") that constitutes more than 10 percent of all contributions received (e.g., contributions by corporate sponsors). The source from which such funds are received also shall be disclosed in a footnote to the statement of revenues and expenses.
- Q: For an institution with a fiscal year-end which would preclude a timely report, how can an exception be granted to report on the most recent fiscal year that is completed?
- A: The institution should contact the NCAA Administrative Services group for guidance.
